

The Graduate College Handbook of Policy and Requirements for Students, Faculty and Staff

Part 1 - Graduate Student Policies

This handbook contains policies set forth by the Graduate College at the University of Illinois at Urbana-Champaign and is current as of August 2012. Previous versions of the handbook are available in the [archives](#) [1]. Individual graduate programs or departments may have additional policies. Please consult the Web sites and contacts given throughout this handbook or at the [University of Illinois homepage](#) [2] for current policies in other units.

Chapter I: Graduate Education at Illinois

A. Introduction

Graduate students at the University of Illinois at Urbana-Champaign are enrolled in the Graduate College. This Handbook covers campus academic and administrative policies and requirements pertaining to graduate students at the University, and is current as of August 2012. All graduate students must follow Graduate College policies.

In addition to the policies outlined in this handbook, individual graduate departments or units may have additional policies specific to students enrolled in their units, and students should become familiar with their departmental handbooks. Please consult the Web sites linked throughout this handbook for additional information.

The College awards doctoral degrees, master's degrees, Certificates of Advanced Study and Artist's Diplomas, which will be referred to as degrees or graduate degrees throughout the document. With oversight responsibilities for all graduate students pursuing degrees in every major in more than a dozen academic colleges, schools, and institutes, the Graduate College works to

address a wide range of issues basic to graduate education at Illinois. More information about the Graduate College is online at www.grad.illinois.edu. [3]

B. Administration and Governance

The Graduate College of the University of Illinois at Urbana-Champaign has jurisdiction over programs leading to all post baccalaureate degrees awarded by the Urbana-Champaign campus of the University of Illinois, including Certificates of Advanced Study and Artist's Diplomas. The only exceptions are the Juris Doctor degree program in the College of Law and the Doctor of Veterinary Medicine degree program in the College of Veterinary Medicine. The Graduate College is responsible for developing and safeguarding high academic standards and promoting research in all academic disciplines, and operates according to established [bylaws](#) [4]. However, graduate students must also be aware of [campus and University policies as well as state law](#) [5], that could impact graduate students but are not under the jurisdiction or authority of the Graduate College.

The Graduate College approves the appointment of graduate faculty members. For more details on graduate faculty membership, see the [Graduate College Policy on Graduate Faculty Membership](#) [6] adopted October 24, 1999. More details on graduate faculty and doctoral committees can be found elsewhere in this handbook ([see chapter VII.D](#) [7]).

The chief executive officer of the Graduate College is the dean. The work of the Graduate College is supported by a number of advisory committees. The [Graduate College Executive Committee](#) [8] (GCEC) is the Graduate College's primary policy-making body. The GCEC consists of eight graduate faculty members elected by the graduate faculty, six graduate faculty members appointed by the chancellor on the recommendation of the dean and current members, and two graduate student observers. The [Program Subcommittee](#) [9] of the Executive Committee provides initial review of program proposals prior to GCEC approval.

The [Committee on Extended Education and External Degrees](#) [10] (CEEED) is responsible for ensuring the quality of all graduate degree programs offered to students off-campus, including programs delivered through electronic distance learning technologies. The committee consists of at least eight members appointed by the dean of the Graduate College, as described in the [CEEED bylaws](#) [11].

The [Fellowship Board](#) [12] consists of fifteen faculty members and two graduate student members. This committee sets campus policy on graduate fellowships and grants and awards approximately \$4 million in student support per year.

Many other committees also are advisory to the Graduate College, some short-term and some long-lasting. A complete list of Graduate College Committees for the current academic year can be found [here](#) [13].

C. Academic Integrity and Intellectual Property

The Graduate College and the Office of the Vice Chancellor for Research work collaboratively to ensure commitment to principles of academic integrity and responsible scholarly conduct. A number of campus policies outline ethical and professional standards applying to faculty, students, and staff, and prescribe procedures to be followed when unethical conduct may have occurred. Students should be familiar with the following resources on academic integrity and professional conduct:

- [Bylaws of the Graduate College](#) [4]
- [Good Ethical Practice: A Handbook for Faculty and Staff at the University of Illinois](#) [14]
- [Institutional Animal Care and Use Committee](#) [15] (IACUC)
- [Institutional Review Board Regulation and Policies](#) [16] for human subjects research
- [Responsible Professional Conduct: Guidelines for Teaching, Research, and Service](#) [17], from the [Academic Human Resources' Staff Handbook](#) [18]
- [The Student Code](#) [19]
- [University of Illinois Policy and Procedures on Academic Integrity in Research and Publication](#) [20]

The term "intellectual property" refers to property that includes patents, copyrights, trade secrets, and trademarks. Any individual using University facilities, equipment, funds, or resources needs to be aware of University policies and procedures related to sponsored research and intellectual property issues, including rights to inventions and copyrightable works developed at the University. Students should also see [chapter VI.B.3](#) [21] for more details about patents and copyrights related to theses. For additional information about intellectual property, consult the [Office of Technology Management](#) [22].

D. Academic Resources

The Graduate College provides services to students, graduate advisers, and academic units regarding admissions, registration and records, fellowships and grants, tuition and fee waivers, thesis preparation, underrepresented student

support, degree requirements, career services, and student academic concerns including academic standing, and grievances.

Many campus resources can be found online, and some of those most important for students include:

- [Graduate College Website](#) [3]
- [Class Schedule](#) [23]
- [Course Catalog](#) [24]
- [Graduate College Events & Deadlines](#) [25]
- [Programs of Study](#) [26]
- [The Student Code](#) [27]

Faculty members are a critical resource for students. Departments typically assign a faculty member to new students to provide assistance with planning of their academic programs. Once students have settled on an area of special research interest, they are generally expected to choose a faculty member from that area to act as their primary adviser. In addition, the department's Director of Graduate Studies, Graduate Program Contact, and Executive Officer are important academic resources.

E. Terms and Definitions

1. Terminology Used Throughout this Handbook:

- "department" or "unit" may refer to a program, school, institute, or similar type of academic unit,
- "fellowships" and "fellows" include traineeships and trainees except where specified,
- "students" refers to graduate students,
- "term" and "semester" are used interchangeably, and
- "thesis" may refer to a thesis or a dissertation.

2. Definitions: More information related to each of these terms can be found by searching the Graduate Handbook.

- **academic standing** – full, probation and dismissal status
- **academic term** – an academic term begins the first day of classes and ends on the last day of final exams.
- **adviser** – a member of the graduate faculty who is formally charged with assisting a student in planning the course of study;

this person may or may not also be the student's director of research

- **cancellation** – a student cancels registration and avoids payment of tuition and fee charges by completing a Withdrawal/Cancellation form ^[28] (PDF) and submitting it before 5:00 p.m. on the last business day before the first day of instruction of the term. For more information see chapter VIII.C ^[29].
- **chair of committee** – faculty member who is responsible for convening an examination committee, conducting the examination, and submitting the result of the examination to the necessary offices. This person may or may not be the student's adviser or director of research
- **concentration** – an area of specialization within a student's major that is approved as a program of 24-32 hours, and will show on a student's transcript when properly completed
- **conferral** – the date on which the University officially records and grants degrees; there are three conferral dates in each academic year
- **degree audit** – a review to certify that a student has met all the requirements for graduation and the degree can be conferred
- **degree-seeking or degree candidate** – a student status in which the student is in the process of obtaining a degree
- **deposit** – the process of submitting to the Graduate College the thesis and other forms necessary to graduate
- **director of research** – person who oversees a graduate student's research project or thesis. This person may be different from the student's adviser.
- **dissertation** – document deposited in the Graduate College as a requirement for the doctoral degree; can also be called a thesis
- **drop** – the act of dropping one or more courses from the student schedule. May result in the grade of W (withdraw) appearing on the transcript.
- **dual degree** – pursuit of two separate degrees at the same time

- **GPA** – Graduate and Professional Admissions ^[30], the unit within the Graduate College that oversees the graduate application process, and SEVIS processing for international applicants, and admits all graduate students to the University
- **GSAS** – Graduate Student Academic Services ^[31], the unit within the Graduate College that supports graduate academic record services (petitions, registration, end of term processes), and assists students with advising, problem solving, and conflict resolution
- **joint degree** – a campus approved program in which a student concurrently pursues two specifically identified degrees, and those degrees are conferred simultaneously. For graduate students this is a combination of a graduate degree with one of the following: another graduate degree, an undergraduate degree or a professional degree.
- **major** – the approved area of study in which a student receives the degree, for example, Physics, Music, English, Special Education, Finance, etc.; for a complete list, see the Graduate Programs of Study ^[32]
- **minor** – an approved area of specialization outside a student’s major area of study consisting of at least 12 hours; approved minors will show on a student’s transcript when requirements have been completed
- **non-degree** – a student status in which the student is not seeking a degree or applying credit toward a future degree
- **petition** ^[33] – the process a student uses to request an exception to a Graduate College academic policy or deadline
- **off-campus** – refers to courses offered by the University of Illinois at Urbana-Champaign’s Online & Continuing Education unit at locations other than the main campus
- **online** – refers to courses offered by the University of Illinois at Urbana-Champaign’s Online & Continuing Education unit using instructional technologies
- **Reading Day** – the designated period between the last day of classes and the first day of final examinations

- **residence credit** – credit hours earned at the University of Illinois Urbana-Champaign campus or at other designated locations; a certain number of residence credit hours are required for each degree
- **residency** – home location used to determine application status and tuition assessment rate
- Registrar, Office of the ^[34] – the unit that oversees campus registration processes, assesses tuition and fees, certifies degrees, and issues transcripts
- **SEVIS** – Student and Exchange Visitor Information System ^[35], the Internet-based program operated by the Immigration and Customs Enforcement (ICE) to track all students and scholars who are in F-1 and J-1 status, along with their spouses and dependents
- **term** – see “academic term”
- **thesis** – document deposited in the Graduate College as a requirement for a graduate degree; for doctoral students, can also be called a dissertation
- **traineeship** – a type of fellowship that is awarded to provide educational training in particular disciplinary areas (see chapter X.B ^[36] for more information).
- UI-Integrate Self Service ^[37] – the interface that students use for registration and records, financial aid, billing, personal information, and to apply for graduation; faculty use this interface for course management and advising services
- **withdrawal** – a student who wishes to drop all courses after the cancellation deadline ^[38] whether enrolled for one or more courses, must withdraw from the University for that semester, (see chapter VIII.C for more information ^[29])
- **withdraw** – W, a permanent transcript notation signifying an approved withdraw without credit from a course, (see chapter IV.A.1 for more information ^[39])

Chapter II. Admission to the Graduate College

Students must apply to and be admitted to the Graduate College by the Graduate and Professional Admissions unit. Students may or may not be degree-seeking, and admission procedures differ based on this distinction. Except in the case of non-degree admission, students may only be admitted to the Graduate College if first approved and referred for admission by the academic program of study. Admission procedures and policies also differ depending on whether an applicant is defined as having domestic or international citizenship.

A. Non-Degree Applicants

Applicants may seek admission to the University of Illinois as a non-degree seeking student in one of two ways:

1. Non-degree admission to the Graduate College, no program assigned:
 - Available for all terms,
 - No department approval,
 - *Bachelor's degree verification within first term of enrollment
 - *Application Fee

2. Non-degree admission to a graduate program:
 - Available for all terms,
 - With department approval,
 - *Bachelor's degree verification within first term of enrollment
 - *Application Fee

*Note: These conditions do not apply to international exchange students.

Approved March 1, 2010; Effective Summer 2010

B. Degree-seeking Applicants

Applicants apply to an academic program using the online ApplyYourself system and the application instructions provided by the home academic unit and the

Graduate College at the Urbana-Champaign campus. Programs may set additional application requirements, and deadlines will vary by unit. Applicants should consult with the desired [program offices](#) ^[40] for details. Programs will review the application first and may either deny admission or recommend admission to the Graduate College. The Graduate College will then review and grant official admission to the University if the applicant meets the Graduate College minimum requirements. Applicants may not apply to a program in which they already hold a similar degree (see [chapter V.A.7.](#) ^[41] for details.) The Graduate College requires all applicants to submit these materials with the online application:

- Application form,
- Academic credentials from all post-secondary institutions attended,
- Personal Statement,
- Resume,
- Three letters of recommendation, and
- Application fee ([waived for some individuals](#) ^[42]). The non-refundable application fee amount is determined by citizenship status. Payment may be made online via credit card. An application cannot be processed until the application fee has been submitted. A change in desired term of entry may require a second application and application fee to be assessed. See part 2 chapter II.C. for details.

For undergraduate degrees obtained at institutions outside the United States, please review our [minimum admission requirements by country site](#) ^[43] to determine if your degree would be accepted as a comparable bachelor's degree.

1. **Minimum Requirements for Admission**

A student who does not meet one or more of the admission requirements may be approved for [admission with limited status](#) ^[44] with support from the academic program and approval from the Graduate College.

- Applicants must have earned at least a [comparable bachelor's degree](#) ^[45] from an accredited college in the United States or a comparable degree from a recognized institution of higher learning abroad. A grade point average (GPA) of 3.0 (A=4.0), or comparable GPA for an international applicant, for last two years of undergraduate study is a minimum requirement for admission. If your undergraduate study is longer than 4 years, additional semesters may be used to calculate the admission GPA. Please note that proposed programs of study may require a higher GPA than the Graduate College's minimum standard.
- Applicants enrolled in the final year of a bachelor's degree from an accredited college in the United States or a or

comparable degree program from a recognized institution of higher learning abroad, and who meet the GPA requirements stated above will be admitted conditionally pending receipt of final academic credentials showing the undergraduate degree as conferred.

- International applicants must meet minimum requirements ^[46] based on their country of origin. Please note that proposed programs of study may require a higher GPA than the Graduate College's minimum standard.

2. Comparable Bachelor's Degree

A comparable bachelor's degree from a U.S. institution must meet the following criteria:

- The institution must be accredited by one of the following regional accrediting organizations:
 - Middle States Association of Colleges and Schools Middle States Commission on Higher Education
 - New England Association of Schools and Colleges Commission on Institutions of Higher Education
 - North Central Association of Colleges and Schools The Higher Learning Commission
 - Northwest Commission on Colleges and Universities
 - Southern Association of Colleges and Schools Commission on Colleges
 - Western Association of Schools and Colleges Accrediting Commission for Senior Colleges and Universities
- The academic major must be a comparable major to those of the University of Illinois. A list of these majors can be found at <http://courses.illinois.edu/programs> ^[26]. Most non-traditional programs with academic majors such as General Studies will not be accepted as a comparable bachelor's degree. Other non-traditional programs such as Board of Trustees and Board of Governors degrees, or degree programs that do not grant course grades to the majority of courses, will not be accepted as a comparable bachelor's degree.
- In addition, you must have fulfilled a standard residency requirement at your undergraduate institution. We generally require 60 hours at the degree-granting institution; however, students with 45-59 hours at the degree granting institution will be reviewed for full status on a case-by-case basis. Students with

less than 45 hours at the degree granting institution will not be accepted as having a comparable bachelor's degree.

If the undergraduate program is one that is not considered a comparable bachelor's degree, the department may wish to consider admission on limited status [41].

3. **Transcripts**

Applicants must list in the online application each institution of post-secondary education from which they have earned credit. Applicants must also upload their transcript / academic record (and diplomas or certificates of degrees if the degree is awarded and not listed on the transcript) for each of these institutions to their online application.

Official Academic Credentials

All credentials uploaded to the online application are considered unofficial. You will only be asked to submit official credentials (transcripts, academic records, diplomas, certificates of degrees, etc.) if you are admitted. These must be submitted during your first term of enrollment at the University of Illinois in order to continue beyond the first term.

The University of Illinois reserves the right to require official academic credentials at any time during the admissions process, and rescind any offer of admission made if discrepancies between unofficial and official transcript(s) are found in the Student Code [47].

4. **Defining Applicants as International or Domestic**

a. **Domestic Applicants**

Domestic applicants are citizens or lawful permanent residents of the United States, or have been granted Asylee, Refugee or Paroled in the Public Interest status by the United States government. Domestic applicants are required to submit a **\$70.00 application fee**. Lawful Permanent Residents are also required to upload a copy of their Permanent Resident Card (Green Card) directly to the online application. If you have submitted an application, but have not yet been approved for United States Permanent Residency, please see the instructions for International applicants in the next section.

b. **International Applicants**

International applicants are citizens or permanent residents of a country to which they intend to return other than the United States. International applicants may be in the United States on an educational, worker or visitor visa, or be residing in their home country. International applicants are required to submit a **\$90.00 application fee** by credit card. International applicants who are requesting F-1 or J-1 visa eligibility documents are also required to provide evidence of financial support [48].

Please note: International applicants who have filed an application for United States Permanent Residency, but have not yet been granted approval, are considered International applicants and are required to submit a **\$90.00 application fee** (effective with 2011 applications) but are not required to provide financial documentation. The applicants should choose the "Adjusted in Status" citizenship type and upload a copy of the Application Receipt notice from USCIS directly to the online application.

C. English Proficiency Requirement for Admission of International Applicants

All applicants whose native language is not English are required to submit the results of the TOEFL or IELTS as evidence of English proficiency. Official scores are required to be submitted directly from TOEFL/ETS or IELTS.

Minimum Scores for English Proficiency Requirements for Admission can be found at www.grad.illinois.edu/admissions/instructions/04c [49]. Students not meeting the minimum score for admission may be admitted on Limited Status [50]. Please note that admission minimums are not equivalent to minimums required for holding a Teaching Assistant Appointment.

- Graduate applicants may be exempt from providing a TOEFL or IELTS score if one of the following criteria is met:
 - Completion of at least two years of post-secondary full-time study, as defined by the home institution, in a country where English is the primary language and at an institution where English is the primary medium of instruction, within five years of the proposed term of initial enrollment at the University of Illinois at Urbana-Champaign.

OR

- Completion of a graduate degree in a country where English is the primary language and at an institution where English is the primary language of instruction, within five years of the proposed term of initial enrollment.

IMPORTANT: Please note that this exemption is for admission purposes only. This may not necessarily provide an exemption for international teaching assistants. For more information, please see the [English Proficiency Requirement for International Teaching Assistants](#) ^[51].

Please [click here](#) ^[52] for a list of countries that qualify for an exemption from the admissions requirement.

Chapter III: Student Status and Registration

There are three academic terms in each academic year: fall, spring, and summer. Graduate-level courses are assigned 400- and 500-level course numbers. Some 600 and 700-level courses are also approved for graduate credit.

A. Student Status

A student may be admitted to the Graduate College with either full graduate standing or with limited status, as a degree-seeking student or as a non-degree student. The admission status is stated in the Notice of Admission, which is issued by [Graduate and Professional Admissions](#) ^[53]. Students must have full graduate standing and be degree-seeking in order to be awarded a graduate degree.

1. Limited Status:

A student who does not meet one or more of the admission requirements may be approved for admission with limited status. The most common reasons for limited status admission are:

- course deficiencies, as determined by the department, that must be remedied,
- low GPA (grade point average below 3.0 on a 4.0 scale), see [chapter IV.B.5](#) ^[54] for more information,
- no comparable bachelor's degree, see [chapter IV.B.5](#) ^[55] for more information, or
- a lack of demonstrated English language proficiency.

Students admitted with limited status must address deficiencies in order to be granted a degree. Additionally, to continue beyond the first semester, students must fulfill all conditions of admission, including providing all required transcripts.

2. **Non-degree Status:**

There are several types of non-degree students. Non-degree students who wish to take classes in the fall or spring semesters must apply to and be recommended for admission by a department or the Graduate College, and must be admitted by the Graduate College. Exchange students and students taking classes through Online & Continuing Education ^[56] are often non-degree. There are a number of restrictions and conditions that apply to non-degree status. A non-degree student:

- may only receive an assistantship appointment if the non-degree status is a result of an Exchange agreement that includes an appointment in the terms of the agreement, or a petition to hold the assistantship is approved (one semester appointments only),
- is not eligible for financial aid administered by the Graduate College, such as fellowships and conference travel awards,
- must reapply for admission and pay the application fee if he or she wishes to become a degree-seeking student,
- is limited to taking fewer than 12 hours per fall or spring semester (fewer than 6 hours in the summer), which means they are not considered to be full-time for most purposes; (see chapter III.C.1 ^[57]); exceptions are CIC Traveling Scholars and international students participating in special exchange programs for which full-time approval has been obtained from the Graduate College prior to admission, and international students who do not hold student visas,
- may request to transfer 12 hours of credit taken as a non-degree student (see chapter IV.C ^[58]) to a degree program, if subsequently admitted to and enrolled in a degree program, and
- cannot register in on-campus course sections until the fourth day of instruction for the fall or spring semester, and can only register if space is available. The late registration fee will not be assessed if the student completes his or her registration on or before the tenth day of instruction in a semester.

B. Registration

1. **General Information for All Students:**

Students must enroll during their term of admission. Admission for a

term must be requested and granted by the Graduate College by the 10th day of class. Approvals for late admission will be granted based on applicant merit and departmental justification. If enrollment in that term is not possible, students should contact their graduate program to request their admission term be changed. Students are expected to be enrolled for spring and fall semesters throughout their graduate program, and students must be admitted to the degree program and enrolled in the program for at least one term after admission, which could be spring, summer or fall in order to graduate from the program (see chapter V.A.2 ^[41] for more information). Fellowship recipients must be enrolled during the terms of their appointments (see chapter IX.B.1 ^[36] for details). Students with assistantships for spring or fall must be enrolled during the term in which they are appointed. See chapter IX.A ^[59] for information about summer appointments and assistantship policies.

Students must register online using the UI-Integrate Self-Service ^[60] registration system by the tenth day of instruction. All students are strongly encouraged to register by the tenth day for many reasons including implications for financial aid and insurance coverage.

Students are responsible for their own registration and for ensuring the accuracy of their schedules. Students can check their registration online and print their schedules as needed. Students who find errors in their schedules should immediately correct these errors. Corrections must be completed before the deadline for adding or dropping a course ^[61].

Students should note that changes to registration - including dropping, adding, withdrawal, or cancellation - should be considered carefully as these changes may impact tuition assessment, financial aid, waiver eligibility and other important aspects of student standing.

Complete registration information including a link to online registration, a registration checklist, and registration help can be found at the Office of the Registrar ^[62]. In particular, the section on registration procedures includes information on time tickets (the earliest date and time a student can enroll for a future semester), eligibility to register, holds (II.B.3), enrollment requirements and prerequisites, “authorization only” courses, credit-no credit (III.B.7), canceling registration (VIII.C) ^[29], and withdrawal (VIII.C) ^[29] (including refund deadlines).

2. **General Information for International Students:**

International students must register for full-time enrollment in every fall and spring term and must register by the tenth day of instruction to comply with SEVIS requirements. International students require the

prior approval of International Student and Scholar Services [63] to drop below full-time enrollment, and they should see the explanation of full-time status in this handbook (see chapter III.C.1 [57]) for more information.

3. **Registration Deadlines and Types:**

- a. **Deadlines.** The deadlines for students to add and drop classes vary depending on the length of the class (e.g. full semester or part of term) and the term. See the Graduate College Academic Calendar [64] for exact dates.

i. Add deadlines

After the tenth day of instruction, students who wish to register or add a course must complete a Late Registration/Late Course Change Form. The student's registration or course add must be approved by the faculty member offering the course indicated by the faculty member's signature on the form. Students must also obtain approval on the Late Registration/Late Course Change form from an Authorized Signatory of their academic program. Forms must be submitted to Graduate Student Academic Services for final review and completion of the request.

The last time to submit changes to a student's current term registration is 5:00 p.m. on Reading Day.

ii. Drop deadlines

In the fall and spring semesters, students can use UI-Integrate Self-Service to drop full semester classes until the end of the eighth week of instruction. After the eighth week and until the end of the twelfth week of instruction, students wishing to drop full semester classes may do so through GSAS, without receiving a grade of W. After the twelfth week, students wishing to drop a class will need to complete the Late Course Change form with academic departmental approval, and will **receive a grade of W** for the class. The last time to submit changes to a student's current term registration is 5:00 p.m. on Reading Day. Summer deadlines vary; see the Graduate College Academic Calendar [25] for details.

- b. **Leaves from graduate programs.** Many graduate programs have policies governing leaves. A student who has a need to interrupt his or her graduate studies should make arrangements with the department and adviser prior to departure. Because of

SEVIS regulations, policies concerning leaves for international students are different from policies for domestic students.

- A **domestic** student who has not registered for any three consecutive terms (including summer) must submit an Application for Re-Entry [65]. A student holding educational loans should consult the lender before choosing not to enroll for a fall or spring semester.
 - **International students** who plan not to enroll for a spring or fall semester or plan to leave campus are **required** to meet with staff from International Student and Scholar Services [63]. International students must submit an Application for Re-Entry [65] after one missed semester (not including summer), and will need to work with the staff from International Student and Scholar Services as well as with their department.
- c. **Holds.** Holds can be placed on a student's record for several reasons. Most commonly these include departmental deficiencies, immunization requirements, disciplinary reasons, financial encumbrance to the University, lack of academic progress, failure to submit transcripts, or low GPA. Holds may prohibit the student from making changes to their registration, from receiving a transcript, or from graduating. Holds will appear in the Registration section of a student's UI-Integrate profile [60].

4. Registration Options:

- a. ***In absentia* registration.** *In absentia* is a registration type designed for students who wish or need to remain registered, but plan to be studying or doing research for at least one semester at least 50 miles away from campus. Students may register *in absentia* for any number of credit hours. There is no decrease in tuition rates when a student is registered *in absentia*, and tuition assessment will be based on the student's college and curriculum of enrollment, their residency status, and the number of hours for which the student is registered.

In absentia registration, however, recognizes that such students do not access the full range of campus services and resources while away. Therefore students registered *in absentia* are only assessed the general fee [66]. Payment of the general fee provides students with access to their university e-mail and access to library services. Because students are not assessed other fees they are not eligible for services associated with those fees. For example, if students registered *in absentia* wish to have health insurance they must make alternative arrangements. For a list of what services each fee includes [67] and for the

amount of each fee [68], refer to the Office of the Registrar.

A student must submit a form [69] to GSAS to request *in absentia* registration. An approved request allows a student to register *in absentia*, but the student must complete the registration using the UI-Integrate system [60].

- b. **Zero hours registration.** Graduate students who have completed all degree requirements except the thesis or dissertation may consider registering for zero hours of research credit. It is important for such students to consider the implications of not being a full-time student (see chapter III.C.1 for more information [57]). Students with waiver-generating fellowships are not eligible for zero hours registration during the period of the fellowship.
- c. **Graduate College (GC) 599** [70]. GC 599 is a zero credit hour registration option for advanced doctoral students who do not have any financial assistance (such as an assistantship, fellowship, etc.) that would cover his or her tuition and fees for the semester but must maintain full-time enrollment to defer student loans. To be eligible to register for GC 599, a student must:
 - have a guaranteed student loan that would require immediate repayment if the student were not registered for the minimum credit required by the lender to defer the loan,
 - have passed the preliminary examination prior to the term in which he or she wishes to register for GC 599,
 - have completed all Graduate College and departmental requirements for the degree except for completing the dissertation, defending, and depositing,
 - not have any financial assistance that would cover tuition and fees, and
 - complete and submit the appropriate form [70] to the Graduate College.

Students who are required to complete a mandatory internship as part of their degree requirements may also register for GC 599 provided they comply with all but the third bullet point listed above.

Students enrolled in GC 599 for zero credit are assessed Range IV tuition plus the general fee. Payment of the general fee provides students with access to their university e-mail and

access to library services. Because students are not assessed other fees they are not eligible for services associated with those fees. For example, if students registered in GC 599 wish to have health insurance they must make alternative arrangements. For a list of what services each fee includes [67] and for the amount of each fee [68], refer to the Office of the Registrar.

5. Study Away:

- a. **Committee on Institutional Cooperation (CIC) 500.** This registration option is used with the Traveling Scholar Program [71], which allows doctoral students to utilize special class offerings, laboratory facilities, or work on an independent study at a participating CIC institution. Registration is limited to 2 semesters per CIC policy [72]. Contact Graduate Student Academic Services for more information.
- b. **Graduate College (GC) 498.** Registration in GC 498 is to be used when studying at another U. S. institution. For registration procedures, students must contact the unit on this campus through which they are studying. Units then forward the registration request to the Graduate College for approval and processing. See the Course Catalog [73] for more information.
- c. **Graduate College (GC) 499.** Registration in GC 499 is to be used when studying abroad. For registration procedures, students must contact the unit on this campus through which they are studying. The unit will then forward the registration request to the Graduate College for approval and processing. See the Course Catalog [73] for more information.

6. Audit:

An auditor is only a listener in the classes attended; he or she is not a participant in any part of the exercises. Auditors are not permitted in studio, laboratory, or activity courses. An audited course will appear on the student's transcript with a grade of AU. Audited hours do not count toward assessed hours. An audited course does not count toward the registration requirement for fellows. A course, once audited, may not be repeated for graduate credit.

Students wishing to audit a class must make the request using an Auditor's Permit [74]. The student should take the Auditor's Permit form to the first class meeting and ask the instructor to sign, indicating approval. The form should then be submitted to the Graduate College for approval. Approval from both the instructor and the Graduate College is required. The deadline for submitting the Auditor's Permit to the Graduate College is the 10th day of instruction in the fall and spring terms. See the Graduate College Academic Calendar [64] for summer

term deadlines. Students who are registered for less than 12 hours, not including the audited course, who do not have a tuition waiver will be charged a \$15 audit fee.

7. Credit-No Credit:

Credit-no credit is a permanent notation on the academic record that may be requested by a student with the adviser's approval. Grades for study abroad and transfer credit are also designated on the transcript as credit-no credit.

Students on limited status admission or probation are not allowed to register for credit-no credit course work until the limited status or probation has been removed. Students are advised to check the Class Schedule ^[75] to be sure that the course desired is not limited to letter grading only, which means the course cannot be taken for credit-no-credit.

In any one semester, a student may take no more than 4 semester hours on a credit-no credit basis, except in the case of students registering for Study Abroad or Domestic Study Away. Over the entire degree program, a student must earn at least 2 hours of graded (A-D) course work for each hour of credit-no credit course work.

The form to request credit-no credit ^[76] notation must be completed and submitted to GSAS before the deadline published in the Graduate College Academic Calendar ^[64]. After the request is approved and processed, the letter grade reported by the instructor will change to the credit-no-credit notation as follows. A grade of C- or better will be converted to CR (credit), and a letter grade of D+ or lower or a grade of ABS will be converted to NC (no credit).

A student may amend a credit-no credit request and return to a regular grade mode by filing a second credit-no-credit form and submitting it by the published deadline as indicated in the Graduate College Academic Calendar ^[64]. Additional information about credit-no credit can be found in the Student Code ^[77].

8. Off-campus and Online Courses:

Graduate courses are offered by the University of Illinois at Urbana-Champaign at various sites throughout the state and through online and Guided Individual Study instructional delivery modes. Similarly, some courses are available to University of Illinois graduate students at other CIC institutions through CIC Shared Courses. Information about these courses is available from Online & Continuing Education ^[56] and on the CIC website ^[78].

Students should consult the sections of the handbook related to residence credit (see chapter V.A.4 ^[79]) and transfer of credit (see chapter IV.C ^[80]) when determining how these course may be applied to their graduate degree. International students studying on campus should consult International Student and Scholar Services ^[63] when considering enrolling for an online course.

9. Enrollment Verification:

Students often need to verify that they are enrolled. The University of Illinois has authorized the National Student Clearinghouse to provide enrollment verification information online ^[81].

C. Course Loads

1. Full-time Enrollment:

Graduate students may be required to maintain “full-time enrollment,” and what constitutes full-time enrollment can vary. For example, departmental requirements, eligibility for student loans or other financial aid, fellowships, certain types of non-University insurance policies, or tax requirements may use different definitions of full-time enrollment. Students are responsible for understanding what requirements apply to them.

a. **International students.** International students are considered by the Graduate College to be enrolled full-time when they meet the requirements as follows:

- i. International students on an F-1 or J-1 visa are required to maintain full-time enrollment for purposes of Student Exchange and Visitor Information System (SEVIS) reporting. For purposes of load, each required or recommended ESL course taken as a result of the English as a Second Language Placement Test (EPT) or the English Proficiency Interview (EPI) will count as the equivalent of 4 graduate hours, even if the course credit is recorded as zero hours of credit toward the degree.
- ii. International students whose first term of study is the summer term must carry a full course load.
- iii. Continuing international students are not required by the campus to enroll for the summer terms, although their departments may require enrollment. Those who do enroll do not need to carry a full course load for SEVIS purposes.
- iv. International graduate students who have completed all credit requirements (course work and thesis research) for

their degree programs may register for zero hours of 599 until completion of study. This registration will be considered full-time for purposes of SEVIS reporting. International students seeking this exception to the full-time credit requirements should contact International Student and Scholar Services [63] before registering for the reduced credit load.

International students with questions about full-time enrollment should see www.iss.illinois.edu/students/f1j1/guidelines_course.html [82] and contact the Office of International Student and Scholar Services [63] for more details.

- b. **Fellows and Trainees.** Fellows and Trainees with waiver-generating appointments are required to maintain a full course load each term of registration unless a reduced course load has been approved by the Graduate College Fellowship Office. This applies whether or not a student holds a concurrent assistantship and also applies to students with courtesy fellowship tuition waivers. Fellows who are international students must also have a reduced course load approved by International Student and Scholar Services. See Registration for Fellows [36] for details.
- c. **Assistants.** Assistants with waiver-generating appointments [83] are considered by the Graduate College to be enrolled full-time when they meet the requirements as follows:
 - i. Fall and/or spring term appointments: a minimum of 8 hours; individual programs may set higher requirements.
 - ii. Summer term appointment: a minimum of 4 hours for at least the eight week portion of the summer term (enrollment during the four-week portion of the summer term will not qualify as full-time registration) [Please note that the University does not require summer registration to be eligible to hold a summer assistantship.
- d. **Students without appointments.** Students without waiver-generating appointments [83] are considered by the Graduate College to be enrolled full-time when they meet the requirements as follows:
 - i. Fall and spring terms: a minimum of 12 hours
 - ii. Summer term: a minimum of 6 hours for at least the eight week portion of the summer term (enrollment in only the four-week portion of the summer term will not qualify as

full-time registration)

e. For all students.

- i. The Student Code contains the University definition of full-time status for students ^[84].
- ii. Simultaneous enrollment at another institution may not be added to hours enrolled at the University of Illinois at Urbana-Champaign in order to determine full-time status.
- iii. For the Graduate College, enrollment in off-campus or online courses offered through the University of Illinois at Urbana-Champaign counts toward full-time enrollment.
- iv. Audited courses do not count as any hours toward load.
- v. For purposes of loan deferral only, zero credit registration in GC 599 will count as full time registration.
- vi. Graduate student employees with assistantship appointments who are not registered for at least a half-time load in a particular term will be subject to Social Security and Medicare deductions from the assistantship pay for that term.
- vii. Verification of full-time enrollment may be ordered online ^[85] from the Office of the Registrar's Transcript Section ^[85].

f. Students with questions.

- i. about registration load and loan deferment should consult their lenders (school, bank, or loan agency). Students may also contact the Office of Student Financial Aid ^[86], or finaid@illinois.edu ^[87], for advice or referral to the appropriate office or agency.
- ii. about certification of full-time status should contact the Office of the Registrar.
- iii. about the requirements of specific academic programs should be directed to the graduate office for that program.
- iv. about their fellowships or traineeships should consult the Graduate College Fellowship Office or the funding agency.
- v. about full-time enrollment for international students on visas should contact the Office of International Student and Scholar Services ^[63].

2. Minimum Enrollment:

- All students should keep in mind that enrollment below a full-time course of study may jeopardize progress toward a degree, financial aid, fellowship, loan deferment, or the visa status of an international student (see Full-time Enrollment above).
- Some departments have established a minimum amount of credit for which their students must register.

- The Graduate College has established a minimum amount of credit for which students with waiver-generating fellowships must register. Some departments have established a minimum amount of credit for which their students must register.

3. Maximum Enrollment:

The maximum amount of credit in which a graduate student may enroll is 20 hours in fall and spring terms and 12 hours in the summer term. Students in non-degree status have other restrictions, and can see chapter [III.A.2](#) ^[88] for more information.

Chapter IV: Academic Record

Beginning in Fall 2004, graduate credit at the University of Illinois at Urbana-Champaign is measured using semester hours, and the numbering of graduate level courses changed from 300- and 400- level courses to 400- and 500-level courses. Some 600 and 700 level courses are also approved for graduate credit.

A. Grading System

Details of the grading system in use by the University of Illinois at Urbana Champaign are found in the Student Code. See [article 3-102](#) ^[89], [article 3-103](#) ^[90], and [article 3-104](#) ^[91] of the Student Code for more information on course grades.

1. Course Grades:

Grades and the points used in the computation of grade point averages are as follows:

A+	4.00	D+	1.33
A	4.00	D	1.00
A-	3.67	D-	0.67
B+	3.33	F	0.00
B	3.00	F by rule	0.00
B-	2.67	ABS	0.00
C+	2.33		
C	2.00		

C- 1.67

2.

A grade of F may be assigned to courses dropped for academic irregularities. Since Fall 2004, a grade of F is assigned when an I grade or DFR in a non-thesis course grade is not replaced with a permanent grade by the deadline. See DFR and I below for more information.

F-by-rule. Prior to Fall 2004, a grade of “FR” was automatically assigned when a grade of Incomplete or DFR in a non-thesis course had not been replaced by a letter grade by the deadline. See DFR and I below for more information.

The grade of ABS may be assigned when the student is absent from the final examination without an acceptable excuse. A grade of ABS counts as a failure and is not acceptable for degree credit.

In addition to assigned grades that are included in the computation of Grade Point Average (GPA), the following notations may be used, but are not included in computation of GPA:

AU	No Points
CR- NC	No Points
DFR	No Points
I	No Points
NR	No Points
NV	No Points
S/U	No Points
W	No Points

3. AU – Audit. A permanent notation that indicates attendance as a visitor only. Information about auditing a course is located in [chapter III.B.6.](#) [92]

CR-NC – Credit earned-No Credit earned (see [chapter III.B.7.](#) [93]).

DFR – Grade deferred. To be used only in those thesis, research, and special problems courses extending over more than one semester that are taken by graduate students as preparation for the thesis, and in other approved courses that extend over more than one semester. The symbol DFR in courses other than thesis (499/599) must be converted to a permanent grade no later than 5:00 p.m. on Reading Day of the next semester in which the student is registered. If no grade change is submitted within that period, the DFR will be converted as follows: for graded courses to an F, for S/U courses to a U, and for C/NC courses to an NC. The DFR symbol for thesis courses (499/599) stands indefinitely until a Supplemental Grade Report Form is submitted by the adviser at the completion (successful or unsuccessful) of the thesis. See [chapter V.A.6](#) [94]. for more information on thesis research credit.

I – Incomplete. Approved extension of time to complete the final examination or other requirements of the course. (Entitles the student to an examination later without fee, or to additional time to complete other requirements of the course. The final grade must be reported on the Supplemental Grade Report Form.) The instructor may authorize such extension of time for a graduate student regardless of the level of the course. A grade of Incomplete must be replaced by a letter grade no later than 5:00 p.m. of Reading Day of the next semester in which the student is registered or it automatically becomes an F grade. If the student does not enroll the following semester in a graded course, the incomplete grade becomes an F-by-rule after one year. Incomplete grades earned in the spring semester will not be converted to F-by-rule until the end of the following fall semester, whether or not the student registers for the summer term. A student will not be certified for a degree with an Incomplete grade in the academic record.

NR – Not reported. This temporary notation is automatically entered if an instructor does not report a grade by the deadline. A student will not be certified for a degree with an NR notation in the academic record.

NV – Not valid. This temporary notation is used when an instructor reports a grade in a mode that has not been approved for use with that course.

S/U – Satisfactory-Unsatisfactory. A permanent notation used as a final grade only in courses (generally thesis research or seminar courses) approved for this grade mode.

W – Withdraw. A permanent notation signifying an approved withdraw without credit, (see [chapter VIII.C](#) [95] for more information)

4. **Minimum Grades and Credit for Repeated Courses:**

The Graduate College has no minimum grade policy, but a department or program may set a minimum grade to be earned in order for a course to count as credit toward the degree. Students are responsible for knowing their departmental requirements. The program determines whether hours for repeated courses count toward the degree. When a graduate student repeats a course, all hours and grades count toward the cumulative graduate GPA.

B. Academic Standing

Graduate students must maintain a minimum grade point average (GPA) and make satisfactory progress in all other aspects of their degree programs in order to continue as students. Academic Standing reflects the student's level of accomplishment with regard to these aspects. The Graduate College monitors cumulative graduate GPA, and the graduate programs monitor all other aspects of academic progress. There are three categories of Academic Standing: Good Standing, Probation and Dismissal.

1. **Minimum GPA:**

Campus policy requires a student to maintain a minimum cumulative graduate GPA of 2.75 in order to continue in an advanced degree program, and to have a cumulative graduate GPA of at least 2.75 to graduate. Many departments, however, require a minimum of 3.0 or higher. For departments with higher minima, the Graduate College enforces the department's minimum based on the calculated graduate cumulative GPA. Students enrolled in joint degree programs must meet the minimum GPA requirements of both degree programs in order to maintain satisfactory academic progress and to graduate.

- a. **Minimum GPA Requirements by Program.** All graduate students must meet the minimum degree GPA specified by the degree program in order to have the degree certified and to graduate. Students admitted in an earlier term may have a different requirement. See the Program of Study ^[32] for the term of entry to determine minimum required GPA.

2. **Grade Point Average (GPA) Computation:**

The graduate GPA includes all hours and grades for all courses taken while enrolled as a graduate student. See chapter IV.A.2. ^[39] for information about repeated courses. The GPA component of academic status is calculated at a predetermined date at the end of each semester. Even though grades may be changed in the official record

after this date, the academic standing for that term is NOT changed. At the point of calculation, graduate students must have a cumulative graduate GPA at or above their department's minimum to be in good standing. See chapter IV.A.1. ^[39] for more information about grade points used in computations.

3. **Academic Standing:**

All graduate students must meet the minimum program grade point average (GPA) specified by the program in order to have the degree certified and to graduate. The Graduate College monitors minimum program cumulative GPA, and failure to meet this requirement in any term can result in the student being placed on probation or dismissed from the Graduate College. Other factors that determine satisfactory academic progress are monitored by the student's program, and failure to meet these requirements can result in the program recommending to the Graduate College that the student be placed on probation or dismissed from the Graduate College.

a. **Good Standing:**

Good academic standing requires more than an acceptable cumulative GPA. Graduate students must make satisfactory progress in all aspects of their program in order to continue as students and to graduate. Additional factors that a program may use to assess academic progress include, but are not limited to, performance in course work, satisfactory and timely completion of all milestones as determined by the program, satisfactory progress in research, overall graduate and/or program GPA, and performance on qualifying, preliminary, and other examinations. Failure to meet these requirements can result in the program recommending to the Graduate College that the student be placed on probation or dismissed from the Graduate College. Good standing can also be referred to as Full Graduate Standing, which is the normal status of graduate students with no holds (III.B.3.c) ^[96] or limited status (III.A.1) ^[44] or probation status at the University.

b. **Probation:**

Students placed on probation have one semester to improve their standing to Full Standing, or will be dismissed from the Graduate College. A student who has a cumulative graduate GPA below the degree program's minimum at the end of any semester of enrollment will be placed on Graduate College probation. Once a student has been placed on probation, the student must raise the cumulative GPA to his/her program's minimum by the end of the next term of enrollment, or face dismissal from the Graduate College.

c. **Admission on Limited Status Due to Low GPA or No Comparable Bachelor's Degree:**

Students who are admitted to the Graduate College on limited status because of no comparable bachelor's degree or low GPA are admitted on probation (see chapter III.A.1 ^[44] for more information). If these students do not meet the minimum GPA for their program in the first semester of graduate work, they will receive a notice of dismissal from the Graduate College (see chapter IV.B.6 ^[97]).

d. **Dismissal:**

A graduate student placed on probation who fails to improve the GPA to the required level by the end of the next term of enrollment will receive a notice of dismissal from the Graduate College. This action prohibits the student from registering and drops any courses for which the student has pre-registered. If a student is dismissed from the Graduate College because of a low cumulative graduate GPA, the graduate student petition ^[98] process may be used to request reinstatement. The Graduate College will consider petitions containing strong program support and strong justification based on other factors pertinent to the program's determination of satisfactory academic progress.

4. **Minimum Program GPAs:**

All graduate students must meet the minimum degree GPA specified by the degree program in order to have the degree certified and to graduate. Below are the current GPA requirements by program. Students admitted in an earlier term may have a different requirement. See the Program of Study ^[32] for your term of entry.

Program or Major	Minimum GPA
Accountancy	3.0
Advertising	2.75
Aerospace Engineering	3.0
African Studies	3.25

Theoretical and Applied Mechanics	3.0
Urban Planning	3.0
Veterinary Biosciences	3.0
Veterinary Clinical Medicine	3.0

5.

C. Transfer of Credit

There are two types of credit that a graduate student may wish to transfer. Graduate students may wish to transfer credit completed outside the Graduate College, or graduate students may wish to transfer credit from one graduate degree program to another graduate degree program within the Graduate College at the University of Illinois at Urbana-Champaign. Different rules apply for each type of transfer of credit.

1. Transferring Credit from Outside the Graduate College:

Graduate students may request transfer of credit from outside of the Graduate College at the University of Illinois at Urbana-Champaign to be counted toward a graduate degree, but it is generally limited to a maximum of 12 semester hours. Course work completed outside the University of Illinois at Urbana-Champaign Graduate College that can be transferred includes these four types:

1. graduate level work taken as an undergraduate at the University of Illinois at Urbana-Champaign, but not used toward a degree or transcribed certificate,
2. graduate level work taken through Guided Individual Study at the University of Illinois at Urbana-Champaign,
3. graduate level work taken at another accredited institution, but not used toward a degree or transcribed certificate,
4. graduate level work completed while enrolled as a non-degree student at the University of Illinois at Urbana-Champaign.

Credit from outside the Graduate College may not be transferred to count toward Stage II or Stage III of a doctoral program (see chapter VII.A ^[99]).

Students utilizing transfer credit to count toward their degree need to be aware of residency requirements ^[100] and how those limits effect the

total number of hours applied toward doctoral [99] or master's [101] level degrees.

The only credit from outside the Graduate College that will be considered for transfer is credit:

- that has not previously been applied toward a degree or a transcribed certificate,
- that is graded graduate level course work from an accredited institution,
- for which the student has achieved a grade of B or better, and
- that would not be more than the time allowed to complete the degree at the time of degree conferral see chapter VI.A.4 [101]. for master's time limits and chapter VII.E. [102] for doctoral time limits.

A student must have successfully completed at least 8 semester hours of graded graduate work at the University of Illinois at Urbana-Champaign before submitting a request for transfer of credit, **except when the request is for graduate course work taken at the University of Illinois at Urbana-Champaign while enrolled as a non-degree graduate student.** To request transfer of credit from outside the Graduate College, a student should submit the appropriate form [103], accompanied by official transcripts, and validation by specialists in the area of the course work in the student's department that the course work is both applicable and of an appropriate level of difficulty.

Most transfer credit will be reflected on the transcript without course titles and grades. The exceptions are:

- graduate credit transferred from the University of Illinois at Chicago or from the University of Illinois at Springfield,
- graduate credit earned through the CIC Traveling Scholar Program [104],
- credit earned in the Illinois College of Medicine that is approved for application to the student's graduate program for students in the Medical Scholars Program,
- graduate credit earned through an Urbana-Champaign off-campus course or program.

Students who have earned up to 12 hours of graduate credit while enrolled as a non-degree student at the University of Illinois at Urbana-Champaign may request [103] those hours and up to 12 hours of graduate credit taken at another institution. These requests may be submitted after the student receives their notice of admission.

Credit taken while in the CIC Traveling Scholar Program ^[105] is considered to be within the Graduate College.

2. **Transferring Credit between Programs within the Graduate College:**

Graduate students may request transfer of credit from one graduate program at this University to another graduate program at this University as long as:

- it was not applied toward another degree, and
- it would not be more than the time allowed to complete the degree at the time of degree conferral see chapter VI.A.4. ^[106] for master's time limits and chapter VII.E. ^[107] for doctoral time limits.

The Graduate College requires that both departments involved approve the transfer of work from one program to the other.

To request a transfer of credit from one program to another within the Graduate College, a student should submit a Curriculum Change/Transfer of Credit ^[103] form clearly specifying the above requirements have been met.

For these requests, there is no limit on the number of hours that a student may request be transferred.

Chapter V: Graduate Degree and Graduation Requirements

Students are bound by the program and degree requirements in effect at their term of admission and are expected to be aware of these requirements. Therefore, students are not obligated to follow any subsequent changes to degree requirements. Additional specific information on master's and post master's degree requirements (see chapter VI. ^[101]), and doctoral degree requirements (see chapter VII ^[108]) can be found in this handbook.

A. Graduate Degree Requirements

1. **Departmental Expectations:**

Requirements for specific graduate degrees are listed in the appropriate sections of the Programs of Study ^[32], and in departmental handbooks. All departments should distribute a handbook or statement to their graduate students listing the requirements for the graduate degree programs to which they are admitted.

2. Registration Requirements:

In order to receive a graduate degree a student must be admitted to the degree program and enrolled in the program for at least one term after admission, which could be spring, summer or fall. To be counted toward the graduate degree, hours must be at the 400-level or greater and approved for graduate credit.

3. Changing Departments or Programs:

Graduate College policy allows students to transfer from one academic program to another, provided that both departments agree to the transfer. Students wishing to transfer, either as a permanent transfer, or in order to obtain a degree from both programs (joint or dual degree programs), should use the Curriculum Change/Transfer of Credit [109] form to request the transfer. When transferring using this form, students are not required to complete a new application, pay an application fee or provide copies of transcripts already on file.

Departments, however, may request additional information such as a new statement of purpose or new letters of reference. Likewise, departments with special application requirements may request that these requirements be completed. When filing for a curriculum change, the anticipated department must comment on the transfer by clearly indicating whether or not they accept the student, and the date when they wish the acceptance to be valid. When all signatures are obtained, the Curriculum Change/Transfer of Credit [109] form is forwarded to the Graduate Student Academic Services unit for consideration. See chapter IV.A.2 for minimum credit hours needed in a program.

Students should note that tuition assessment and tuition and fee benefits are tied to the program in which they are enrolled. An approved change in curriculum during the term that occurs after tuition has been assessed and payments credited may result in recalculation of tuition assessments that result in the student incurring additional expenses.

International students with F-1 or J-1 visas who transfer from one program to another are required to obtain new immigration documents from International Student and Scholar Services.

4. Residence Credit:

University of Illinois rules prescribe that a certain amount of credit hours

for each degree received from this campus be taken as residence credit. Residence credit includes:

- graduate credit earned through an on-campus course at the University of Illinois at Urbana-Champaign,
- graduate credit earned through an Urbana-Champaign off-campus course or program,
- graduate credit transferred from the University of Illinois at Chicago or from the University of Illinois at Springfield,
- graduate credit earned through the CIC Traveling Scholar Program, and
- credit earned in the College of Medicine that is approved for application to the student's graduate program for students in the Medical Scholars Program.

Students should also be aware of the transfer policies ^[58] related to this type of credit used toward a degree.

Residence requirements are outlined in Rule 3-801 of the Student Code ^[110] and in this handbook as related to specific degrees.

5. Proficiency Examinations:

Graduate students may satisfy specific requirements through proficiency examinations; however, in such cases, credit cannot be earned toward the required hours for the graduate degree. Students should check with their department for details about proficiency examinations.

6. Research Credit and 599:

A student cannot deposit a thesis without record of registration in research credit courses. Likewise, students with a record of registration in research credit will be required to deposit a thesis to complete their degree. Most departments use the course designation "599" to indicate research registration for both master's and doctoral students. Graduate students should register for research credit during semesters when they are working on the thesis.

Departments may set criteria that determine at what point in the program students may begin registering for research credit (599). Registration in research credit must always be done with the approval of the student's adviser.

The grade of DFR (deferred) is reported for research credit until the thesis has been completed, successfully defended if required, and deposited in the Graduate College. When a thesis is successfully defended and deposited, the DFR grades will be changed to S

(satisfactory). If the student fails the final defense, the grade becomes U (unsatisfactory), and the thesis cannot be deposited.

If research credit is taken but thesis work is not completed, the 599 registration cannot be removed from the record. If the work will not be completed, the student must successfully petition [98] for grades to permanently remain as deferred (DFR) in order to receive a degree. Students will not be certified for a degree with any grades of DFR in their academic record unless a petition [98] has been approved.

7. Second Degree in a Similar Area:

An individual should not receive another degree for work that is substantially similar to the work used to complete a previous degree. Therefore, the Graduate College will generally not allow the awarding of a second graduate degree in an area in which a graduate degree at an equivalent level (master's, doctoral) has already been earned. This rule applies to cases where the first degree is from the University or from another domestic or international institution. Requests for exceptions may be allowed in cases where it is clear that the student's degree programs differ significantly. These decisions are made during the process of admission to the Graduate College or when a change of curriculum is requested.

8. Graduate Majors:

A graduate major is an official degree program designation for the academic record. The approved graduate majors are listed in the Programs of Study [32].

9. Graduate Minors:

A graduate minor is an approved program in a secondary area of study that relates closely to a student's chosen major and may be included on an academic transcript. A list of campus-approved graduate minors is available in the Programs of Study [32]. As noted in the Policy for Graduate Minors [111], students majoring in an area of study may not pursue a minor in the same area.

Each program has its own procedures for applying to and completing the minor, and students should contact the minor department for details. Students who wish to add or drop a graduate minor from their academic record must submit a Change of Curriculum/Transfer of Credit [109] request to make the change to their academic program. An academic program change alters the requirements needed for graduation, and therefore changes should be made carefully and in consultation with the graduate program adviser.

While it is expected that work toward a minor will not overlap and count toward major requirements, it is at the discretion of the major department to determine which, if any, of the courses used to fulfill the minor will also be used to fulfill the major graduate degree.

Minor(s) will not be added retroactively to a student record after the major degree is conferred. Even though a minor may be included in a student's academic record, it will not show on a transcript until the degree has been conferred. A student's approved enrollment period will not be extended for the purpose of completing a minor. (See chapters V.A.4. [101] and VI.E [102] for more information about time limits.)

If a student has requested to receive a minor, and then wishes to change to a new program before receiving a degree, the new program must note on the Change of Curriculum/Transfer of Credit [109] request that they will accept the minor in their degree program and note if any of the courses used to fulfill the minor will also be used to fulfill the new major graduate degree. If the new program does not accept the minor, the minor will be removed from the record when the Change of Curriculum request is processed.

10. Graduate Concentrations:

A graduate concentration constitutes a coherent program of study requiring considerable depth of knowledge. A concentration may refer to a subfield within a discipline, or to an interdepartmental and/or interdisciplinary area of knowledge. As indicated in the Policy for Graduate Concentrations [112], approved concentrations may be included on academic transcripts. Some concentrations (major-based) are only open to a student majoring in the offering department. Other concentrations (floating) are open to students in a broad range of majors. A few majors require a concentration, but most do not. Approved Graduate Concentrations and their related majors are listed in the Programs of Study [32].

Students who wish to add or drop a graduate concentration from their academic record must submit a Change of Curriculum/Transfer of Credit [109] form to request the change to their academic program and to what appears on the transcript. A change in concentration is a program change, and will alter the requirements needed for graduation, and therefore changes should be made carefully and in consultation with the graduate program adviser. Approvals are required from the major department and adviser and the unit overseeing the concentration.

It is expected that work toward a concentration will completely overlap

and be counted toward major requirements, but if the major and concentration units are not the same, it is at the discretion of the major department to determine which of the courses used to fulfill the concentration will not also be used to fulfill the major graduate degree.

Concentration(s) will not be added retroactively to a student record after the major degree is conferred. A student's approved enrollment period will not be extended for the purpose of completing a concentration. (See chapters V.A.4. ^[101] and VI.E ^[102] for more information about time limits.)

If a student successfully requests to receive a concentration, and then wishes to change to a new program before receiving the degree, the new program must note on the request whether they will accept the concentration in their degree program and note which of the courses used to fulfill the concentration will also be used to fulfill the new major graduate degree. If the new program does not accept the concentration or the new program does not offer the concentration, the concentration will be removed from the student record when the request to change programs is processed.

11. Joint Degree Programs:

A joint degree program is a campus approved program in which a student concurrently pursues two specifically identified degrees, and those degrees are conferred simultaneously. For graduate students this is a combination of a graduate degree with one of the following: another graduate degree, an undergraduate degree or a professional degree. The total time for the two degrees can be decreased by a predetermined maximum through the acceptance of required courses in one program as electives in the other, if so approved. A list of approved joint degree programs and individual program requirements can be found in the Programs of Study ^[32], including any exceptions to the simultaneous conferral rule.

A student interested in pursuing joint degrees should consult both departments, as they must be admitted separately to each program as a joint degree candidate. A student in a joint degree program must be admitted to each degree program and be enrolled in each program for at least one term after admission, which could be spring, summer or fall (see chapter IV.A.3 ^[113] for information about changing programs), and must complete the minimum requirements for each degree. Doctoral students pursuing joint degrees may be enrolled in either program when they defend their dissertation. For details regarding joint programs, see the Graduate College Policy for the Approval of New and Revised Graduate Degree Programs ^[114].

Joint Bachelor's/Master's Programs

Approved joint programs include programs that combine a bachelor's and a master's degree [115] in the same field. Like other joint degree programs, both the bachelor's and the master's degrees are generally awarded at the end of the program. Because of this, these students are admitted to the Graduate College before they have earned a bachelor's degree. In some cases, students must fulfill the minimum total hours required for the bachelor's and master's degrees, and in others, students may double count some coursework. In either situation, the time to completion for both degrees is reduced by efficiencies of scheduling and the ability to take both graduate and undergraduate work in the senior year. See the undergraduate college's Program of Study [32] for details about a specific program.

List of approved bachelor/master joint degree programs:

Accountancy B.S./M.A.S.
Community Health B.S./M.P.H.
Computer Science B.S./M.S
German B.A./M.A.
Health B.S./M.P.H.
Industrial Engineering B.S./M.S
Kinesiology B.S./M.P.H.
Materials Science & Engineering B.S./M.S
Mechanical Engineering B.S./M.S
Urban Planning

12.

13. Dual Degree Programs:

A dual degree program is defined as one in which a student pursues two post-baccalaureate degrees simultaneously. In dual degree programs, students must complete all requirements for each degree, without overlap. With the approval of both departments, students would have the opportunity to integrate their studies rather than completing the degrees in series. A student pursuing two post-baccalaureate degrees simultaneously must be admitted to each degree program and enrolled in each program for at least one term after admission (see chapter

IV.A.3 ^[113] for information about changing programs), in order to obtain both degrees. Dual degree students earning a doctoral degree may be enrolled in either program when they defend their dissertation.

14. Annual Academic Progress Reviews:

Effective academic year 2012-13 graduate units must begin to conduct annual academic progress reviews ^[116] for all graduate students enrolled in degree-seeking programs at least once every academic year. A written copy of the review must be given to the student and be placed in the student's academic file.

Ideally, academic progress reviews should include the following elements:

- A student self-report and assessment of academic progress.
- A review prepared by the adviser and at least one other faculty member to focus on an assessment of degree progress and student strengths and weaknesses. A copy of this written review is given to the student.
- An opportunity for the student to discuss this review in person.

B. Graduation Requirements

1. Degree Conferral (Graduation Date):

Graduate degrees are conferred in May, August, and December.

2. Applying for Graduation (Adding Your Name to the Degree List):

In order to receive a degree, a student must apply to be on the degree list for the appropriate graduation date. Students should apply for graduation using the UI-Integrate Self-Service system. Deadlines for applying to be on the list for each graduation date are noted on the Graduate College Deadlines Web page ^[117]. Applying for graduation is not the same as applying to participate in departmental or campus commencement ceremonies.

A student may not receive a degree with a grade of I, NR, or DFR in any course except thesis research, on their graduate record.

3. Theses and Dissertations:

A thesis or dissertation is an original, significant contribution to the scholarly literature of an academic discipline. In this section, "thesis" refers to both master's theses and doctoral dissertations.

All University of Illinois graduate students whose programs require the completion of a thesis must deposit their manuscript electronically in the Graduate College. Department approval and review of the thesis is required before it can be deposited.

- a. **Deposit.** The Graduate College does not require students to be registered at the time of deposit, but some departments may, so students should consult with their department before depositing. A thesis will not be accepted for deposit until all required materials have been submitted and all corrections requested by the Graduate College Thesis Office have been made. Deposit must be made by the appropriate master's or doctoral deposit deadlines ^[117] set for each term. There are no exceptions. Upon deposit, the thesis becomes part of the student's academic record. No changes may be made to a thesis after it has been deposited at the Graduate College.
- b. **Format.** The Graduate College will only accept theses that meet the formatting requirements set forth in the Thesis Requirements ^[118]. Many departments have additional, discipline specific format requirements, and the Graduate College requires that all students secure format approval from their department prior to format review in the Graduate College Thesis Office.
- c. **Dissemination.** Theses that are deposited as a requirement for the awarding of a degree are considered to be publications. Copyrightable works prepared by students as part of the requirements for a University degree program are deemed to be the property of the student.

As a condition of degree award, the University has the royalty-free right to retain, use and distribute a limited number of copies of the thesis, together with the right to require its publication for archival use (see University of Illinois Board of Trustees' General Rules ^[119]).

In order to best disseminate and archive the significant work of University of Illinois graduates, the Graduate College requires that every thesis and the abstract be published. The Graduate College will determine the method of publication that most effectively secures the existence of the thesis in perpetuity. The theses will be available to the public through the University Library.

- d. **Permissions for previously published work included in the thesis.** Prior publication of parts of the thesis is increasingly common. If the copyright to the published work has been

transferred to the publisher (or to any other party), the student should secure written permission from the current owner of the copyright to include the previously published material in the thesis to be submitted for deposit. Two copies of these copyright permissions should be included with the student's deposit materials.

- e. **Patent review.** If a student's thesis contains potentially patentable information, a student may wish to have the thesis held by the Thesis Office while patentability is assessed. Holding a thesis does not postpone degree conferral or graduation. A student wishing to have a thesis held during the patent review process must contact the Office of Technology Management ^[22] (OTM) prior to deposit. OTM will review the student's request and notify the Graduate College if a thesis is to be held. Intellectual property is an important aspect of thesis research. See chapter I.C ^[120] for more information.

4. Request for Certification of Degree Letter:

A student who has fulfilled all of the degree requirements before the next conferral date may need certification for employment or to meet visa requirements. To request a degree certification letter, the student should use the Degree Certification Letter Request form ^[121]. A student who has not deposited the thesis with the Graduate College (when deposit is required), who owes money to the University, or who is enrolled in any course other than research credit cannot receive a degree certification letter.

5. Commencement:

Commencement is a celebratory event, not a degree requirement. For details about participation, see the Commencement Office ^[122] website.

Chapter VI: Requirements and Policies for Master's Degrees, Certificates of Advanced Study and Artist's Diplomas

Students are bound by the program and degree requirements in effect at their term of admission and are expected to be aware of these requirements. Therefore, students are not obligated to follow any subsequent changes to degree requirements. Students should also review chapter V ^[123].

Post-Master's Degrees:

Some academic units, such as the Graduate School of Library and Information Science and some departments in the College of Education, offer the Certificate of Advanced Study (CAS) for students who are interested in additional professional training beyond the master's degree but are not planning to obtain the doctoral degree. These programs usually require completion of at least 32 semester hours of course work beyond the master's degree. Information concerning specific Advanced Certificate programs is available from departmental offices.

The School of Music offers an Artist's Diploma degree, which is intended only for musicians at the highest level of artistic accomplishment and potential. Upon completion of the Diploma, students are expected to be ready for entrance into the music profession as a solo artist, member of an orchestra or chamber or jazz ensemble, or as an apprentice in an opera company. A master's degree is required for admission.

A candidate for a post-master's degree is expected to complete all degree requirements within five years of first registering as a degree-seeking student in the degree program. Therefore, a candidate in one of these programs with course work that is more than five years old at the time of degree conferral must petition ^[98] the Graduate College asking that the course work be accepted for the degree. The petition must include an explanation from the department regarding how the student's knowledge in the areas covered by the old course work meets current standards. This justification is needed for degree certification and the petition should be filed during the term the student is placed on the degree list.

Distinct from the C.A.S. and other post masters degrees, some academic programs may offer certificates tied to the completion of requisite courses that are not recorded on the transcript. Students must contact those programs for more information.

A. Master's Degrees

1. Credit Hour Requirements:

The Graduate College requires a minimum of 32 semester hours of graduate credit for the master's degree, although a number of programs require more. The Graduate College requires that at least 12 hours be

at the 500-level or greater and approved for graduate credit (including thesis, research or independent study credit), and that 8 of these 12 hours be in the major [124]. Half or more of the hours applied to a master's degree must be earned in courses counted for residence credit, (see chapter V.A.4 [100] and chapter IV.C [58] for more details and to see when transfer credit may count as residence credit). See chapter V.A.4 [125] if enrolling for thesis research credit. See the Graduate College Policy for the Approval of New and Revised Graduate Degree Programs [126] for more details.

2. Examinations:

The Graduate College does not require a final examination or thesis committee for the master's degree. Departments that have such requirements determine their own rules for committee membership and administration of the examination. Master's students are not required by the Graduate College to be registered during the term in which they take their final exam, but some departments may.

3. Completion of Theses:

The Graduate College does not require thesis deposit for the master's degree, however, many programs do. The Graduate College requires that a master's candidate depositing a thesis have an adviser who is a member of the Graduate Faculty [127]. In programs requiring a thesis deposit, the Graduate College does not require master's students to be registered during the term in which they deposit, but some departments may.

The thesis adviser is required to sign the Thesis/Dissertation Approval form (TDA) [128]; master's thesis committee members are not required to sign, but may do so. Signatories must sign for themselves. Department heads are also required to sign the TDA. Persons authorized by the department to sign TDAs (as recorded on the Authorized Signatures Form filed with the Graduate College) may sign in place of the department head. The signature of the department head, or authorized signatory, is an assertion of the authenticity of the adviser signature and of the acceptability of the thesis to the department; therefore, this signature must be original (wet). All required signatures must be submitted to the Graduate College on the same form in support of the thesis deposit.

4. Time Limits:

A master's degree candidate is expected to complete all degree requirements within five years of first registering as a degree-seeking student in the master's degree program, unless the student is enrolled in a program with a different time limit that has been approved by the Graduate College. Students may request an extension of this time limit

through the Graduate College petition ^[129] process up to one year prior to the degree conferral date.

If course work to be used toward the degree is more than five years old at the time of degree conferral, students must petition ^[129] the Graduate College asking that the course work be accepted for the degree. The petition must include an explanation from the department regarding how the student's knowledge in the areas covered by the old course work meets current standards. This justification is needed for degree certification, and the petition can be filed up to one year prior to the degree conferral date. With written approval of the Graduate College, a department may set different time limits for completion.

B. Certificates of Advanced Study

Distinct from the C.A.S. and other post masters degrees, some academic programs may offer certificates tied to the completion of requisite courses that are not recorded on the transcript. Students must contact those programs for more information.

1. Credit Hour Requirements:

Some academic units, such as the Graduate School of Library and Information Science and some departments in the College of Education, offer the Certificate of Advanced Study (CAS) for students who are interested in additional professional training beyond the master's degree but are not planning to obtain the doctoral degree. These programs usually require completion of at least 32 semester hours of course work beyond the master's degree. Information concerning specific Advanced Certificate programs is available from departmental offices.

2. Time Limits:

A candidate for Certificate of Advanced Study is expected to complete all degree requirements within five years of first registering as a degree-seeking student in the degree program, unless the student is enrolled in a program with a different time limit that has been approved by the Graduate College. Students may request an extension of this time limit through the Graduate College petition ^[129] process up to one year prior to the degree conferral date. Therefore, a candidate in one of these programs with course work that is more than five years old at the time of degree conferral must petition ^[129] the Graduate College asking that the course work be accepted for the degree. The petition must include an explanation from the department regarding how the student's knowledge in the areas covered by the old course work meets current standards. This justification is needed for degree certification and the petition should be filed during the term the student is placed on the degree list.

C. Artist's Diplomas

The School of Music offers an Artist's Diploma degree, which is intended only for musicians at the highest level of artistic accomplishment and potential. Upon completion of the Diploma, students are expected to be ready for entrance into the music profession as a solo artist, member of an orchestra or chamber or jazz ensemble, or as an apprentice in an opera company. A master's degree is required for admission.

1. Time Limits:

A candidate for an Artist's Diploma is expected to complete all degree requirements within five years of first registering as a degree-seeking student in the degree program, unless the student is enrolled in a program with a different time limit that has been approved by the Graduate College. Students may request an extension of this time limit through the Graduate College petition ^[129] process up to one year prior to the degree conferral date. Therefore, a candidate in one of these programs with course work that is more than five years old at the time of degree conferral must petition ^[129] the Graduate College asking that the course work be accepted for the degree. The petition must include an explanation from the department regarding how the student's knowledge in the areas covered by the old course work meets current standards. This justification is needed for degree certification and the petition should be filed during the term the student is placed on the degree list.

Chapter VII: Requirements and Policies for Doctoral Degrees

Students are bound by the program and degree requirements in effect at their term of admission and are expected to be aware of these requirements. Therefore, students are not obligated to follow any subsequent changes to degree requirements. Doctoral students should also review chapter V ^[123].

A. Credit Hour Requirements

Doctoral degrees require successful completion of a minimum of 96 semester hours of graduate credit (see section C ^[130] of this chapter for doctoral degree stages), except for those programs approved otherwise. Doctoral degrees also require successful completion of the preliminary and final examinations.

Doctoral degree candidates, regardless of transfer credits or a master's degree completed elsewhere, must complete at least 64 hours of residence credit (V.A.4

[100]) out of the total of 96 hours required for the doctoral degree, and should also see [chapter IV.C](#) [58] for information about transfer credit. Thesis hours count toward residence credit.

B. Registration Requirements

The Graduate College does not require that students be registered at the time of deposit. However, individual departments may have other registration requirements, so students should check with their department for details. The Graduate College does require that all doctoral candidates **be registered** for the entire academic term during which they take the preliminary examination and the term during which they take the final examination, regardless of when the dissertation will be deposited or when the degree will be conferred. For this purpose only, "academic term" is defined as extending to and including the day before the first day of the following academic term. If enough thesis credits have been accumulated, registration for zero hours is acceptable. See [chapter III.B.4.c](#) [131] for more information about enrollment in GC 599 for loan deferral. For students in approved joint degree programs and in the [Medical Scholars Program](#) [132], registration in either program during the academic term in which they defend meets the enrollment requirement.

C. Doctoral Degree Stages

The doctoral degree is commonly thought of in three phases or stages of progress, with each stage having unique components and milestones. Departments usually have specific tasks and requirements in each stage.

Stage I: A doctoral student is considered to be in Stage I from initial enrollment in the Graduate College to completion of a master's degree or its equivalent. Transfer credit can only be applied to Stage I. Each department should have a procedure for evaluating a student's progress at this first stage of doctoral work. Elements of this evaluation will include GPA, along with other factors related to [good academic standing and satisfactory progress \(III.B\)](#) [54]. In some departments, this evaluation may take the form of a qualifying examination, or other examination or series of examinations, which a student must pass before entering Stage II of the doctoral degree program. Evaluation of progress in Stage I, whether by examination or other formal review, should take place no later than the end of the second year after a student enters the doctoral program. The evaluation results should be communicated in writing to the student. Students who apply to a doctoral program having already completed a master's degree equivalent to that awarded by the University of Illinois are generally considered to

have completed Stage I of the doctoral program unless the department deems otherwise, in which case the department must notify the student of the stage in which they are entering the program.

Stage II: A doctoral student is considered to be in Stage II from completion of the master's degree or equivalent to completion of all departmental requirements (except the defense and deposit of the dissertation), including passing the preliminary examination. In some programs, doctoral students entering with a master's degree will take a qualifying examination early in Stage II. Stage II usually consists of one or more years devoted to course work and research in preparation for the preliminary examination. A student who passes the preliminary examination has completed Stage II and is often referred to as being "ABD" (all but dissertation). A student who has completed Stage II is formally a candidate for the doctoral degree.

Stage III: Stage III is the time from the completion of Stage II to passing of the final defense and deposit of an approved dissertation. See the [Graduate College Deadlines Web page](#) ^[25] for deadline dates for final examinations and deposits.

D. Doctoral Committees and Examinations

Committees may be formed and examinations given at various stages of graduate study in order to monitor and ensure the quality of graduate work. This chart provides an overview of committee structure and rules. For complete information and further details, see the relevant sections below.

Overview

	Graduate College appointment & approval required	Student must be registered	Minimum number of voting members required
Qualifying Examination Committee*			not required by
Preliminary Examination Committee	Yes	Yes**	4
Doctoral Committee			not required by
Final Examination (Defense) Committee	Yes	Yes**	4

* Note: Committee nomenclature may vary by department; for example, the qualifying exam is sometimes called a "comprehensive exam."

** See VI.B Registration Requirements.

- 1. Qualifying Examination and Qualifying Examination Committee:**
 The Graduate College does not require qualifying examinations, but departments may. Qualifying exams, usually given at the end of Stage I of the doctoral work (see [chapter VI.C](#) [130]), evaluate the student's knowledge in the field and preparation for the doctoral program. The format of these examinations may be written, oral, or both, as determined by the program. The program must clearly communicate information about the format and rules (i.e. closed-book) to all students in advance. Departments may internally appoint committees to conduct these examinations.
- 2. Preliminary Examination and Preliminary Examination Committee:**
 The preliminary examination is one of the Graduate College requirements for completion of [Stage II](#) [130] of graduate study.

Format:

- Preliminary examinations may be oral or written or both, depending on the unit's policy, and generally evaluate the student's overall and specific knowledge in the field.
 - Preliminary examinations also usually include an oral presentation to review the feasibility and appropriateness of a student's dissertation research proposal.

- The doctoral degree program prescribes the scope, format and procedures associated with the examination, including the composition of the committee. The program must clearly communicate information about the format and rules (e.g., closed-book) to all students in advance.
- The process for selection of committee chairs varies by unit, but the chair must be a member of the Graduate Faculty. At the department's discretion a co-chair may be appointed. If appointed, a co-chair must meet all the requirements that apply to the chair. The role of the committee chair is described below.
- The student, committee chair, and at least one additional voting member of the committee must be physically present for all oral components of the examination (i.e., presence by video or teleconference is not acceptable). If the committee has more than one chair, all chairs must be physically present; in these cases, no additional voting member is required to be physically present.
- All voting members of the committee must be present in person or participate via teleconference or other electronic communication media during the examination, deliberation and results determination of all oral components of the examination.

Registration: Students must be enrolled for the entire academic term in which the preliminary exam occurs. See chapter VII.B. [133] for details.

Committee Appointment Process: The preliminary examination is conducted by a committee appointed by the dean of the Graduate College upon recommendation of the executive officer of the unit. Approved by the Graduate College Executive Committee and effective December 13, 2012, persons authorized by the department to submit committee requests (as recorded on the Authorized Signatures Form filed with the Graduate College) may make requests on behalf of the executive officer. The committee must be appointed before the exam takes place, and the Graduate College strongly recommends submission of the Request for Appointment of Doctoral Examination Committee form at least three weeks in advance of the exam date.

Once a committee has been appointed it remains active for 180 days or until a Pass or Fail result is submitted to the Graduate College, except in the case of a Defer result, see below. Any revisions to the membership of an active committee must be approved by the Graduate College in advance of the examination.

Membership Requirements:

- The preliminary examination committee must include at least four voting members, at least three of whom must be members of the Graduate Faculty, and at least two of whom must also be tenured at the Urbana-Champaign campus of the University of Illinois.
 - Departments may request the inclusion of non-Graduate Faculty members who make a significant contribution as voting members of the committee. The dean of the Graduate College must approve, in advance, individuals who are not members of the Graduate Faculty who will serve as voting members of the committee. To request the approval of a non-Graduate Faculty member to vote, a curriculum vitae for the individual and a justification from the chair of the committee must accompany the request for appointment of the doctoral committee, and the individual must have an earned terminal degree in their field of study.
 - The tenure requirement can be met by term members of the Graduate Faculty who retired or resigned with tenure for a period following their resignation or retirement, according to the Policy on Graduate Faculty Membership.
 - If there are more than four voting members on the committee, at least half of the voting members must be members of the Graduate Faculty.
- Non-voting members may be appointed but are rare on preliminary examination committees.

Role of the Committee Chair: The chair of the preliminary examination committee must be a member of the Graduate Faculty. The committee chair is responsible for convening the committee, conducting the examination, and submitting the Preliminary Exam Result form to the unit in which the student is enrolled and to the Graduate College. If appointed, a co-chair must meet all the requirements that apply to the chair.

Results: Decisions of the preliminary examination committee must be unanimous and are recorded on the Preliminary Exam Result form. The committee may make one of three decisions:

- Pass the candidate.
- Fail the candidate. A program may, but is not required to, grant the student another opportunity to take the examination after completing additional course work, independent study, or research, as recommended by the committee. However, if a second attempt is given, a new committee must be appointed by the Graduate College. The new committee may, but does not have to, consist of the same members as the original committee.

- Defer the decision. If this option is chosen:
 1. the same committee must re-examine the student,
 2. the second exam *must* occur within 180 calendar days of the date of first exam, and
 3. the outcome of the second exam must be pass or fail.

Number of Attempts: After a fail result, a student will only be allowed to take the preliminary examination one additional time while working toward the completion of any one program of study.

Preliminary Exam Result Form: All results must be recorded with the Graduate College on the Preliminary Exam Result form. All voting members of the committee must sign the Preliminary Exam Result form. See Chapter VII.D.5 for additional details.

3. Dissertation Committee:

The dissertation committee does not need to be formally appointed or approved. The purpose of this committee is to advise the student with dissertation research and effectively monitor the student's progress, often before the student is ready to form the final examination committee. The Graduate College encourages formation of a dissertation committee as early as possible after the successful completion of the preliminary examination. In units with preliminary examinations that include the presentation of a proposal for the doctoral research, the dissertation committee membership may be substantially the same as the preliminary examination committee. The dissertation committee membership may also be the same or essentially the same as the final examination committee. There is no time limit on the duration of service of the dissertation committee, other than the length of time that the student is allowed to complete the degree.

4. Final Examination and Final Examination Committee:

Format:

- Students must adhere to departmental procedures or requirements. These procedures and requirements must be clearly communicated to all students in advance of the exam.
- The process for selection of committee chairs varies by unit, but the chair must be a member of the Graduate Faculty. At the department's discretion a co-chair may be appointed. If appointed, a co-chair must meet all the requirements that apply to the chair. The role of the committee chair is described below.
- Committee members should be chosen for their expertise in the student's research area, but may also be chosen to give diversity

in viewpoint, methodology, or academic discipline. The faculty of a department may establish procedures or requirements for introducing diversity in the membership of the final examination committee (e.g., by including members from more than one sub-discipline within the department, from other departments, or from other institutions).

- The committee chair, defending student, and at least one additional voting member of the committee must be physically present for the entire duration of the final examination. If the committee has more than one chair, all chairs must be physically present; in these cases, no additional voting member is required to be physically present.
- All voting members of the committee must be present in person or participate via teleconference or other electronic communication media for the entire duration of the final examination, and the deliberation and determination of the result.
- As a crucial milestone in a student's doctoral experience at Illinois, as well as a significant event within the campus scholarly community, the final examination should take place on campus.
- Final examinations are oral and open to the public.

Registration: Students must be enrolled for the entire academic term in which the final exam occurs. See [chapter VII.B.](#) ^[133] for details.

Second Preliminary Exam: If more than five years elapse between a doctoral student's preliminary and final examinations, the student is required to demonstrate that his or her broad knowledge of the field is current by passing a second preliminary examination (see Time Limits in [chapter VII.E.](#) ^[134] for details).

Committee Appointment Process: The final examination committee is appointed by the dean of the Graduate College, upon recommendation of the unit executive officer. Approved by the Graduate College Executive Committee and effective December 13, 2012, persons authorized by the department to submit committee requests (as recorded on the Authorized Signatures Form filed with the Graduate College) may make requests on behalf of the executive officer. The committee must be appointed before the exam takes place, and the Graduate College strongly recommends submission of the Request for Appointment of Doctoral Examination Committee form at least three weeks in advance of the exam date. As a matter of professional courtesy, the Graduate College recommends that individuals who served on a student's preliminary examination committee and who are not being appointed to the final exam committee be notified as part of the committee appointment process.

Once a committee has been appointed, it remains active for 180 days or until a Pass or Fail result is submitted to the Graduate College. Any revisions to the committee membership must be approved by the Graduate College in advance of the examination.

Membership Requirements:

- The final examination committee must include at least four voting members, at least three of whom must be members of the Graduate Faculty, and at least two of whom must also be tenured at the Urbana-Champaign campus of the University of Illinois.
 - Departments may request the inclusion of non-Graduate Faculty members who make a significant contribution as voting members of the committee. The dean of the Graduate College must approve, in advance, individuals who are not members of the Graduate Faculty who will serve as voting members of the committee. To request the approval of a non-Graduate Faculty member to vote, a curriculum vitae for the individual and a justification from the chair of the committee must accompany the request for appointment of the doctoral committee, and the individual must have earned a terminal degree in their field of study.
 - The tenure requirement can be met by term members of the Graduate Faculty who retired or resigned with tenure for a period following their resignation or retirement, according to the Policy on Graduate Faculty Membership.
 - If there are more than four voting members on the committee, at least half of the voting members must be members of the Graduate Faculty.
- Upon departmental request, the dean of the Graduate College may also appoint non-voting members to doctoral committees. Non-voting members do not need to be present at the final examination.
- The student's dissertation adviser (i.e., director of research) need not be the chair of the committee. Co-directors of research are acceptable.

Role of the Committee Chair: The chair, and co-chair if appointed, of the final examination committee must each be a member of the Graduate Faculty. The final examination committee chair is responsible for convening the committee, conducting the examination, and submitting the Final Exam Result form to the department in which the student is enrolled and to the Graduate College.

Results: Decisions of the committee for final examinations must be unanimous and are recorded on the Final Exam Result form. The committee may make one of three decisions:

- Pass the candidate with no revisions required. In this case, the committee may sign the Thesis/Dissertation Approval form after the completion of the examination and give it to the student.
- Pass the candidate pending revision of the dissertation; the candidate will receive the signed Thesis/Dissertation Approval form when the prescribed revisions have been completed.
- Fail the candidate. A program may, but is not required to, grant the student another opportunity to take the examination after completing additional research or writing, as recommended by the committee. However, a new committee must be appointed by the Graduate College. The new committee may, but does not have to, consist of the same members as the original committee.

Number of Attempts: After a fail result a student will only be allowed to take the final examination one additional time while working toward the completion of any one program of study.

Final Exam Result Form: All results must be recorded with the Graduate College on the Final Exam Result form. Voting members of the committee must sign the Final Exam Result form. See Chapter VII.D.5 for additional details

5. **Preliminary and Final Exam Result Forms:**

The Preliminary Exam Result (PER) form and the Final Exam Result form (FER) verify that the student has completed the examination, regardless of the outcome.

- All voting members of a doctoral student's examination committee are required to sign the Exam Result form; signatories must sign for themselves.
- The committee chair, who bears additional responsibilities for the examination, must provide an original (wet) signature.
- Department heads are also required to sign the Exam Result form. Persons authorized by the department to sign this form (as recorded on the Authorized Signatures Form filed with the Graduate College) may sign in place of the department head. The signature of the department head, or the authorized signatory, is an assertion of the authenticity of the committee signatures and of the acceptability of the result of the

examination to the department; therefore this signature must be original (wet).

- Because the Exam Result form asserts a unanimous decision regarding the result of the examination, all required signatures must be submitted to the Graduate College on the same form.

The result of the examination is communicated to the student and to the Graduate College as soon as possible after the conclusion of the exam. Examination result decisions are maintained by the Graduate College.

If the Graduate College is not informed of the result of the final examination within 180 calendar days after the date on which the Graduate College appointed the committee, the committee is considered dissolved. If the examination took place, but the committee failed to submit the results within 180 calendar days, a petition must be submitted to the Graduate College requesting that the result be accepted from the committee after the 180 day deadline (see, www.grad.illinois.edu/PetitionInstructions [98]). If the examination did not take place within 180 calendar days after the date on which the Graduate College appointed the committee, then a new committee must be appointed before the examination occurs. The newly appointed committee may, but does not have to, consist of the same members as the dissolved committee.

6. **Thesis/Dissertation Approval form (TDA):**

The TDA form [128] is the documentation of the acceptability of the final dissertation to the committee and the department. In addition:

- All voting members of a doctoral student's final examination committee are required to sign the Thesis/Dissertation Approval (TDA); signatories must sign for themselves.
- Non-voting committee members are not required to sign, but may do so.
- Department heads are also required to sign the Thesis/Dissertation Approval. Persons authorized by the department to sign TDAs (as recorded on the Authorized Signatures Form filed with the Graduate College) may sign in place of the department head. The signature of the department head, or the authorized signatory, is an assertion of the authenticity of the committee signatures and of the acceptability of the dissertation to the department; therefore this signature must be original (wet).
- Because the TDA asserts a unanimous decision in favor of acceptability of the dissertation, all required signatures must be

submitted to the Graduate College on the same form in support of the dissertation deposit.

E. Time Limits

The time by which a doctoral candidate is expected to complete all degree requirements varies depending on whether or not the student was accepted with a master's degree that will fulfill Stage I requirements (see [chapter VII.C.](#) ^[130]) and whether or not the student takes a break (that consists at minimum of a fall or spring semester) from the program after the completion of the master's degree. A doctoral candidate who must complete all three stages of the degree is expected to complete all degree requirements within seven years of first registering as a degree-seeking student in the graduate degree program, if no break is taken. If the doctoral candidate has completed a master's degree at the University of Illinois at Urbana-Champaign that will fulfill Stage I requirements (see [chapter VII.C.](#) ^[130]) and took a break of less than 3 years before starting the doctoral program, the student is expected to complete the Stage II and III requirements within five years of first registering as a doctoral student in the graduate degree program. If a break of three or more years occurred between receipt of the master's degree at Urbana-Champaign that will fulfill Stage I requirements and returning for the doctoral degree, the student is allowed six years to complete Stage II and III requirements after first registering as a doctoral student in the degree program. If the doctoral candidate has completed a master's degree accepted from another university that will fulfill Stage I requirements (see [chapter VII.C.](#) ^[130]), he or she is allowed six years to complete Stage II and III requirements after first registering as a doctoral student in the degree program, regardless of whether or not any break was taken.

Programs may formally propose different time limits for completion of a doctoral degree program that are different from those of the Graduate College. The exceptions which have been approved are listed in the following table.

Approved Exceptions

Program	Level	Effective	Time to Degree
All College of Education programs	PhD and EdD	Fall 2000	7 years from first enrollment in doctoral program, after completing the Master's degree*
Anthropology	PhD	Fall 1999	10 years from enrollment in doctoral program, if no master's* was earned previously

Medical
Scholars

MD/PhD

Spring
1991

10 years from enrollment in doctoral program, if no master's* was earned previously; 9 years from enrollment in doctoral program, if master's* was earned previously

* Master's degree that fulfills Stage I requirements (see chapter VII.C. [130])

Time to Degree Completion Chart

BACHELOR'S TO PHD PROGRAM TIME LIMITS

Student first admitted to Graduate College with no Master's degree — may earn Master's at any point in the program

Bachelor's to PhD Program (including Education)	up to 7 yrs.
Anthropology PhD; Medical Scholars MD/PhD	up to 10 yrs.

PHD PROGRAM TIME LIMITS (WITH UIUC MASTER'S AND BREAK)

Student earned a UIUC Master's but does not immediately continue toward a PhD

UIUC Master's (up to 5 yrs)	Break < 3 years	PhD Program	up to 5 yrs.
		Education PhD or EdD	up to 6 yrs.
		Medical Scholars MD/PhD	up to 7 yrs.

UIUC Master's (up to 5 yrs)	Break > 3 years	PhD Program	up to 6 yrs.
		Education PhD or EdD	up to 7 yrs.
		Medical Scholars MD/PhD	up to 8 yrs.

PHD PROGRAM TIME LIMITS (WITH NON-UIUC MASTER'S)

Student first admitted to Graduate College with a Master's earned at another institution

1st Admission with previous master's from another institution	PhD Program	up to 6 yrs.
	Education PhD or EdD	up to 7 yrs.
	Medical Scholars MD/PhD	up to 8 yrs.

Course work that is **older** than the number of years by which a doctoral student is expected to complete all degree requirements will not be automatically accepted for the degree. To request acceptance of old course work, the doctoral student must petition ^[98] the Graduate College. The petition must include an explanation from the department of how the student's knowledge in the areas covered by the old course work meets current standards. This justification is needed for degree certification and the petition can be filed up to one year prior to the degree conferral date.

If **more than five years elapse** between a doctoral student's preliminary and final examinations, the student is required to demonstrate that his or her broad knowledge of the field is current by passing a second preliminary examination. It is not adequate that the student has sufficient current knowledge in the area of the dissertation. The form of the second preliminary examination need not be identical to that of the first. Scholarly publications and college-level teaching assignments may be used as partial evidence of the student's current knowledge of his or her field, but a preliminary examination committee must be appointed by the Graduate College, an examination given, and its result reported to the Graduate Student Academic Services Office.

It is expected that the doctoral dissertation will be **deposited within one year** of the final examination. If more than one year elapses between the student's final examination and the deposit of the dissertation in the Graduate College, the dissertation must be accompanied by a signed petition and statement from the executive officer of the student's department to the dean of the Graduate College. The statement should recommend accepting the dissertation on the basis that it is essentially the one defended and should also state why the late award of the degree is appropriate.

F. Survey of Earned Doctorates

The University of Illinois participates in a long-standing national survey of doctoral students conducted by the National Opinion Research Center (NORC) at the University of Chicago for the National Science Foundation, National Institutes of Health, and other supporting institutions.

All doctoral students are required to complete ^[135] the Survey of Earned Doctorates at the time of final deposit. Students may decline to answer any or all of the questions by indicating refusal with the word "refused" for each question they decline to answer. For more information about the Survey of Earned Doctorates, visit the website. ^[136]

Chapter VIII: Tuition and Fees

A. Assessment

Tuition and fee assessments are based on the student's Illinois residency status [137], the college and curriculum of enrollment, and the amount of credit for which the student registers. Credit is organized by "ranges" (e.g. Range I for fall and spring terms is 12 or more hours), and the amount of tuition and fee assessments may vary by range of enrollment. For example, if a student registers for fewer than 6 hours in fall or spring terms, or less than 3 hours in summer, certain fees would not be assessed. Without the fee assessment, the student would not have access to the services associated with that fee.

In addition to tuition, certain courses carry a fee to cover instructional costs. These fees may apply to computer equipment and usage, laboratory equipment and supplies, musical instruments for practice, and similar instructional costs. Instructional fees are noted in the Class Schedule [75] and assessed along with tuition and other fees.

The Office of the Registrar's Web site contains complete information about tuition and fees assessment [138], current fee structures [139], and which services are supported by specific fees [138].

B. Billing

Once a month, the University of Illinois emails students, reminding them to view their student account for recent activity and to pay any amount due by the due date. The student account is available online for students and Authorized Payers to view and print, and includes all student account transactions such as: payments received, and charges and credits for tuition, fees, and housing.

Students with questions about their student accounts should contact University Student Financial Services and Cashier Operations at 333-2180. Complete information about billing can be found at <http://paymybill.uillinois.edu/Billing> [140].

C. Adjustments, Cancellation, Withdrawal and Refunds

A student's assessment of tuition and fees may be adjusted for a number of reasons, including changing the number of hours of registration, cancelling registration, or withdrawing from the University. Because tuition and fee assessments are based on the hours of credit organized by "ranges," adding or dropping classes could result in a student moving from one range to another, which would result in either an increase or decrease in the assessment.

Cancellation of registration is only permitted if a student has not attended classes and has not used any University services. If a student wishes to **cancel** registration and avoid payment of the tuition and fee charges, the student must complete a Withdrawal/Cancellation form ^[28] (PDF) and submit it before 5:00 p.m. on the last business day before the first day of instruction of the term (including requests by mail). A student must obtain permission from their departmental office and International Student and Scholar Services ^[63] (international students only) before submitting the Withdrawal/Cancellation form to the Graduate College. If cancellation is approved by the Graduate College, all tuition and fee charges are removed from the account for that term.

A student who wishes to **drop** all courses after the cancellation deadline ^[141] must **withdraw** from the University for that term. This applies even if the students had been registered for only one course. Students withdrawing from the University are refunded on a pro-rata basis ^[142] until a specified date in the semester after which no refund is available. No portion of the health insurance fee or health service fee is refundable. Students who have paid health insurance and health service fees will continue to be covered and eligible to receive services for the corresponding coverage period for that term. The withdrawal refund policy ^[142] contains more details.

Special refund policies apply to students who withdraw to enter active duty in the armed forces or other approved national defense service. See the complete policy, Rule 3-314 of the Student Code ^[143].

If a student reduces course registration to a lower assessment range (e.g., from Range I to Range II ^[138]), the student may be eligible for a refund. Refund policies vary depending on the action taken by the student and when the action is taken. Before any refund is made to the student, the University must make a refund to the appropriate financial aid programs providing assistance to the student. If the student is indebted to the University when due a refund, the amount owed is deducted from the amount of refund. See the University Refund Schedule ^[38] for details and specific dates.

D. Tuition Waiver Policy

Tuition rates for graduate students are recommended by the Office of the Provost and approved by the Board of Trustees. Tuition remission rates charged to research grants are determined by the Office of the Vice Chancellor for Research. Full-time employee waiver policy is set by the Board of Trustees and administered by Academic Human Resources. The Graduate College reviews changes to the assistantship tuition waiver levels that are requested by disciplinary colleges, as dictated by the Tuition Waiver Policy.

Authority to waive tuition for graduate students with assistantships is vested in the Graduate College as a unit of the Office of the Provost and Vice Chancellor for Academic Affairs. The Tuition Waiver Policy document presents an explanation of the campus tuition waiver policy for graduate students, including information specific to graduate assistantships, information specific to fellowships and traineeships, and provisions that apply to all waiver-generating graduate appointments. **Questions can be directed to the Graduate College Fellowship Office, (217) 333-0036 or e-mail gradfellowships@illinois.edu** ^[144].

1. Graduate Assistantships:

Waiver-generating assistantship appointments are defined as appointments ranging from 25 percent through 67 percent time (based on a forty-hour week) for at least three-quarters of the academic term. The academic term is the period starting on the first day of classes and ending on the last day of final examinations ^[145]. For fall and spring terms, three quarters is defined as 91 days ^[146]. For summer term, it is defined as 41 days. A teaching assistant appointment between 25 percent and 67 percent for at least 21 days in Summer I (four-week part of Summer term) will be considered a waiver-generating appointment.

The tuition waiver policy for graduate assistantships is established by the campus, with certain provisions tied to the graduate program in which the student is enrolled (as identified by the graduate program code). Before units can elect to make any changes to their tuition waiver policy, they must seek and receive approval from the Graduate College and the Office of the Provost. Students are governed by the waiver policy in effect at the time of first enrollment in the program as long as they are in good academic standing and are making proper progress toward graduation in that program.

a. College/School assistantship Tuition Waiver Policy.

A table of the policies for all graduate programs listed by college or school can be found at:

- ACES ^[147]
- Applied Health Sciences ^[148]
- Aviation ^[149]
- Business ^[150]
- Education ^[151]
- Engineering ^[152]
- Fine and Applied Arts ^[153]
- Graduate College ^[154]
- Labor and Employment Relations ^[155]
- Law ^[156]
- Liberal Arts and Sciences ^[157]
- Library and Information Science ^[158]
- Media ^[159]

- Medicine ^[160]
- Social Work ^[161]
- Veterinary Medicine ^[162]

The principal provisions of the policy specific to assistantship appointments include:

- b. **Cost-recovery and self-supporting programs.** ^[163] Students in approved cost-recovery and self-supporting programs are not eligible to receive tuition and fee waivers except statutory waivers ^[164]. For example, these students may not hold waiver-generating appointments, receive stand-alone waivers or receive employee waivers. However students are eligible to receive tuition scholarships.
- c. **Full waivers.** Waiver-generating assistantship appointments provide waivers of all assessed tuition for students in certain curricula. Depending on the student's program and residency status, tuition assessment may include an in-state assessment, a non-resident assessment and a program-specific tuition assessment.
- d. **Base-rate waivers.** In certain curricula, students with waiver-generating assistantships receive base-rate waivers. A base-rate waiver covers only the resident portion of the Graduate Base Rate T ^[139]uition. The student is responsible for paying the remaining tuition, which may include a non-resident assessment and a program-specific assessment.

Units may use their funds to pay any portion of the remaining tuition for assistants enrolled in base-rate waiver curricula. An appropriate source of funds must be used and appropriate account codes specified so the transactions can be properly tracked. Grant or contract funds may not be used for direct payments to students for tuition.

- e. **Reimbursement.** Under the current budget policy, each disciplinary college receives the tuition income from graduate students enrolled in its programs; that income forms part of the college's operating budget. Therefore, an assistantship, through its associated tuition waiver, represents a reduction in potential income for the student's disciplinary college. Some colleges have received approval to demand reimbursement from an appointing

unit outside the college for the value of the tuition income lost through the outside assistantship.

A unit considering appointing a student to an assistantship is strongly advised to check the student's curriculum for the possibility that a request for reimbursement of the value of the assistant's tuition waiver might be forthcoming. There is no mechanism for automatically charging the appointing unit. The student's disciplinary college has the responsibility for requesting reimbursement, and the policy requires the appointing unit to pay if requested. The reimbursement sought will be the value of what is waived, except when seeking reimbursement from units appointing assistants paid from research grants and contracts. (See provision #5 for more information about reimbursement from research grants and contracts.)

- f. **Reimbursement from research grants and contracts.** Currently, a provisional rate of 60% of a graduate assistant's stipend is charged to research grants and contracts as tuition indirect cost on all projects that have the full, negotiated indirect cost rate. The tuition indirect cost funds do not get processed into the campus tuition fund, but rather are processed as ICR funds. Therefore, the amount of reimbursement that can be sought due to an assistantship tuition waiver is limited. The amount of the reimbursement is limited to the amount of tuition ICR collected by the appointing unit and appointing disciplinary college. No tuition indirect cost is currently charged to projects that have an approved indirect cost rate lower than the full, negotiated rate.
- g. **Reimbursement for assistants with multiple appointments.** In the event of split appointments, units should agree in advance as to the responsibility for the value of tuition waivers for students in curricula that seek reimbursements. Where there are no advance agreements, the default arrangement is that the unit providing the percentage of the appointment that moves the assistantship into the eligible range of 25% through 67% (usually the unit last to add the appointment to the payroll) is responsible for the value of the resulting waiver.
- h. **Exceptions for early termination of appointment.** A student who resigns a waiver-generating assistantship appointment or whose appointment is canceled before service is rendered for at least three-fourths of the academic term (91 days during a spring or fall semester, 41 days in summer term, or 21 days in summer 1 term for TA appointments) loses the accompanying tuition and fee waiver. This means that the student would be required to pay

the full amount of appropriate tuition and fees for that term. There are two exceptions. The waiver remains in effect if the student withdraws from the University (see [chapter VIII.C](#) ^[29]) on or before the last day of the assistantship appointment, or resigns from the assistantship and completes all degree requirements for graduation within seven calendar days of the resignation. See [chapter IX.A.7](#) ^[165] for more information about resigning assistantships.

2. Fellowships and Traineeships:

A **fellowship** is defined as an award providing a stipend for living expenses at the established minimum or higher and demanding no services in return. Fellowship appointments are reviewed in the Graduate College, and the Graduate College decides whether an award is a fellowship.

Traineeships are research fellowships that are awarded to provide educational training in particular disciplinary areas and provide a stipend for living expenses.

The principal provisions of the policy specific to fellows and trainees include:

- a. **Cost-recovery or self-supporting programs.** ^[163] Students in approved cost-recovery or self-supporting programs are not eligible to receive fellowship or traineeship waivers. This means the student may receive an award that provides:
 - stipend only, or
 - both a stipend and full payment of tuition, or
 - both a stipend and a tuition scholarship that covers some portion of tuition.
- b. **Tuition coverage.** Eligible fellows and trainees receiving the established minimum or higher stipend receive coverage of full tuition during the tenure of the award, regardless of whether the student's program is base-rate or full for assistantship waivers. The coverage is provided through payment by the funding agency of all tuition assessed, or payment of a negotiated institutional allowance in lieu of full payment, or a full waiver provided by campus. The Graduate College negotiates the institutional payment with the sponsor. Any exceptions to this policy must be granted by the Graduate College. Tuition income lost due to fellowship or traineeship waiver is not reimbursable. This applies to awards originating on and off-campus.

- c. **The minimum fellowship/traineeship stipend amount sufficient to generate a waiver is listed below by academic year.** By November of each year, the Graduate College in consultation with the Fellowship Board and approval of the Provost establishes the minimum fellowship/traineeship stipend sufficient to provide a waiver for new awards for the following academic year. For students with multi-year awards, the minimum stipend amount sufficient to generate a waiver is established in the initial year of the award and remains constant for the duration of that award.

Academic Years	Minimum Stipend per Year	Minimum Stipend per Semester	Minimum Stipend for 12-month Appointment	Minimum Stipend for Summer
2001-2010	\$6,000	\$3,000	\$8,000	\$667 for 2 months
2010-2011	\$10,000	\$5,000	\$13,333	\$1,111 for 2 months
2011-2012	\$10,000	\$5,000	\$13,333	\$1,111 for 2 months
2012-2013	\$10,000	\$5,000	\$13,333	\$1,111 for 2 months

- d.
- e. **Campus fellowships and traineeships.** Awards funded by campus units must be sufficient to generate a waiver or supplement a waiver-generating appointment.
- f. **External agencies** providing fellowship or traineeship support are required to pay the University for the fellow or trainee's full tuition or pay a negotiated institutional allowance in lieu of full payment. The Graduate College negotiates the institutional payment with the sponsor. Any exceptions to this policy must be granted by the Graduate College. The Graduate College decides whether an award is a fellowship.
- g. **Endowment based fellowships** established Fall 2010 or later that provide a stipend sufficient to entitle the fellow to a tuition waiver will be required to fund the health service fee and the

covered portion of the cost of the health insurance fee.

- h. **Courtesy Fellowship Waivers.** Departments may request waivers for individual students who receive a fellowship from outside the University only in cases where the stipend is paid directly to the student, the stipend meets or exceeds the campus established minimum, and the award has no funding for tuition and fees. The student must be in good academic standing. Requests for courtesy waivers must be submitted by the student's graduate program (on a Rating Form ^[166]) and must include specific information on the financial support the award provides. The Graduate College will review the information and determine the eligibility for a courtesy waiver. Courtesy fellowship waivers may include a waiver of all tuition assessed, as well as the service fee, the health service fee, the AFMFA fee, and the Library/Technology fee. They also provide vision insurance, dental insurance and partial payment of the health insurance fee.
 - i. **College of Medicine.** Students in the College of Medicine, except those in the Medical Scholars Program, must obtain written approval from the College of Medicine before accepting a fellowship or traineeship, and subsequent tuition waiver, controlled by another campus or university unit. Should a student in the College of Medicine, not in the Medical Scholars Program, accept a fellowship or traineeship without the approval of the College, the College may request that the Graduate College remove the related waiver.
 - j. **College of Veterinary Medicine.** Effective Fall 2007, students in the College of Veterinary Medicine, except those in the Veterinary Medical Scholars Program, must obtain written approval from the College of Veterinary Medicine before accepting a fellowship or traineeship, and subsequent tuition waiver, controlled by another campus or university unit. Should a student in the College of Veterinary Medicine, not in the Veterinary Medical Scholars Program, accept a fellowship or traineeship without the approval of the College, the College may request that the Graduate College remove the related waiver.
3. **Other provisions of the tuition waiver policy for all waiver-generating appointments (assistantships, fellowships and traineeships) include:**
- a. **Selection Documentation.** The Joint Commission on Administrative Rules (JCAR) requires tuition and fee waiver

records to be maintained for a minimum of five years. Therefore, awarding units should retain records pertaining to application, evaluation, and selection, including records for rejected applicants for tuition and fee waiver support (waiver-generating fellowships or assistantships, courtesy waivers or stand-alone waivers). The full JCAR document can be found at www.ilga.gov/commission/jcar/admincode/023/023parts.html [167].

- b. **Fee waivers.** Most waiver-generating appointments include coverage of the service fee, health service fee, AFMFA fee and the Library/Technology fee, along with partial payment of the health insurance fee, and full payment by the University for the University vision insurance and dental insurance plans. Note: Some fellowship and traineeship appointments provide coverage of all mandatory fees.
- c. **Waiver priority.** The campus has established a priority system to guide the work of the Office of Student Financial Aid in processing waivers in cases where students have more than one waiver-generating appointment or are eligible for waivers from multiple sources. If a student has a waiver-generating fellowship and a waiver-generating assistantship for the same term, the fellowship waiver (full waiver of tuition) will take priority. It is not possible to combine a base-rate graduate assistant tuition waiver with other partial tuition waivers (such as a waiver of non-resident tuition) to obtain a more complete waiver of tuition. Questions about the waiver priority system can be directed to the Office of Student Financial Aid [168].
- d. **Summer Automatic Waivers.** Students without summer waiver-generating appointments who held waiver-generating appointments for the previous spring semester are eligible to receive summer automatic tuition waivers if they choose to enroll in the summer semester. The summer automatic waiver provides the same tuition waiver as that granted during the previous spring. However, it does not provide a waiver of the same fees as a waiver-generating appointment. Only the service fee, AFMFA fee and the Library/Technology fee are included. The health service fee and health insurance fee are not covered. Students with dental and vision insurance coverage from a waiver-generating appointment in the spring term continue to have dental and vision coverage through August 31. Authorized disciplinary colleges may request reimbursement for summer automatic waivers from an appointing unit if that unit was billed for the waiver in the spring semester.

- e. **Stand-Alone Waivers.** At their discretion, disciplinary colleges may elect to **grant a stand-alone waiver to** a student who has no waiver-generating appointment. The tuition waiver may be a base rate or full waiver depending on the graduate program in which the student is enrolled. Stand-alone waivers also include the service fee, AFMFA fee, and Library/Technology fee. No other fees ^[68] are covered in this waiver nor does it include dental and vision insurance coverage. Colleges may limit the number of stand-alone waivers they will grant.
- f. **Taxability of tuition waivers associated with assistantships and fellowships.** All Graduate tuition and fee waivers are considered taxable income unless exempt under the Internal Revenue Code. Current tax law exempts the tuition and service fee waivers for teaching assistantships (TAs), research assistantships (RAs), and most fellowships. For graduate assistantship (GA) and pre-professional graduate assistantship (PGA) appointments, only \$5,250 per calendar year is exempt. If the amount of the tuition and service fee waiver exceeds \$5,250, the excess is deemed income under the IRC and additional withholding may be applied.

Each semester, GAs and PGAs whose tuition and service fee waivers to date are valued at more than \$5,250 will have withholding on the amount exceeding \$5,250. The withholding tax is applied to the student's earnings (stipend or hourly pay).

For more information, students may contact the University Payroll Service Center at paying@uillinois.edu ^[169] or the Academic Human Resources Office at 217-333-6747 or the IRS Publication 970 www.irs.gov/pub/irs-pdf/p970.pdf ^[170], chapters 12 and 13.

- *Student Code: Section 3-503* ^[171]
- *Archived Tuition Waiver Policies* ^[172]

Chapter IX: Assistantships and Fellowships

There are many policies which govern assistantship and fellowship appointments, including those set by the Office of the Provost and other governing bodies on campus. Because students are frequently also employees,

they need to be aware of policies set by Academic Human Resources, and the University's agreement with the Graduate Employee's Organization (GEO). Students should consult and be familiar with campus policies set by the following units as they pertain to assistants and fellows.

Academic Human Resources ^[173] – Administers University policies for employees, including graduate employees, hours of work, stipends and leaves.

Division of Research Safety ^[174] – provides online training that is mandatory for all employees or students working in research labs that have or use biological, chemical, or radiological materials. This training should be completed within the first month of activity in such a lab.

Graduate Employee's Organization ^[175] (GEO/IFT/AFT/AFL-CIO) – recognized officially as the exclusive bargaining unit for all graduate assistants (GAs) and most teaching assistants (TAs). For assistants represented by GEO, wages, hours, terms and conditions of employment are included in their Agreement with the University of Illinois ^[176] (PDF). Teaching assistants not represented in the bargaining unit include those whose assistantships are not waiver-generating, and teaching assistants who are teaching for the first time in one of the following units: Animal Biology, Biochemistry, Cell and Structural Biology, Chemistry, Germanic Languages and Literatures, Microbiology, Plant Biology, and Psychology.

Office of the Provost ^[177] – requires that graduate teaching assistants attend training before beginning any teaching appointment. Before the start of classes, departments either conduct training programs for all new teaching assistants or require attendance at the Graduate Academy for College Teaching ^[178] (which includes sessions about language and culture that meet the University's policy requirements for all non-native speakers of English before they teach in a University of Illinois classroom). For more information, see the Center for Teaching Excellence Web site ^[179].

University Ethics Office ^[180] – administers an annual online ethics training program to all University of Illinois employees. The University of Illinois Ethics Office contacts students via their official University e-mail account during a pre-announced time period with individual login instructions for the training.

A. Assistantship Policies

The various departments of the University appoint students as teaching (TA), research (RA), pre-professional graduate (PGA) or graduate assistants (GA). Academic Human Resources ^[181] has defined the duties associated with each type of assistantship ^[182]. Graduate student assistantships and their accompanying tuition waivers provide graduate students with financial resources

that help defray the expenses associated with completing their graduate degrees. Students who hold assistantships experience educational and professional benefits. They gain further instruction in techniques in their fields, hone their research skills, acquire pedagogical experience necessary for an academic career, develop professional skills, and may have collegial collaboration with advisers that result in presentations or publications.

1. **Application, Evaluation and Selection Process:** Academic departments and administrative units of the campus appoint graduate students as assistants. Therefore, applicants to the Graduate College request consideration for an assistantship by checking the appropriate box on the application form, and continuing students apply directly to the appropriate department according to its procedures.

The evaluation and selection process for an assistantship appointment is conducted by the department. The documentation related to this process must be retained. See section 3.a. of the Tuition Waiver Policy [183] for details. The primary considerations are the appropriateness of the student's abilities to the duties to be performed, together with the relevance of those duties to the student's own graduate education . Each unit that makes assistantship appointments is responsible for ensuring that the graduate students are qualified for the appointment received.

Assistants whose academic progress and service record have been satisfactory may be eligible to have their appointments renewed, subject to the availability of funds and the need for services. Departments have differing policies on the length of time they will fund students with assistantships and waivers.

2. **Eligibility Requirements:** To receive and hold an assistantship, a student must:

- o be admitted as a degree-seeking student in good standing (IV.B.3), [184]

Or

- o be admitted to a non-degree program under an Exchange agreement that includes an assistantship as part of the terms of the agreement.

Students admitted on Limited Status [44] or on Probation may not hold assistantships until they are in Good Standing. Students on Probation, admitted on Limited Status, or admitted as non-degree students must petition each term to request to hold an assistantship.

Assistantships cannot be offered to students who have graduated unless the student successfully requested to change curriculum [94] and will continue in another program.

Assistantships cannot be offered to individuals prior to the admission term. If a unit has an interest in providing a summer assistantship to a person admitted for fall, the unit must recode the application to indicate summer as the term of admission.

To be eligible for a Teaching Assistantship appointment individuals must be orally proficient in English. Illinois law requires that all instructors at the University of Illinois be orally proficient in English [185]. Campus has established a minimum acceptable score for approved English proficiency exams that is required of all non-native speakers of English serving in instructional roles. There are no exceptions. This means that students applying for teaching assistantships in foreign language programs are not eligible to seek an exemption from the requirement for demonstrated English proficiency. Some campus units may require higher scores. In addition, campus policy requires those who pass the proficiency exam to attend the Graduate Academy for College Teaching and have their classroom teaching monitored closely by their departments during the semesters in which they teach. Additional information may be obtained from the Center for Teaching Excellence [179].

3. Enrollment Requirements.

- a. **Fall and Spring All Students.** In the fall and spring terms, students receiving assistantships must be registered for the semesters of appointment.
- b. **Summer New Students.** Students admitted for summer term who receive assistantships **must register for the summer term.**
- c. **Summer Current Students.** If a student receives a summer assistantship (the period between May 16 and August 15), and the student was registered for the immediately preceding spring semester or has registered for the following fall semester, the campus policy does not require the student to register for the summer term. However, the student's department may require the student to register in summer.

4. Appointment Level:

All assistantship appointments must be processed [181] to reflect the actual percentage and length of time the employee works. The

appointment level is based on the appointing unit's determination of the amount of time it should normally take to perform the assigned duties over the full appointment period including orientation and training. Hours of work are separate and distinct from the time required for an assistant's own academic course work.

International students may receive a maximum of a 50% assistantship per government regulations, and should check with ISSS for additional rules ^[186].

5. **Stipends:**

The University establishes a campus minimum stipend ^[181] for assistants and the terms of the University Agreement with the Graduate Employees Organization (GEO) ^[176] (PDF) stipulates the minimum for represented assistants. Units may pay above the minimum, and stipend amounts vary from unit to unit. Assistantship stipends are taxable, and state and federal taxes are withheld from stipends. Assistants whose enrollment is deemed to be less than half time will also have Federal Insurance Contributions Act tax (i.e., the Social Security and Medicare deductions) withheld from their stipends.

In addition, the stipend of students holding Graduate Assistantships (GAs) or Pre-Professional Graduate Assistantships (PGAs) will be subject to withholding tax on the value of tuition and service fee waivers that exceed \$5,250 **per calendar year**. Each semester, GAs and PGAs whose tuition and fee waivers to date are valued at more than \$5,250 will have withholding on the amount exceeding \$5,250 applied to their stipend payments. See taxability of tuition waivers associated with assistantships and fellowships (c ^[187]hapter VIII section D.3.d. ^[187]).

6. **Employment Leaves:**

Assistants are eligible for holidays, sick leave, parental and bereavement leave. See graduate employee information regarding leaves posted on the AHR site ^[188] for full information. Questions about leave policies should be directed to the Office of Academic Human Resources ^[189] at 333-6747 or 807 South Wright Street, Room 420.

7. **Teaching of Graduate Level Courses:**

Teaching assistants may not, either intentionally or by default, be given sole responsibility for instruction of courses or sections of courses at the 400- or 500- levels or for the assignment of final grades in such courses (except 400-level course sections in which enrollment is limited to undergraduates). Teaching assistants may only assist the responsible

instructor in grading, laboratory supervision, and similar activities for courses at the 400- or 500-level. Infrequent lecturing is permissible. Departments requesting an exception must provide the dean of the Graduate College with a letter explaining the special circumstances that justify the exception, including the qualifications (expertise in subject, nearness of date on which the doctorate is expected, and so forth) of the student who is proposed as the teacher (see guidelines ^[190]). Exceptions are rarely granted. A student is not allowed to enroll in a course in which he or she is a teaching assistant.

8. Renewal, Resignation, Graduation, and Termination of Appointments:

Assistantships are ordinarily assigned on a semester-by-semester or academic year-by-year basis. An appointment remains in effect only if the student maintains good academic standing, makes satisfactory academic progress, and provides satisfactory service. Assistants are eligible for reappointment at the sole discretion of the unit based on past performance of the assistant, availability of funds and the determination of the need for services. Departments are encouraged to communicate with assistants concerning plans or prospects for new appointments. Departments have differing policies on the length of time students may hold assistantships and sometimes limit the total number of semesters an assistant may serve. Many departments require that teaching assistants obtain and maintain certain teaching standards in order for their assistantships to be renewed. It is essential for the student to be aware of the appointing unit's policy and to plan accordingly.

A student who resigns a waiver-generating assistantship appointment or whose appointment is canceled before service is rendered for at least three-fourths of the academic term (91 days during a spring or fall semester, ^[146] 41 days in summer term, or 21 days in summer 1 term for TA appointments) loses the accompanying tuition and fee waiver. This means that the student would be required to pay the full amount of appropriate tuition and fees for that term. There are two exceptions detailed in VIII.D.1.h. ^[183]

Students with assistantship appointments (RA, TA, GA PPGA) are eligible to hold their assistantships through the end of the semester in which they deposit if the end date of the appointment, when offered and accepted, was the same or later than the deposit date. For example, a student with a spring appointment processed to end May 15 may hold the assistantship through May 15, even if the student deposited the thesis anytime between January 1 and May 15. This does not obligate the student to continue the assistantship, and the campus policy ^[191] permits students to resign their assistantships and retain their waivers, if

they complete all degree requirements for graduation within seven calendar days of the resignation, as detailed in VIII.D.1.h. ^[183] For students with academic year assistantship appointments, their assistantship would end at the end of the semester in which they deposit and may not continue into the next semester.

An assistantship appointment may be terminated during the term of the appointment. The assistant must be provided with written notice and an opportunity to respond to the department head prior to termination. For more information about procedures for terminating an assistantship appointment, see the Office of Academic Human Resources ^[189]. Assistants with questions about their appointments and benefits may also contact the Office of Academic Human Resources ^[189]. Teaching assistants and graduate assistants may also consult the GEO Agreement with the University of Illinois ^[176] (PDF).

B. Campus Fellowship and Traineeship Policies

Fellowship appointments are reviewed in the Graduate College. Students admitted on limited status due to grade point average or a bachelor's degree not comparable to that at this university or current students on academic probation or dismissal status should not be appointed to fellowships or traineeships unless there is some extraordinary justification for doing so. In submitting the appointment documentation, the department must provide the justification and the Graduate College will determine whether the student is eligible. Non-degree students are not eligible for fellowships or traineeships.

A fellowship is defined as an award providing a stipend for living expenses at the established minimum or higher ^[192] and demanding no services in return.

Fellowship awards count against student loan eligibility. In questionable cases, the Graduate College will decide whether an award is a fellowship.

Traineeships are research fellowships that are awarded to provide educational training in particular disciplinary areas and provide a stipend for living expenses.

Traineeship awards count against student loan eligibility. In questionable cases the Graduate College will decide whether an award is a traineeship.

The full tuition and fee policy for fellows and trainees can be found in chapter VIII.D ^[183].

1. Registration for Fellows and Trainees:

Acceptance of a waiver-generating (VIII.D.2) ^[83] fellowship or traineeship appointment carries with it the agreement that the student will pursue a full program of study while on appointment. During the fall and/or spring semester fellows are required to register for at least 12 hours during the semester of the appointment. A student with a twelve-month fellowship appointment is also required to register for at least four hours in an eight-week course during the summer. An audited course does not count toward the registration requirement for fellows.

For **international fellows**, each required or recommended ESL course taken as a result of the English as a Second Language Placement Test (EPT) or the English Proficiency Interview (EPI) will count as the equivalent of 4 graduate hours, even if the course credit is recorded as zero hours.

2. Award Periods:

The standard award period for an academic year fellowship is August 16 to May 15. The standard award period for a fall fellowship is August 16 to December 15; the standard award period for a spring fellowship is January 16 to May 15.

3. Concurrent Awards:

Fellows are prohibited from holding two major awards concurrently (fellowship, traineeship, grant, tuition payment award or comparable support from any government agency, state, federal or foreign, or from any foundation, corporation or similar organization). Any award offer should be reported immediately to the Graduate College Fellowship Office ^[193], where the determination will be made whether the two awards may be held concurrently.

4. Concurrent Appointments:

Unless otherwise restricted by campus policy or the granting agency or unit, fellows may, at the discretion of their department and with the prior approval of the Graduate College, carry an assistantship or graduate hourly appointment of up to 50 percent time. Any offer should be reported to the Graduate College Fellowship Office ^[193], where the determination will be made whether the appointment can be held concurrently with the fellowship. Please see www.grad.illinois.edu/faculty-staff/toolkits/nih_admin ^[194] for information about guidelines for concurrent appointments for trainees.

5. Taxability of Stipend: ^[195]

Fellowship stipends may be subject to income taxes. For U.S. citizens, permanent residents and foreign national resident aliens for tax purposes, the Internal Revenue Service (IRS) has ruled that universities

are not responsible for withholding or reporting income taxes on fellowship payments. Taxability of the fellowship payment is a matter between the fellow and the IRS. Therefore, no income taxes are withheld from fellowship payments. Fellows do not receive a Form W-2 for their fellowship income nor does the University report the fellowship payment to either the state or federal government. For more information on the taxation of fellowships, consult [IRS Tax Topic 421 - Scholarship and Fellowship Grants](#) ^[196].

The Internal Revenue Service (IRS) requires that universities withhold taxes from the fellowship payments to **international students** on temporary visas who are classified as non-resident aliens for tax purposes. International students may be able to claim a treaty benefit that exempts the fellowship payment from income tax withholding. All students on temporary visas must schedule a tax status review appointment with the University Payroll Service Center to determine their tax residency status and whether they qualify for tax treaty benefits. At this appointment, University Payroll determines residency and tax status classification. Fellowship stipend payments will be taxed at the highest possible rate until after the tax status review process is completed. For additional information and links to tax forms, see the [Tax Information](#) ^[195] Web page. For more information on taxation for international Fellows, consult [IRS Publication 519: Tax Guide for Aliens](#) ^[197] (PDF).

6. Taxability of Tuition and Fee Waivers:

For information about the taxability of tuition and fee waivers associated with fellowships, see the [Tuition Waiver Policy](#) ^[183].

7. Thesis Deposit/Graduation for Fellows:

Students with fellowship or traineeship appointments must notify the Graduate College Fellowship Office in advance of thesis deposit as it may result in a change in the terms of the fellowship award, including termination.

For each degree conferral date, the Graduate College has established end dates for fellowship support for fellowships falling with the [standard award periods](#). The end date of a fellowship for a student depositing the thesis is determined considering multiple factors including:

- degree conferral date
- deposit deadlines
- deposit date
- the policies of the fellowship sponsor
- the original award period.

The campus degree conferral dates are May, August and December (the academic calendar can be found at www.grad.illinois.edu/general/calendar/current [64]). For each degree conferral date, this policy establishes the end date for fellowship support for fellowships falling with the standard award periods.

The applicable dates for 2012-2013 are:

- **December 2012 degree conferral**
 - For doctoral candidates, the fellowship would end effective December 15 if the thesis is deposited between November 16 and December 7.
 - For master's candidates, the fellowship would end effective December 15 if the thesis is deposited between November 16 and December 14.
- **May 2013 conferral**
 - For doctoral candidates, the fellowship would end effective May 15 if the thesis is deposited between April 5 and April 19.
 - For master's candidates, the fellowship would end effective May 15 if the thesis is deposited between April 5 and April 26.
- **August 2013 conferral**
 - For doctoral candidates, the fellowship would end effective August 15 if the thesis is deposited between June 28 and July 12.
 - For master's candidates, the fellowship would end effective August 15 if the thesis is deposited between June 28 and July 19.

If a Fellow deposits earlier than the designated period, the fellowship end date will be based on the fellowship award period and the payroll processing dates. This may mean that the fellowship would end effective the date of deposit.

Exceptions include the following cases:

- Student deposits a master's thesis with plans to continue as a doctoral student in the same program.
- Awarding organization's fellowship policy calls for an end date that differs from the Graduate College policy dates.

Fellows with questions about this policy should contact the Graduate College Fellowship Office at GradFellowships@illinois.edu [198].

Chapter X: Problem Solving

A. Standards of Conduct

The Graduate College and the University of Illinois at Urbana-Champaign have established policies and standards for academic, professional, and personal conduct. Students are responsible for being familiar with these policies and standards (see the [Office of the Vice Chancellor for Research](#) [199], the [Provost's Office on Campus Conduct](#) [200], and the [Student Code](#) [27]). Conduct that violates these policies and standards may result in serious consequences including dismissal. In addition to the information in this chapter, also see the [Graduate College Web site for resources on problem solving and conflict mediation](#) [201]. Students should also review the section on Academic Integrity, located in [chapter I](#) [202] of this document.

B. Petitions

The policies, requirements, and deadlines of the Graduate College have been put in place to uphold high academic standards. Exceptions may be justified under extenuating circumstances. Students who wish to request an exception to Graduate College policies may submit a [petition](#) [103] providing an explanation or justification for the action requested. The more unusual or major the request, the more detailed the explanation should be from the student and the adviser and/or other appropriate members of the Graduate Faculty or staff. Requests for exceptions to the deadline to deposit a thesis for a certain conferral date and for exceptions to the requirement to be enrolled during the semester that a dissertation is defended are never granted. Students with questions about exceptions to fellowship policies should contact the [Fellowship Office](#) [203] instead of submitting a petition.

C. Conflict Resolution

The University has procedures to provide assistance to students experiencing conflict. Policies and procedures for conflict resolution are overseen by several offices on campus, including the Graduate College, the [Office of the Dean of Students](#) [204], [International Student and Scholar Services](#) [63], the [Office of Equal Opportunity and Access](#) [205], and, in some cases, individual departments. The type of conflict will determine from which University office the student should seek assistance.

D. Academic Conflict

Academic conflict may be addressed through informal processes or through a formal grievance process. Some graduate programs have established grievance procedures [206] and students should be aware of whether their program has such a procedure in place. The Graduate College has a grievance policy and procedure [207] in place to assist students and graduate programs. It is recommended that students first explore the option of informally resolving an academic conflict. A student who believes he or she has an academic grievance should first discuss it with his or her adviser. If discussion with the adviser is inappropriate or unfruitful, discussion with a senior faculty member, director of graduate study, or a department or unit head is recommended.

A student may elect to file a formal grievance within the unit in which a problem has arisen if the department has a written grievance procedure approved by the Graduate College. The student may also choose to file the grievance directly with the Graduate College. Students should be aware of differences between the Graduate College and departmental grievance policies, as well as what types of grievances are appropriately addressed by these policies.

Departmental Policies

All graduate students may use the Graduate College Grievance Policy to file a grievance. Students in the following programs may choose to file a grievance at the departmental level, following the procedures of that unit's grievance policy. (Please see III.B.1 below.)

Aerospace Engineering [208], Anthropology [209], Civil and Environmental Engineering [210], Communication [211], French [212], Materials Science and Engineering [213], Political Science [214], Psychology [215]

Graduate College Policy and Procedures on Grievances by Graduate Students

I. OVERVIEW

- A. **Purpose.** All members of the University community are expected to observe high standards of professional conduct and ethical behavior in graduate education. In a large and heterogeneous scholarly community, problems may emerge among students, faculty and administrators. The purpose of this policy document is to outline the process through which graduate students can constructively address concerns about the decisions or behaviors of faculty or administrators that the students believes have adversely affected their status as a graduate student.

- B. **Availability.** The policy outlined in this document is available to all current graduate students of the Graduate College. It is also available to former graduate students provided they meet the timeliness requirements specified herein.
- C. **Applicability.** This policy applies when a graduate student believes that an incorrect or inappropriate decision or behavior of a faculty member or administrator has adversely affected the student's status. Examples include, but are not limited to:
- Failure to follow a departmental or Graduate College policy in a manner that results in significant prejudice against the student;
 - Failure to follow departmental or Graduate College procedures for assessing degree milestones such as qualifying examinations, comprehensive examinations, preliminary examinations, recitals, etc.;
 - Improper termination from a program;
 - Requiring personal services unrelated to academic duties;
 - Retaliation for exercising grievance rights.

This policy does not apply in cases involving:

- Challenges to Graduate College Petition decisions;
- The exercise of professional judgment in evaluating student academic performance/progress;
- Student-to-student conflicts (see www.conflictresolution.illinois.edu ^[216]);
- Academic misconduct such as breaches of academic integrity in research and publication (see research.illinois.edu/ai/index.asp ^[20]);
- Employment specific issues, including those covered by collective bargaining agreements (i.e. teaching assistantships and administrative graduate assistantships) (see www.ahr.illinois.edu/employees/ler.html ^[217]);
- Cases that arise under the *Student Code*, including academic integrity or capricious grading claims (see admin.illinois.edu/policy/code/ ^[19]);
- Cases involving alleged discrimination or sexual harassment (see www.fs.uiuc.edu/cam/cam/ix/ix-b/ix-b-3.html ^[218]).

- D. **Non-exclusivity.** This policy does not override or supersede any other policies or procedures as established in the University Statutes and campus policies.

- E. **Duty to Cooperate.** Students availing themselves of the grievance process, and all faculty, staff, and administrators have a duty to cooperate and provide information and materials relevant to the investigation of a grievance. It shall at all times be the responsibility of the Parties to ensure that the Graduate College has accurate contact information to facilitate communications as described in these procedures.

II. DEFINITIONS

- A. **Business Day** - Means Monday through Friday, excluding University and campus holidays and reduced service days.

- B. **Conflict of Interest** - A conflict of interest is a significant professional or personal involvement with the facts or the Parties to a dispute. Any party or administrator who has a conflict of interest in a dispute under this policy or a concern about a conflict on the part of another shall promptly report it to the Intake Dean. The Intake Dean shall refer the matter to the Dean, who shall decide how to address any conflict of interest, unless the conflict lies with the Dean, in which case, the alleged conflict will be referred to the Office of the Provost for resolution.

- C. **Consultant** - A person intended to provide advice to a Grievant or the Subject of a grievance. The Consultant shall not directly participate in any proceedings, but may be consulted during the process. If any party's consultant at any meeting is an attorney, all participants must be informed at least three (3) business days prior to such a meeting.

- D. **Dean** - The Dean of the Graduate College at Urbana-Champaign or his/her designee. The Dean has responsibility for graduate programs and related policies and procedures. The Dean is the final arbiter of disputes under this policy. In the event a grievance is filed against the Dean, these responsibilities shall be referred to the Office of the Provost for handling and any appeals will be to the Chancellor or his/her designee.

- E. **Grievant** - The student in the Graduate College who has filed a grievance pursuant to this policy.

- F. **Intake Dean (ID)** – A person who has been identified by the Dean to handle a particular dispute; usually an assistant or associate dean in the Graduate College. The Intake Dean will, as appropriate, facilitate informal discussions and/or mediation of disputes, receive information and facilitate discussions and/or mediation after a grievance has been filed at the administrative action stage, prepare a written report of the efforts to resolve the matter and provide this and other relevant background information as needed to the Review Dean, if different from the Intake Dean.

- G. **Parties** - Refers to the Grievant and all Subjects named in a grievance collectively.

- H. **Review Dean (RD)** – A person who the Dean may identify to oversee the formal review process – usually an assistant or associate dean in the Graduate College; may be the same person as the Intake Dean. The Review Dean is responsible for providing administrative support for the Review Panel, maintaining documentation, and keeping the Parties informed as to the status of a grievance.

- I. **Subject(s)** - The person or persons named in the grievance. If a grievance generally references a department or unit, the Subject shall be the Director or Head of the department or Unit.

III. ALTERNATIVE AVENUES FOR RESOLUTION

- A. **General Campus Resources.** University policy strongly encourages all students who believe they have a dispute or conflict to use all appropriate avenues for informal resolution before initiating the Graduate College grievance process described herein. Students may seek advice about how to address their situation informally from their faculty advisers, their director of graduate studies, their unit executive officer, the Graduate College (see IV.A. below), the Office of the Dean

of Students, and the Office of International Student Affairs before pursuing a formal Graduate College grievance.

B. Departmental Grievance. A student may elect to pursue a grievance with the student's department/unit, if the department has a written grievance policy which has been approved by the Dean of the Graduate College [219].

1. **Appeal.** A party dissatisfied with the outcome of a department/unit grievance finding may appeal the decision on procedural grounds to the Graduate College. An appeal must be filed in writing with an Intake Dean within **ten (10) business days** of the date of the departmental decision being appealed (see IV.B.1.b below).

2. **Reporting.** The department/unit shall annually report to the Graduate College Dean the number of grievances filed under the departmental procedures.

IV. PROCEDURES FOR PURSUING A GRADUATE COLLEGE GRIEVANCE

A. Informal Resolution. A graduate student wishing to initiate the Graduate College grievance process must start with an Intake Dean. The student will meet with an Intake Dean who will review the matter and materials and attempt to assist the student in resolving the issue at the informal level through discussion or mediation. This process must be initiated within **sixty (60) business days** of the decision or behavior resulting in the grievance. The Intake Dean may attempt to mediate a resolution for matters that do not meet the deadline, but such matters will not be submitted for a formal review under IV.C.

B. Administrative Action.

1. **Written Grievance.** A student may file a written grievance:
a. if an informal resolution is unsuccessful, provided the written grievance is filed within **ten (10) business days** of the date the Intake Dean advises the Grievant and the Subject that no further efforts will be made at the informal stage; or

- b. to appeal a departmental grievance decision, provided the written grievance is filed within **ten (10) business days** of the date of the departmental grievance decision being appealed.
2. Content and Submission of Grievance. The written grievance should include at least the following:
 - a. a statement by the student summarizing the concern(s)
 - b. the name(s) of the University faculty, staff or administrators involved
 - c. the date(s) of the alleged incident(s)
 - d. a statement concerning what outcome or action the student would like to see result from the grievance

The grievance should be delivered to the Graduate College Dean.

- C.
 1. Handling. Once a written grievance has been submitted and reviewed, the Intake Dean will contact the student to arrange a meeting to discuss it. The Intake Dean will review the written grievance and supporting documentation provided by the Grievant and may conduct further inquiries and/or solicit additional information as warranted. The Intake Dean may also facilitate additional discussions between the Parties to try to resolve the matter at the administrative level.
 2. Outcomes.
 - a. Agreed Disposition. If the Intake Dean is successful in resolving the matter by agreement, the Intake Dean shall prepare a report which includes: 1) the grievance(s), 2) the response(s), 3) the finding(s), and 4) the resolution.
 - b. Unresolved Grievance. If the Intake Dean is unsuccessful in resolving the matter by agreement, the Intake Dean shall prepare a report which includes: 1) the grievance(s), 2) the response(s), 3) the findings, and 4) what efforts were taken or proposed to resolve the matter administratively.
 - c. Report Distribution. The reports referenced under A & B will be submitted to the Dean with copies to the Grievant and the Subject(s) of the Grievance.

3. Request for Formal Review. The Grievant or the Subject(s) may request a formal review of unresolved grievances by submitting the Request within **ten (10) business days** from the date of the Intake Dean's Report to the Dean.

D. Formal Review of Unresolved Grievances.

1. Acceptance of Grievance by Dean. Upon receipt of a request for formal review, the Dean will review the request along with the Intake Dean's Report of Administrative Action and other relevant materials to consider whether any issues merit further investigation and review. If the grievance is declined, the Dean will notify the person seeking review in writing and explain the decision. The Dean's decision is final.

2. Appointment of Review Panel. If the Grievance is accepted, the Dean shall appoint a panel of five (5) people to investigate the matter and provide recommendations. The Panel shall consist of:
1) one member of the Graduate College Executive Committee; 2) one faculty member from the unit in which the matter originated; 3) one faculty member at large; and 4) two active graduate students at large. The faculty member at large will chair the Panel.

3. Written Charge.
 - a. In General. The Dean shall define the subject matter of the review in a written charge. The charge may, but need not address every allegation contained in the request for Formal Review. The charge may also include additional matters that, in the opinion of the Dean, warrant investigation. The charge shall be provided to the Panel, Review Dean (who may or may not be the same person as the Intake Dean), and the Parties to the Grievance.

 - b. Content. The written charge shall also include:
 - i. The identities of the Panel members and a statement that either party may challenge a Panel member on the grounds of a Conflict of Interest within **five (5) business days** of receipt of the Written Charge;

- ii. A statement that both parties may submit any additional materials relevant to the Written Charge that they want considered by the Panel within **ten (10) business days** of receipt of the Written Charge; and
 - iii. A statement that a Party must make a written request for a meeting with the Panel within **ten (10) business days** of receipt of the Written Charge if such a meeting is desired, and that the Panel will decide if a meeting is warranted.
 - c. Conflict of Interest. If the Dean believes a legitimate Conflict of Interest exists, the Dean will replace the Panel member as appropriate.
- 4. Preliminary Review Panel Session(s). After the time granted to the Parties to provide additional materials, the Review Dean shall convene the Panel Members to:
 - a. Review the process, discuss the Written Charge and review the materials received during the Administrative Action and pursuant to IV.C.3;
 - b. Review any requests for a meeting and decide if a meeting would be helpful in making findings and recommendations regarding the Written Charge;
 - c. Provide direction on whether it wants the Review Dean to seek any additional information relevant to the Written Charge from any of the parties or other sources; and
 - d. Confirm that the Review Dean has provided copies of written materials received by the Panel to all Parties to the Grievance.
- 5. Meeting Notice. If the Panel concludes a meeting is necessary, the Review Dean shall send notice of a meeting no fewer than **five (5) business days** prior to the meeting. The notice must

include the date, place and time of the meeting and a statement that each party may have a Consultant present at the meeting. Continuances may be granted by the Panel Chair with good cause shown.

6. Meeting Attendance. Attendance is restricted to the Grievant, Subject(s) and their respective Consultants, Panel members, the Review Dean, and if necessary, a representative from the Office of University Legal Counsel. If oral statements from witnesses will be received, the witness may be present only while making the statement or responding to questions. Both Parties shall be permitted to be present throughout the meeting but are not required to attend. Any person, including a Party, who disrupts a meeting or who fails to adhere to the directives of the Chair may be removed from the meeting.

7. Meeting Purpose and Structure. The purpose of a meeting under this policy is to allow the Panel to hear directly from the Grievant, Subject(s), and witnesses in order to better attempt to resolve the dispute. While there may be adversarial components, the meeting is not intended to be a trial. Formal rules of evidence shall not apply. All Parties shall treat each other with dignity and respect. Parties may each make a brief opening statement, and then respond to questions from the Panel. The Parties may suggest questions to be asked of each other. The Chair shall decide whether or not to pose the questions. If witnesses will be called, each Party may ask questions directly of his/her witness, but it will be in the Chair's discretion whether or not questions to another's party's witnesses will be through the Chair or directly by the Party. The confidentiality of all information shall be preserved.

8. Deliberations. The deliberations of the Panel are confidential. All Parties shall be excluded during the Panel's deliberations. The conclusions and recommendations of the Panel must be agreed to by a simple majority of the Panel hearing the matter. The conclusions and recommendations of the Panel must be based on a preponderance of the evidence (more probably true than not true).

9. Panel Report. The Panel shall submit a written report to the Dean as soon as practical that includes at least the following:
 - a. a copy of the Written Charge from the Dean;
 - b. a statement of the relief sought by the Grievant;
 - c. the response of the Subjects;
 - d. general description of the investigative process;
 - e. a citation of relevant policies;
 - f. findings of fact that support the Panel's conclusions;
 - g. a recommendation of appropriate redress for the Grievant(s), if applicable; and
 - h. any recommended changes in policies and procedures to minimize the probability of recurrence, if applicable

10. Opportunity to Comment. Copies of the Report shall be provided to the Parties. A party may submit written comments to the Dean of the Graduate College concerning the Report to the Dean within **five (5) business** days of receipt of the Report.

11. Action and Disposition of the Grievance; Disclosures. As soon as practical following the receipt of the Report and all written comments concerning the Report, the Dean shall determine what disposition to make of the case.
 - a. If the Dean concludes that the grievance has not been proved, the grievance will be deemed not sustained and dismissed.

 - b. If the Dean concludes that the grievance has been sustained, the Dean will proceed in accordance with the University Statutes and relevant University rules and regulations. The Dean may prescribe redress for the grievant, recommend modification of policies, or recommend changes in the procedures for implementation of such policies, as appropriate.

 - c. If the Dean concludes that these procedures have not been followed, or the interests of fairness or thoroughness require further investigation, the Dean may direct the Panel to revisit any relevant issues and submit a revised

Report within a certain time frame. The Dean shall identify the specific errors or concerns and provide direction to the Panel as to appropriate corrective measures. The Panel will only address the issues raised by the Dean and submit a supplemental report to the Dean for consideration.

The Final Disposition shall be provided to the Parties in writing. The Dean's disposition is final unless appealed as provided for herein. The Dean may authorize the release of a copy of the Disposition on a need to know basis with due regard for privacy rights of employees and students under federal and state law and University policy (see also, V.F).

12. Appeal. A party may file an appeal to the Urbana-Champaign Provost within **ten (10) business days** from the date of the Dean's Written Disposition. The sole grounds for appeal are material violations of these procedures that have resulted in significant prejudice against the Party appealing. The appeal must be in writing and must specify the nature of the procedural error. The Provost's decision on appeal shall be final.

V. GENERAL PROVISIONS

- A. **Record Keeping; Reporting.** After completion of a grievance review and exhaustion of available appeals, the Review Dean shall return any original documents and materials to the persons who furnished them. The College grievance file is subject to destruction on a date six (6) years beyond the grievant's time limit for completion of the degree. Departments/units that handle department level grievances shall annually report to the Dean of the Graduate College the number of grievances filed under the departmental procedures.

- B. **Interim Action.** At any time after a grievance has been filed and before final disposition of the case, the Dean, with the approval of the Provost, may take interim administrative action determined to best serve the interest of the Grievant, other students in the same academic unit or the Subject, to protect the best interest of the University, to preserve evidence, or to protect resources.

- C. **Consultation with Legal Counsel.** The Graduate College may consult the Office University Legal Counsel at any time during the informal or formal processing of a grievance.
- D. **Timeliness and Procedural Changes.** All actions prescribed in this document should be conducted expeditiously. Every effort should be made to resolve a grievance within one year of the beginning of Administrative Action. Extensions of time periods specified in this document may be granted by the Intake Dean, Panel Chair, or Dean as the case may be, with good cause shown. The Dean may make other reasonable alterations of the procedures set forth in this document, provided that the alteration does not impair the ability of a Grievant to pursue a grievance or the Subjects to respond. Any alterations of these procedures must be communicated to the Parties.
- E. **Failure to Participate, Withdrawal, Termination.** The grievance may proceed regardless of the failure of the Grievant or Subject(s) to participate, so long as all required notices have been given. The Grievant may submit a written request to withdraw the grievance at any time; however, the Dean shall have the sole discretion to decide whether to grant or deny the request. Withdrawal from the University by the Grievant or termination of employment by the Subject at the University shall not necessarily terminate the proceedings.
- F. **Confidentiality.** All persons involved in administering this policy shall exercise diligent efforts to keep information received or learned during the course of a grievance as confidential. Nothing in these provisions alters privacy rights of employees and students provided in federal and state laws and University policies and procedures. Notwithstanding the foregoing, in the event the Dean concludes that a student has knowingly filed a false grievance, the Dean may authorize the release and use of all materials submitted in this process for use in any disciplinary proceedings.

Approved March 28, 2011

E. Academic Integrity

Course work-based charges of academic integrity infractions against graduate students will be handled according to applicable procedures in the Student Code [220].

Charges of academic integrity infractions against graduate students that involve research and/or publication will follow procedures contained within the Bylaws of the Graduate College [4] and the University of Illinois Policy and Procedures on Academic Integrity in Research and Publication [221].

F. Discrimination

The Student Code [27] contains information for specific procedures for student grievances alleging discrimination, see the non-discrimination policies in Article 1, Part 1 [222].

G. Capricious Grading

Information on capricious grading and the departmental procedures for investigating capricious grading complaints can be found in the Student Code, section 3-107 [223].

H. University Discipline System

Jurisdiction of the University discipline system is outlined in section 1-301 of the Student Code [224]. The Subcommittee on Graduate Student Conduct of the Senate Committee on Student Discipline has the right to impose sanctions including, but not limited to dismissal, suspension, conduct probation, censure, and reprimand. More detailed information concerning the operation of the procedures in the Student Code [27] may be obtained from the Office for Student Conflict Resolution [216] at 333-3680.

I. Employment Conflict

When a serious conflict between an assistant and a supervisor occurs, reasonable attempts should be made to resolve the conflict informally. If there is a conflict between a supervisor and an assistant that cannot be resolved by informal means, the most practical solution may be to reassign the student to new responsibilities. If reassignment is not feasible or does not appear to be warranted, the assistantship appointment may be terminated by following the procedures given below. The assistant may also choose to resign the appointment by submitting a letter of resignation, (see chapter IV.A.7 [165].)

Most conflicts between a supervisor and a student can be prevented if the student is given a clear description of responsibilities and expectation for performance and if the student receives regular supervision and evaluation. If conflicts surface, however, the Graduate College encourages and supports concerted informal efforts toward resolution within the department, beginning at the supervisor-student level. For procedures to provide guidelines for resolving and mediating conflicts informally, see [Effective Problem Solving](#) [225].

Additional resources for students experiencing employment related conflict include the following:

- the [Policy and Procedures for Addressing Discrimination and Harassment at the University of Illinois at Urbana-Champaign](#) [226],
- the [Agreement](#) [176] (PDF) by and between The Board of Trustees of the University of Illinois and the Graduate Employees' Organization (GEO) (for graduate assistants that are covered); with respect to any complaint alleging a violation of the [Agreement](#) [181] (PDF), and
- the [Academic Human Resources](#) [189] Office.

Part 2 - Program Administration Policies

Part 2 - Program Administration Policies

This section of The Graduate College Handbook of Policy and Requirements for Students, Faculty and Staff contains the administrative policy for program, units and staff. Unlike the student section of the Handbook this section may be updated at any time during the year, and becomes effective immediately, unless otherwise noted. This section will be archived annually, but faculty and staff should always use the current version when seeking administrative policy.

Chapter 1: Bylaws

A. The Graduate College

As amended February 23, 2007

1. Name and Object:

- a. The name of the assembly shall be the **Faculty** of the Graduate College of the University of Illinois at Urbana-Champaign.

b. The Graduate College is the administrative home of students admitted to graduate studies at the University of Illinois at Urbana-Champaign. The Graduate College shall have jurisdiction of all approved programs leading to graduate degrees. It is the responsibility of the Graduate College to develop and safeguard standards of graduate work and to promote and assist in the advancement of scholarly activities in all fields.

c. The Graduate College shall be governed by the *University of Illinois Statutes* and by the provisions of the *Bylaws*.

2. Faculty:

a. The Faculty of the Graduate College consists of the President, the Chancellor, the Provost, the Dean, and all those who, on the recommendation of the departments or other teaching or research divisions, have been approved by the Executive Committee and the Dean of the Graduate College to assume appropriate academic responsibility in programs leading to graduate degrees.

Normally, members of the Graduate Faculty will hold rank as assistant professor, associate professor, or professor. Exceptions will be considered on a case-by-case basis by the Executive Committee.

b. Associate and Assistant Deans of the Graduate College with rank or title of Professor, Associate Professor, Assistant Professor, or Instructor who are tenured or receiving probationary credit toward tenure shall be members of the Graduate Faculty.

c. All members of the Graduate Faculty, as defined in 2.a. and 2.b., shall be entitled to participate in meetings of the Faculty and to vote.

d. Administrative staff bearing the title of Assistant Dean and Associate Dean who are not included within the definition of members of the Faculty in 2.a. and 2.b. above shall be accorded voice at Faculty meetings but do not have voting rights.

e. Among the powers and duties of the Faculty are:

i. To establish rules for the conduct of its business.

ii. To establish policies for the governance of the College in its internal administration.

iii. To establish the academic policies of the College.

iv. adjunct status

3. Meetings:

a. Regular Meetings. There shall be at least one regular meeting of the Faculty each academic year.

i. The dean shall be the presiding officer. In the dean's absence, the designee of the dean shall preside.

ii. Call and Notice.

- A regular meeting shall be called by the dean, the date to be fixed by the dean and announced at least thirty days prior to the scheduled date.
- iv. The faculty shall be furnished with a written notice and the agenda of the meeting at least five calendar days prior to the meeting.

iii. Agenda

- Items may be placed on the agenda by the dean; by the Executive Committee; or by faculty petition signed by five members of the faculty provided that such item(s) shall be submitted to the dean at least twenty calendar days before the scheduled date of the meeting, and that the dean, in consultation with the Executive Committee, shall consider and may schedule inclusions of such items(s) on the agenda or may refer such item(s) to (an) appropriate committee(s).
- At regular meetings the quorum shall consist of those members present.

b. Special Meetings. Special meetings may be called by the dean, by the Executive Committee, or by petition of thirty members of the Graduate Faculty. The meeting must take place within twenty-one days of the date of the call. A quorum shall consist of those members present.

i. The business of a special meeting shall be limited to items on the agenda. The only substantive main motion in order would be one to poll the Faculty by mail ballot.

ii. A poll by mail ballot shall include a statement of the pros and cons of the matter at issue as approved by the Executive Committee. No action is official until it has been approved by mail ballot. The results of the mail ballot will be advisory to the dean and the Executive Committee in those matters specifically reserved to the dean and to the Executive Committee in the University *Statutes* (See Article IV, Sec. 3 and Article V). In such other matters as

amendment of the *Bylaws* and approval of curricula, results of the poll shall be binding for the College.

c. Rules. The current edition of *Robert's Rules of Order* shall govern all Faculty meetings.

4. The Dean:

a. The chief executive officer of the College is the Dean of the Graduate College.

b. The dean shall be appointed annually as specified in Article III, Sec. 3b of the *Statutes* upon the advice of the Graduate College Executive Committee. The Executive Committee shall appoint a subcommittee from among its members, individuals knowledgeable of the dean's performance to develop recommendations. The recommendations shall be presented to the Executive Committee for action. The advice of the Executive Committee shall indicate whether the dean should be re-appointed, may make suggestions for improved performance, and may indicate if any early performance evaluation should be scheduled.

The dean should prepare for the subcommittee a short self-evaluation addressing goals, accomplishments, directions, problems, and any other matters that the dean may deem relevant.

c. The dean shall be given a performance evaluation no later than the fifth year of service. Subsequent evaluations should occur at least once every five years as the *Statutes* specify. The members of the Dean Evaluation Committee (DEC) shall be selected by the Graduate College Executive Committee, meeting in the absence of the dean. The DEC shall include at least six members of the Graduate Faculty and representatives of a diversity of disciplines from among the several academic colleges. It shall include at least two graduate students and may include professional staff. Others may be added to represent the various segments of the college, but a majority of the members must be faculty. The Provost, in consultation with the Executive Committee, shall designate a full professor who is not a member of the Graduate College Executive Committee to serve as chair and shall charge the committee.

The dean should prepare for the DEC and the Provost a short self-evaluation addressing Graduate College goals, accomplishments, directions, problems, and any other matters that the dean may deem relevant.

The DEC should appropriately solicit the views of academic deans, unit executive officers, faculty, staff, and graduate students with respect to

the dean's performance. It should ensure that respondents have the opportunity to communicate their views with the assurance of confidentiality, and it should consult the Provost's office concerning procedures for assuring confidentiality under current law.

The dean should be given the opportunity to meet with the DEC both early in the evaluation process (for preliminary discussion) and toward its conclusion (to allow for discussion of any areas of concern that may have emerged.)

The DEC should report in writing both to the Provost, and to the Graduate College Executive Committee, at whatever length and in whatever detail it may deem appropriate, and should discuss its report with the Provost. The advice of the DEC shall indicate whether the dean should be re-appointed and may make suggestions for improved performance. The Provost should convey to the dean a written summary of the evaluation, prepared by the DEC for that purpose, and the Provost's conclusions. The Provost should also inform the Executive Committee of the outcome of the evaluation.

d. The dean shall perform those functions appropriate to the Graduate College required by Article III, Sec. 3b and Article V of the *Statutes* and shall additionally:

- i. Represent the Graduate College to other campus and University authorities and to public and private agencies.
- ii. Appoint such standing and *ad hoc* committees as are deemed necessary for the functioning of the College and for the furtherance of the missions of the campus.
- iii. Recommend to the Chancellor the appointment and annual reappointment of associate or assistant deans of the Graduate College as required.

5. Standing Committees:

a. Executive Committee.

- i. As the advisory committee to the dean, the Executive Committee acts for the Faculty of the College.
- ii. The Executive Committee shall consist of fifteen members: eight elected members, four of whom shall be elected annually for two-year terms by the Faculty of the Graduate College; six members, three of whom shall be appointed each year for two-year terms by

the Chancellor on the recommendation of the Dean of the Graduate College in consultation with the members elected that year; and the Dean of the Graduate College, who is *ex officio* a member and chairs the Committee.

iii. When the Executive Committee meets to prepare or give advice to the Chancellor and President on the appointment of the dean or to review the dean's performance, the dean shall not be a member, and the Committee shall be chaired by the senior faculty member (in terms of service at the University) on the Executive Committee.

iv. The duties of the Executive Committee shall include those prescribed by the *Statutes* and shall include advising the dean on proposals for new and revised graduate degree programs.

v. At meetings of the Executive Committee, a quorum shall consist of a majority of the members.

b. The dean shall establish such other standing committees as may be required by the *Statutes*, by state and federal law, or as are deemed necessary for the functioning of the College and for the furtherance of the missions of the campus.

6. Academic Integrity:

a. Policy and Procedures. All charges of academic integrity infractions that do not involve organized research activities will be dealt with as prescribed in the *Code of Policies and Regulations Applying to All Students*. All charges of academic integrity infractions with respect to organized research activities against students in the Graduate College will be dealt with as prescribed in the *University of Illinois Policy and Procedures on Academic Integrity in Research and Publication*, except as provided below.

b. Committee Composition. The Dean of the Graduate College will appoint as a member of the inquiry team and the investigation panel a graduate student who has no conflict of interest, is unbiased, and who has appropriate qualifications to judge the issues raised. No student will serve on both the inquiry team and the investigation panel concerning the same case.

c. Action by the Chancellor. The following procedures modify provision IV.F.4 of the *Policy and Procedures on Academic Integrity in Research and Publication*:

i. The Chancellor, after consultation with the Dean of the Graduate College, the dean of the student's academic college, the Vice Chancellor for Research, and the Vice Chancellor for Academic Affairs, shall determine what disposition to make of the case. The determination shall be communicated to the Respondent promptly.

ii. If the determination is that the allegations have not been proven, the case will be disposed of as provided in section IV.D.5 and IV.F.4 of the *Policy and Procedures on Academic Integrity in Research and Publication*.

iii. If the Chancellor concurs with the investigation panel's conclusion that academic misconduct has been proven and determines that a sanction should be imposed, the Chancellor will determine the appropriate sanction, which can include, but is not limited to, a written reprimand or warning, suspension, or dismissal. The Chancellor may prescribe corrective action responsive to the alleged misconduct and take other appropriate action. The Research Standards Officer shall notify the Dean of the Graduate College and the dean of the student's academic college of sanctions imposed and/or other actions taken.

iv. If suspension or dismissal is recommended, the Chancellor will transmit a copy of the investigation panel report, with a written recommendation for suspension or dismissal, to the Senate Committee on Student Discipline. The decision of the investigation panel on the fact of the breach of integrity is final. The sole question before the Senate Committee on Student Discipline is whether the breach of integrity in question is of such a nature as to warrant suspension or dismissal from the University.

v. If the Senate Committee on Student Discipline determines that the breach of integrity in question does not warrant suspension or dismissal, then the Chancellor will consult with the Dean of the Graduate College and the dean of the student's academic college to determine and impose an appropriate sanction.

7. Grievance Policy:

Grievance procedures for students enrolled in the Graduate College are governed by the Graduate College's "[Policy and Procedures on Grievances by Graduate Students](#) [227]," which are available on the Graduate College Web site.

8. Special Units of the Graduate College:

Special units of the Graduate College may be created, transferred or abolished, in accordance with the process as specified in Article V, Sec. 3 of the *Statutes*. Such units report to the Dean of the Graduate College who may appoint such advisory committees as are needed.

9. Amendments:

Amendments to these *Bylaws* may be proposed by the dean, by the Executive Committee, or by petition of thirty members of the Faculty.

- a. Proposed amendments to these *Bylaws* shall serve automatically as a call for a special meeting of the Faculty. The meeting must take place within twenty-one days of receipt of the proposed amendments.
- b. The Faculty shall be furnished with written notice of the meeting and copy of the proposed amendments at least five calendar days prior to the meeting.
- c. The business of a special meeting called to consider proposed amendments shall be limited to discussion of the amendments. The only substantive main motion in order would be one to poll the Faculty by mail ballot.
- d. Approval of proposed amendments shall be by mail ballot. Approval shall require a positive vote of two-thirds of those voting.

B. Committee on Extended Education and External Degrees (CEEED)

Approved September 14, 2009

1. These Bylaws derive their authority from the Bylaws of the Graduate College which state that the dean shall establish such other standing committees as are deemed necessary for the functioning of the College and for the furtherance of the missions of the campus.
2. The CEEED is responsible for ensuring the quality of all graduate credit-bearing programs offered to students off campus, including programs delivered through electronic distance learning technologies.
 - a. To accomplish this, the CEEED reviews and approves proposals for existing programs that will be delivered to off-campus students.

justification for the late admission.

C. Graduate Student Application for Admission Fee

Approved September 1, 1988; Revised May 13, 2008

An applicant for graduate admission who wishes to change the desired term of entry either before or after receiving a Notice of Admission must contact the admitting department to request the change. If the applicant is requesting to defer the entry term for more than one year, a second application fee will be required by the Graduate College.

Questions concerning this policy statement should be directed to the

Graduate and Professional Admissions unit, (217) 244-4637 .

Chapter III: Cost-of-Education Policy

The Council of Deans approved a formal cost-of-education allowance policy for graduate fellowships on June 6, 2001; Effective July 1, 2001

External agencies providing fellowship or traineeship support are required to pay the University for the fellow or trainee's full tuition or pay a negotiated institutional allowance in lieu of full payment. The Graduate College negotiates the institutional payment with the sponsor.

Any cost-of-education allowance or institutional payment negotiated in lieu of full payment of tuition and fees provided to the University by an external sponsor shall accrue to the Graduate College. In exchange for the negotiated payment, the University provides the fellow or trainee with full coverage of tuition and all mandatory fees if there are no stipulations to the contrary.

Any exceptions to this policy must be granted by the Dean of the Graduate College. Questions about the policy may be directed to the Graduate College Fellowship Office at gradfellowships@illinois.edu ^[144] or 333-0036.

[Grants and Sponsored Projects](#) ^[228]

Chapter IV. Graduate Student Annual Academic Progress Reviews

Approved April 2011; Effective academic year 2012-13

Units must hold annual academic progress reviews for all graduate students.

A. Policy

Campus policy stipulates that graduate units must conduct annual academic progress reviews for all graduate students enrolled in degree-seeking programs at least once every academic year. A written copy of the review must be given to the student and be placed in the student's academic file.

Ideally, academic progress reviews should include the following elements:

1. A student self-report and assessment of academic progress
2. A review prepared by the adviser and at least one other faculty member to focus on an assessment of degree progress and student strengths and weaknesses. A copy of this written review is given to the student.
3. An opportunity for the student to discuss this review in person.

B. Timeline

During academic year 2011-12, units will need to determine practices, approve them, and insert them into their departmental handbooks. Units will need to refine timing and mechanisms for implementation of reviews. The Graduate College will continue to offer training and advice to units related to how annual academic progress review might work best for their particular programs. These resources are available at www.grad.illinois.edu/annualreview [229]. The Graduate College will develop mechanisms for units to [report compliance](#) [230].

Chapter V. Graduate Faculty Membership

A. Policy

The Graduate College of the University of Illinois at Urbana-Champaign has jurisdiction over all programs leading to graduate degrees.

As defined in the *University Statutes*, Article V, Section 1c, "The faculty of the Graduate College consists of the President, the Chancellor, the Vice Chancellor for Academic Affairs or equivalent officer, the Dean, and all those who on the recommendation of the department or of other teaching or research divisions have been approved by the Executive Committee and the Dean of the Graduate College to assume appropriate academic responsibilities in programs leading to

graduate degrees. Other administrative staff are members of the faculty of the Graduate College only if they also hold faculty appointments and have been recommended and approved as provided above."

These responsibilities include (1) establishing and maintaining high quality graduate education and research programs within the academic units of the University, (2) developing and teaching of graduate level courses and curricula, (3) advising graduate students, (4) serving on doctoral examination committees as a member, director of research, or chair, (5) electing members of the Graduate College Executive Committee, (6) serving on Graduate College committees, and (7) providing advice to the Dean and the Executive Committee. The Graduate College recognizes that the standards of academic excellence must remain at the highest level consistent with individual unit standards. Standards shall be maintained without discriminating against a faculty member on unlawful grounds and without limiting the University of Illinois' guarantee of academic freedom and equal opportunity.

1. General Criteria for Membership in the Graduate College Faculty

To carry out the statutory charge to the Graduate College "to develop and safeguard standards of graduate work and to promote and assist in the advancement of research in all fields" (*University Statutes*, Article V, Section 1a), the Dean, with the advice of the Executive Committee, establishes standards for membership in the Graduate College, monitors their implementation, and retains responsibility for appointments to the Graduate Faculty. These standards assume that (1) faculty members appointed to units offering programs leading to graduate degrees meet the highest standards of the discipline for graduate teaching and research or for creative activity; (2) those faculty members are given freedom, opportunity, and guidance to become involved in graduate education, and to participate to the fullest extent of their interests and capabilities in the affairs of the Graduate College; and (3) the executive officer of the unit is committed to consistent high quality achievements of the faculty, accomplished through their active participation in the unit's graduate programs.

2. Appointment Criteria and Procedures

- a. Each faculty member of a graduate degree granting college or school shall be recommended automatically for membership in the Faculty of the Graduate College and shall be appointed by the Dean at the time of appointment or promotion to a tenure-track or tenured position.
- b. Others may be nominated by the unit executive officer ^[231] for term membership on the Graduate Faculty if the qualifications of the nominee as judged by the Executive Committee and the Dean are comparable to those required for appointment to a

tenure-track position in a graduate degree granting unit. The initial term may be at most five years.

- c. Members of the Graduate Faculty who have retired or resigned may be retained on the Graduate Faculty for up to five years, upon request by the unit executive officer or other authorized individual. The Graduate College recommends but does not require that these faculty members have adjunct or emeriti/ae appointments.
- d. Members of the Graduate Faculty whose terms have ended may be renewed for up to five years, upon request by the unit executive officer or other authorized individual.
- e. Members of the Graduate Faculty who retired or resigned with tenure may retain Graduate Faculty membership and **tenure status only for the purpose of serving on doctoral committees**, for a period of up to five years following their resignation or retirement, at the request of the unit executive officer or other authorized individual. That period may be extended at the request of the unit executive officer, so long as the faculty member remains actively involved in the graduate program.

3. Termination Policies

- a. A Graduate Faculty member may resign from the Graduate Faculty voluntarily by submitting a letter of resignation to the Dean of the Graduate College.
- b. A faculty member who resigns or retires from the University is automatically terminated from membership in the Graduate Faculty unless the unit asks that the faculty member continue for a specified period of time.
- c. A unit may request the Graduate College to have a member removed from the Graduate Faculty if the member has been grossly neglectful of or grossly inefficient in the performance of responsibilities as a Graduate Faculty member (as listed in the introduction to this policy). The written request for removal must be made by the unit executive officer to the Dean of the Graduate College and must state reasons for the requested termination. The faculty member under consideration for removal may provide a written statement requesting continued membership.

The unit's request and the faculty statement, if submitted, will be considered by the Graduate College Executive Committee, which shall make a recommendation to the Dean of the Graduate College. The Dean shall make the decision on removal, which may be appealed to the Provost and Vice Chancellor for Academic Affairs.

B. Current Graduate Faculty Member Listing ^[232]

Adopted October 24, 1999; Revised February 12, 2009

Chapter VI. Policy for Proposed New and Revised Courses that Carry Graduate Credit

As one mechanism for fulfilling the statutory function of the Graduate College to "develop and safeguard standards of graduate work," the Dean of the Graduate College and the Executive Committee review all proposed new courses and revisions of courses that carry graduate credit. Detailed review of proposals is handled in one of two ways, which are outlined in Section C.2. and Section C.3 of this document.

Criteria by which proposals for graduate courses are judged and procedures by which they are reviewed are described below. Faculty members are encouraged to consult with Graduate College deans to get advice in preparing course proposals. The checklist of criteria is minimal, and is not intended to be exhaustive. The diversity of programs and the wide variety of courses necessitate, in many cases, judgments based in part on the standards of an individual discipline and are usually made by faculty in that discipline. There is no intent to eliminate judgment by reducing the criteria to an inflexible set of rules. However, proposers are encouraged to offer specific explanations whenever their proposals deviate from the general criteria. Assistance for proposing and revising courses is available ^[233].

A. Criteria

1. Course content should be intellectually challenging to graduate students.
2. Course subject matter should have a strong emphasis on the literature of the discipline(s) and/or should draw actively from the latest relevant research and scholarly activity.
3. A course for graduate credit should usually build on knowledge previously gained or, unusually, on equivalent experience. Admission criteria should be carefully specified as to background required (e.g., prior study, courses completed, level of creative accomplishment). The prerequisites will also be evaluated as to appropriateness to the content

and rigor of each course.

4. A graduate course must bear a logical relationship to the total offerings of a department or to other courses in an area of specialization within the discipline.
5. Course content should not needlessly duplicate or overlap substantially that of other courses in the department or in other departments. A single cross-listed course may meet the needs of students in several departments. If the course overlaps significantly with a course in another department, it might still be offered independently; however a supporting letter, explaining how the courses differ in purpose and content must be attached. A single cross-listed course may meet the needs of students in several departments, wherein the interdisciplinary review of the subject may benefit both the students and the instructors. Other factors will be considered, such as level of the course, background of the students, and the emphasis of the course in evaluating duplication and overlap of course content.
6. The graduate credit offered should be appropriate to the nature of the course and to the extent of work required of graduate students and how it will be factored into the final grade.

B. Graduate Course Credit and Contact Hour Expectations*

1. Credit
 - a. Course proposals should justify why the course warrants graduate credit in terms of level of content, previous knowledge required, relevance to current research, methodology, etc. (See Criteria, above.)
 - b. If credit for graduate students is different than credit for undergraduate students, the extra work required should be of a concrete nature, included in calculation of the final grade, and listed explicitly. For example in a class with 3 hours of undergraduate credit and 4 hours of graduate credit, it is necessary to state, 'graduate students must lead one class discussion, write weekly summaries that will be graded, and turn in a 25 page paper instead of a 15 page paper,' than to simply say, 'graduate students will be held to demonstrating graduate level depth in class discussions and assignments.' Demonstration of graduate level depth in class discussions and assignments however should be expected of graduate students if credit for graduate and undergraduate students is equal.
 - c. If variable credit is to be offered to graduate students, e.g., 3 or 4 hours, the higher credit should be justified by describing the extra

work required and how it will be factored into the final grade.

2. Contact hours*

The Graduate College has not established rigid ratios between course credit hours and class contact hours*. However, in recognition of desired variability associated with subject matter and modes of teaching, the following issues are relevant for consideration:

- a. The number of class contact hours* in organized instruction between instructor and student is one factor affecting the quality of instruction. It is customary for graduate courses that carry either 3 or 4 hours of credit to meet in organized instruction for 43 to 58 contact hours* per term (3 to 4 contact hours* per week in fall or spring) including examinations. These ratios should be observed for organized instruction, which excludes laboratory, independent study, special problems, and thesis research courses. An additional laboratory that meets for two to three hours per week can justify one additional hour of credit.
- b. Substantial deviation from these ratios should be justified by the department proposing the course. Each case will be judged on its merits as detailed in the course proposal.

* The distinction between a contact hour and a clock hour is as follows:

- A class contact hour is defined as one 50-minute session, that is, the traditional meeting time within a clock hour, allowing for the mandatory 10-minute passing period beginning at X:50 of the hour.
- If a class session extends past one clock hour, or meets "off-clock," the total session minutes divided by 50 determines the contact hours for the session. Thus, three 50-minute or two 75-minute sessions per week constitute three contact hours per week.

C. Review Procedures

1. Role of the department, school, and college courses and curricula committees.

Review and approval of all appropriate committees is required before a course proposal will be reviewed by the Graduate College.

- a. The course proposal must be approved and signed by the head of the department. The faculty members who prepared the request and will teach the course should be identified.
- b. A courses and curricula committee in the school (if applicable) and college must have reviewed and approved the course proposal.
- c. The proposal must be reviewed and approved by all cross listed units, as well as their school (if applicable) and academic colleges, if different, prior to review by the Graduate College.

- d. The college courses and curricula committee must provide a report of its evaluation. If the substantive review of courses is conducted by a unit other than the college, (e.g., certain independent schools and institutes), those units should also submit a report of their evaluation.
2. Administrative review in the Graduate College
If the college-level courses and curriculum committee verifies that a course meets the six Graduate College criteria 1 through 6 (see [Section A](#) above), then the course may be approved administratively by a dean within the Graduate College.
3. Review by the Program Subcommittee of the Graduate College Executive Committee
Courses that have not gone through a two-tiered committee approval process will be reviewed by the Program Subcommittee of the Graduate College Executive Committee, prior to Graduate College approval.

December 2005

Chapter VII. Graduate College Policy for the Approval of New and Revised Graduate Degree Programs

Review and approval of all proposed new and revised graduate degree programs by the Dean and Executive Committee of the Graduate College are required, as one mechanism for fulfilling the statutory functions of the Graduate College to "develop and safeguard standards of graduate work." Criteria by which proposals for graduate programs are judged by Graduate College committees and the reviews required are described below.

Recognizing the diversity of graduate programs on campus, the criteria are deliberately general to permit flexibility in evaluation of programs by the standards of the discipline.

[Procedures](#) ^[234] to assist you in creating and structuring a proposal and more details regarding the processing of approvals are available online.

A. Graduate Degree Programs

1. Master's Degrees

In a university where the emphasis is on the research Ph.D., there is wide variety in the objectives and organization of master's degrees. In general they fall into two categories:

- a. Those leading to the academic degrees of Master of Arts (M.A.) or Master of Science (M.S.) and are an introduction to scholarly activities and research for the Ph.D.
 - b. Professional master's programs that prepare graduates for careers outside the academy, such as teachers or practitioners.
2. Doctoral Programs
 - a. The traditional Doctor of Philosophy is a rigorous research degree.
 - b. In place of or supplementing the research component, professional doctoral programs usually contain more coursework or professional experience in the form of doctoral projects or practica.
 3. Certificate of Advanced Study

A terminal degree beyond the master's degree for those professionals seeking further course-based education, but not intending to continue for a research doctorate.

B. Master's Degree Programs

1. Criteria for Master's Programs

Because of the variety in master's degrees' objectives, it is difficult to set criteria that are appropriate for all programs. The following are criteria that should guide judgment with recognition of standards of the discipline and objectives of the particular master's program.

- a. A master's program should encompass a well-defined and recognized area of advanced study based on an established body of knowledge.
- b. A master's program should consist of a coherent pattern of courses, which, at the unit's discretion, may be capped by a comprehensive examination, a thesis or project report, or a creative project. The unit has the option of requiring a final evaluation and determining its form if required.
- c. The relation of the master's program to other graduate programs in the unit, particularly to doctoral degree programs, should be clearly defined. There should also be a defined and complementary relation to other master's programs on the campus; unnecessary duplication should be avoided.

- d. A core faculty of demonstrated experience and achievement in teaching and research in the field should be available and committed to conducting the master's program.
- e. Typically, the core faculty should be members of the Graduate Faculty [235]. Evidence of scholarly productivity through publication or of creative achievement through performances and exhibits should be presented.
- f. The core faculty should be sufficient in number to teach the graduate courses and supervise the research connected with a thesis or project if required.
- g. The demand for graduates of the program should be addressed in the proposal, but the demand should not be the primary criterion for measuring the need for a master's program.
- h. There should be evidence of a potential clientele of qualified students for the master's program.
- i. There should be evidence that the proposing unit has the resources, available or committed, to mount a master's program without diluting existing programs. The resources should be sufficient to support the necessary facilities, e.g., library, computer, laboratory, and so forth.
- j. A proposal for a new or substantially revised program should compare the proposed requirements with those of similar programs at peer institutions.
- k. The proposed master's program must meet the minimum requirements for master's programs for admission, credit, residence, and so forth, as stated in the Graduate College Handbook for Students, Faculty and Staff [236].

2. Requirements for Master's Programs

- a. A master's degree program must require at least 32 hours. Usually, a professional master's program requires more than 32 hours of credit. The proportion of course work to thesis research credit is determined by the department.
- b. Every master's program must include at least 12 hours of 500-level courses, and at least 8 of these 12 hours must be in the major field [237]. A department may determine the number of hours of thesis (599) that may count toward the 500-level requirement.

3. Criteria for Professional Graduate Programs

- a. A proposal for a professional graduate program should clearly explain whether, and under what circumstances, required courses can be waived for equivalent course work that a student has completed prior to enrollment in the program.
- b. If a professional program admits students who have not received a bachelor's degree in the discipline, then the program should have sufficient graduate-level content to warrant a graduate

degree.

4. Requirements for Professional Graduate Programs
 - a. If courses can be waived, then the proposal must specify the maximum number of hours that may be waived and the circumstances in which such action would be justified.
 - b. Regardless of the number of hours waived, the student must still earn at least 32 hours of credit, including transfer credit, for a master's degree.

C. Doctoral Degree Programs

1. Criteria for New Doctoral Programs
 - a. A doctoral program should contribute to the broad mission of the University of Illinois at Urbana-Champaign.
 - b. There should be a defined and complementary relation of the proposed doctoral program to other graduate programs on the campus, and in the case of a new degree, to other degrees in the unit.
 - c. A doctoral program should derive from a body of knowledge established over a sufficient period to develop a substantial scholarly discipline of well-defined content, in a field of reasonable depth.
 - d. A core faculty of demonstrated experience and achievement in graduate teaching and research should be available and committed to conducting the doctoral program.
 - i. Normally, all of the core faculty should be members of the Graduate Faculty and a substantial proportion should have tenure. Evidence of scholarly productivity through publication or creative achievement through performances or exhibits should be presented.
 - ii. The core faculty should be sufficient in number to teach the graduate courses and conduct and supervise the research.
 - e. The need for a doctoral program in the discipline should be demonstrated in terms of the potential contribution of its graduates to education, research, public service, or private enterprise.
 - f. The demand for graduates of the program should be addressed in the proposal, but demand should not be the primary criterion for measuring the need for a doctoral program.
 - g. There should be evidence of a potential clientele of qualified students for the doctoral program.
 - h. There should be evidence that the proposing unit has the resources, available or committed, to mount a doctoral program, without diluting ongoing programs. The resources should be

sufficient to support the necessary facilities, e.g., library, computer, laboratory, and so forth.

- i. A proposal for a new program should compare the proposed requirements with those of similar programs at peer institutions.
- j. The proposed doctoral program must meet the minimum requirements of the Graduate College for admission, credit, doctoral examinations, dissertation, and so forth, as stated in the Graduate College Handbook for Students, Faculty and Staff [236].

2. Requirements for Ph.D. Programs

- a. The Ph.D. is a research degree. The unit proposing a Ph.D. should have in place or under development a strong program of research and scholarship. A rigorous research component should be required in the graduate program.
- b. A Ph.D. program requires at least 96 hours of credit, divided into three stages [238]. A doctoral student is considered to be in Stage I from initial enrollment in the Graduate College to completion of the master's degree or its equivalent, namely at least 32 hours of graduate work here or at another university. Stage I ends with an evaluation of the student's progress toward the doctoral degree, by examination or other formal review procedure. A doctoral student is considered to be in Stage II from completion of the master's degree or equivalent to completion of all departmental requirements (except the defense and deposit of the dissertation), including passing the preliminary examination. Stage III is the time from the completion of Stage II to passing of the final defense and deposit of an approved dissertation, and consists of research and other activities.

3. Requirements for Other Doctoral Programs

Other doctoral degree programs must be judged by the above criteria, where appropriate, as well as the special criteria of the profession and the discipline.

D. Revised Graduate Programs

The Graduate College Executive Committee should review and approve proposals for all major revisions of graduate degree programs. Minor revisions to programs may not require approval beyond the Graduate College. Substantial revisions will require approval beyond the Graduate College. To determine the degree of changes you are proposing and the approvals that will be needed, review the guidelines below, and consult the Levels of Governance (LOG) [239], maintained by the Office of the Provost. The Review and Approval Process [240] is explained below. At the request of the department, Graduate College staff can give advice on such matters. The following may serve as guidelines:

1. Major Revisions
 - a. A change in the credit required for a degree is the one absolute criterion that marks a revision as substantial and requires approval by the Graduate College and report to the Board of Trustees.
 - b. The department has considerable discretion in establishing the curriculum in a particular discipline. The content of graduate courses and graduate programs naturally evolves in response to new directions or emphases in a discipline. A major change in course requirements that substantially changes the content of the degree should be interpreted as a revised program or a new option under an existing degree and requires approval by the Graduate College and subsequent levels of governance. A proposal for a substantially revised program should compare the proposed requirements with those of similar programs at peer institutions.
2. Minor Revisions
 - a. Credit changed by adding or deleting a requirement for research hours and adding or deleting a requirement for an equal number of hours of course work would be a minor revision.
 - b. The department has discretion to revise the course requirements, the sequencing of courses, the requirements and format for master's and doctoral examinations, and the requirements for master's and doctoral theses. Changes in such requirements are generally regarded as minor. If the changes are deemed substantial, the unit will be notified that a proposal for revision of a program is required.
 - c. Editorial revisions to the Programs of Study description of a program
 - d. Addition or deletion of a comprehensive examination or a qualifying examination

E. Joint Degree Programs

1. Definition
 - a. A joint degree program enables a student to earn two degrees with fewer total units of credit than pursuing each degree program separately. The two disciplines being combined should enjoy intellectual synergies, so that the joint degree student acquires knowledge and skills substantially equivalent to a student who takes the programs separately. If such synergies are not present, then reductions in total requirements could reduce the quality of one or both degrees, and therefore the joint degree proposal would be unlikely to be approved.

- b. The program requirements below make joint degrees different from a dual degree program, in which a student independently chooses to pursue two individual degrees simultaneously.

2. Proposal Requirements

Two academic units that wish to offer a joint degree program must submit a formal proposal for review by the Graduate College. The proposal must include the same elements as a proposal for a new degree program, such as the justification for the program, and budgetary and staff implications. The proposal must address the division of tuition revenues and handling of tuition waivers between colleges in which the separate programs are offered. The proposal should explain how students will be advised and evaluated.

3. Program Requirements ^[241]

- a. A student who wishes to enter a joint degree program must be admitted separately to each program as a joint degree candidate.
- b. Both degrees are awarded simultaneously upon completion of all requirements.
- c. Usually, each degree program counts some courses in the other program - typically up to 12 hours of credit - as electives in meeting its own requirements; however the hours required for the joint program cannot be less than the sum of the minimum hours required for each degree independently (eg. 120 for a bachelor's, 32 for a master's, etc.).

4. Approval

- a. A joint degree program that combines existing degrees does not require approval beyond the Graduate College and the Provost's Office.
- b. However, joint degree programs must be reported to the Board of Trustees and submitted as part of the University's annual listing to the Illinois Board of Higher Education.

F. Extramural/Online Programs

1. If a new degree will be created to be offered extramurally or online, the unit should follow the instructions for new degree programs, and the additional reviews needed for extramural/online program review will be included in the approval process.
2. For existing degrees and courses to be offered off-campus or online, additional approvals are required. See the Policy for the Off-

G. Majors, Concentrations, and Minors

1. Major refers to the student's primary program of study. Students in a graduate major leading to the award of a master's degree are required to complete at least 32 hours, and those in graduate majors leading to the award of a doctoral degree must complete at least 96 hours. See above for more information on these requirements. The successful completion of a major is noted on the student's transcript. Only students in joint or dual degree programs may complete more than one major.
2. Concentration refers either to a specialized program of study within a major, or an interdisciplinary program. A graduate concentration consists of at least 24 graduate hours of relevant course work. A graduate concentration may reflect either content specialization within a particular discipline (for example, a plant concentration within a degree in biology), or an interdisciplinary program (for example, an interdisciplinary concentration in cultural studies and interpretive research). For more information, see the Policy for Graduate Concentrations [243].
3. A minor is a coherent set of at least 12 graduate hours of courses defined by one or more units outside the student's enrolling department. A minor encourages and recognizes expertise gained in a particular area. This expertise could be completely outside the usual degree requirements or it could significantly extend knowledge in an area closely related to a particular degree program. For more information, see Policy for Graduate Minors [244].

H. Options, Tracks, Cognate Field, and Specializations

The terms "track," "cognate field," and "specialization" may have different meanings or may be used interchangeably. While these may be defined within certain units, they may also be created by individual students based upon their own particular interests. Because their successful completion is *not* noted on the student's transcript, they are less formal than concentrations, and may vary in terms of the hours required. Students may complete more than one option, track, cognate field, or specialization.

I. Interdisciplinary Programs

The Graduate College encourages the development of innovative graduate programs, especially interdisciplinary programs. New programs that do not involve new degrees can be developed as options or specializations under

existing degree programs. New options do not require review beyond the Graduate College. Interdisciplinary program proposals must have the approval of all cooperating departments, schools, and colleges.

J. Guidelines for Multi-Institutional Graduate Degrees in Collaboration with a Foreign Institution ^[245]

K. Review and Approval Process

The Levels of Governance (LOG ^[246]) outlines the levels of approval required, by program proposal type. Depending upon the proposal type, the approval at each level could require review and a vote, or could be as a listing or consent item. However, the number of approvals required is commensurate with the significance and extent of the changes proposed. View the LOG ^[247] to determine which approvals are required for your proposal.

1. Approvals Before Arrival at the Graduate College

All proposals should have been reviewed and approved by the following units before arriving at the Graduate College:

- a. Departmental Courses and Curricula Committee or other committee
- b. Executive Officer
- c. School (if applicable) Courses and Curricula Committee or other committee
- d. Director of School (if applicable)
- e. Disciplinary College Courses and Curricula Committee or other committee
- f. Dean or designee

2. Committee Review at the Graduate College

- a. Minor revisions do not require Committee Review at the Graduate College.
- b. Proposals for new programs and for major revisions to programs require Committee Review at the Graduate College, and approval, in turn, by each of the following:
 - i. Program Subcommittee of the Graduate College Executive Committee. Composition of the Program Subcommittee shall be:
 - Six voting members: five faculty members who are members of the Graduate Faculty, including the chairperson, and one graduate student. No more than one of the six voting members of the subcommittee shall be from a given department.

- All faculty members of the subcommittee are members of the Executive Committee of the Graduate College.
 - Membership should rotate, if possible, with at least two new and two continuing faculty members each year.
- ii. Committee on Extended Education and External Degrees (CEEED)* for off-campus degree programs only, including those offered at sites other than the Urbana-Champaign campus, by distance learning technologies or online .
 - iii. Program Subcommittee of the Executive Committee
 - iv. Full Executive Committee
 - v. Dean
3. Proposals that Require Approval or Report Beyond the Graduate College

See the [LOG](#) [246] to determine additional levels of review and approval for your particular proposal. The full list of approvals is as follows:

- a. Provost or designee
- b. Senate Educational Policy Committee
- c. Urbana-Champaign Senate Faculty Senate
- d. Senates Conference
- e. Board of Trustees
- f. Illinois Board of Higher Education

August 2006, Administratively revised August 2009

Chapter VIII. Policy for Graduate Concentrations

The purpose of this policy is to establish guidelines under which units offering graduate degrees may seek Senate approval of graduate concentrations to be acknowledged on the student's official University transcript.

A. Background:

The University of Illinois graduate transcript lists *degrees*, *majors*, and *minors* at the graduate level, and all have defined requirements and approval routes. This document defines the requirements for formal graduate concentrations, and the approval route in order for it to be noted on a student's official transcript. A formal concentration may be defined as an elaboration or an extension of a graduate

major. A concentration may reflect either content specialization within a particular discipline (for example, a taxation concentration in accountancy), or an interdisciplinary program (for example, an interdisciplinary concentration in cultural studies and interpretive research). In order to be approved and noted on the student's transcript, a graduate concentration requires approval by the disciplinary college, the Graduate College, the Senate and the Board of Trustees.

This proposal seeks to define only those concentrations at the graduate level that would be listed in the *Programs of Study* [248] and recorded on the student's official transcript. Although most graduate programs require students to specialize in one form or another, not all of these specializations need to be formal concentrations (i.e., represented on the student's transcript). Graduate education nearly always involves some form of specialization or interdisciplinary work, yet the need for transcript recognition varies in importance across the disciplines. Indeed, transcript recognition should be sought only when there is a clear benefit to the student and/or to the department—for example, when transcript notation is required by specialized accrediting bodies, or in response to job market demands.

B. Requirements:

A graduate concentration should consist of a minimum of 24 graduate hours of relevant course work at the 400- and 500-level and/or thesis credit in the sponsoring department(s), regardless of whether the concentration is intended for master's degree or doctoral degree students.

1. Any academic department or unit with the approval of the disciplinary college(s) may initiate a proposal for a graduate concentration.
2. An academic department or unit (or a combination of departments or units, in the case of interdisciplinary programs) intending to propose a concentration should prepare a proposal in accordance with these instructions, including a rationale that indicates why transcript recognition of the concentration is important, and obtain approval(s) from the disciplinary college(s) before sending to the Graduate College. Proposals should be prepared using the standard Senate format for proposals at <http://www.senate.illinois.edu/ep/proposals.htm#Forms> [249]. Proposals should be sent to the Graduate College for review and approval by the Program Subcommittee and the Executive Committee. The Graduate College will send approved proposals to the Office of the Provost for forwarding to the Senate and Board of Trustees.
3. The department or unit sponsoring the concentration may set additional prerequisites for eligibility for the concentration (e.g., minimum GPA). Additionally, the sponsoring department or unit may set other requirements for completion, such as a qualifying examination, practicum, etc.

4. Students must contact the sponsoring department or unit offering the concentration for information about the concentration, and the sponsoring department or unit must make available information and consultation to inform students about requirements for the concentration.
5. A student's intent to pursue a graduate concentration must be approved by the student's adviser and graduate program director, as well as the unit offering the concentration. As in the case of graduate minors, the student's major department will determine how many graduate hours of a concentration may count toward the degree requirements in the student's program, or toward completing other graduate concentrations.
6. A student who completes a graduate concentration should have at least one faculty member in the area of concentration serve on the student's thesis committee. In the case of interdepartmental concentrations, the thesis committee should comprise faculty members from more than one department or area of knowledge.
7. It is up to the sponsoring department or unit to establish criteria and timelines for completion of the concentration, and to certify its successful completion. When a student indicates an intention to graduate with a concentration, the department(s) will confirm whether the requisite course of study has been completed.

Approved by the Urbana-Champaign Senate April 25, 2005; administratively updated August 2009.

Chapter IX. Policy for Minors

A. Brief Description

The purpose of this proposal is to establish guidelines under which units may seek Senate approval of a graduate minor to be acknowledged on the student's official University transcript.

B. Background

Graduate programs offer a range of curricular possibilities, including options, tracks, concentrations, specializations, minors, and cognate fields. Graduate minors require approval as described below, and are noted on the student's transcript.

Minors are a coherent set of courses defined by one or more units outside the student's enrolling department. A minor encourages and recognizes expertise gained in a particular area. This expertise could be completely outside the usual degree requirements or it could significantly extend knowledge in an area closely

related to a particular degree program. For some students, completing a minor will be both appealing and advisable. For others, this will not be the case. The student's enrolling department may decide how many graduate hours of a minor may help fulfill the degree requirements for the student's program. The spirit of a minor is the development of additional academic strengths. It would thus be unusual for there to be total overlap between defined degree requirements and the requirements of a minor. Historically, minors have been constituted primarily with 500-level courses. Some minors may require that a member of the unit(s) offering the minor serve on the student's master's or doctoral committee.

C. Guidelines

A minor should constitute a coherent program of study requiring some depth in the subject, but not as extensive a program as the major. The minor should consist of at least 12 graduate hours of course work in the sponsoring department(s). At least 8 to 12 graduate hours of the minor should be courses at the 500-level.

1. Any academic department or unit with the approval of its disciplinary college may initiate a proposal for a graduate minor. The proposal should comply with the guidelines below and follow the format of the Standard Graduate Minor Approval Form ^[250].
2. Minors approved by the Graduate College will be forwarded to the Senate for approval. The Senate Educational Policy Committee, acting on behalf of the Senate, will review all proposals and accept those that comply with these guidelines. Proposals that are out of the ordinary, such as those from more than one department or those from units that are not academic departments, may, at the Committee's option, be forwarded to the Senate for review by the whole Senate. The Senate Educational Policy Committee shall annually report to the Senate all newly approved graduate minors.
3. All graduate minors must receive disciplinary college, Graduate College, Senate, and Board of Trustees approval in order to be officially recognized by the campus and listed on the transcript.
4. The Banner system displays degree, major, concentration, and minor designations. The University of Illinois at Urbana academic transcript will reflect completion of all Senate-approved graduate minors earned by the student.
5. Students must apply to the sponsoring department for admission to the minor. It is up to the sponsoring department to determine the appropriate enrollment, to establish criteria and timelines for admission

to the minor.

6. A student's application to pursue a graduate minor must also be approved by the student's adviser and graduate program director prior to beginning to fulfill the minor requirements. The student's enrolling department will determine how many graduate hours of a minor may help fulfill the degree requirements in the student's program.
7. A minor may require that a member of the unit(s) offering the minor serve on the student's master's or doctoral committee.
8. The sponsoring department must identify an adviser for each minor. It is the minor adviser's responsibility to advise students on minor requirements.
9. When a student indicates an intention to graduate with a minor, the sponsoring department will confirm whether the minor course of study has been completed and certify successful completion of the minor.
10. Because of the nature of most graduate programs, master's students generally would not complete more than one minor. Doctoral students generally would not complete more than two minors.

Approved by the Urbana-Champaign Senate December 8, 2003

Chapter X. Policy for the Off-Campus/Online Delivery of Graduate Degree or Certificate Programs

A. Introduction

The University of Illinois at Urbana-Champaign has traditionally sought to extend its graduate-level instruction mission to include the continuing education needs of citizens throughout the State of Illinois. In particular, the Urbana campus has placed a high priority upon meeting the continuing education needs of professionals such as teachers, social workers, engineers, and farmers as they strive to improve their skills and broaden their perspectives related to their own professional practice. The national and international role of the campus has also created opportunities where it is appropriate to extend graduate-level instruction beyond Illinois.

The Graduate College seeks to support units in their efforts to expand and improve off-campus/online educational opportunities and to encourage greater

participation by academic units in the lifelong education of nontraditional students, particularly as it relates to continuing professional education. Graduate College policy allows students to satisfy their graduate residence requirement either through courses meeting on the Urbana campus, online, or through courses that are offered by the University of Illinois at Urbana-Champaign, but meet off-campus. All courses must be approved before they can be offered. See [Developing Courses and Programs](#) ^[251] for the graduate course approval policy and procedure.

While Graduate College policy has expanded access to graduate education at Urbana-Champaign, it is also clear that high quality graduate programs often involve more than required courses. Graduate programs often include an independent experience, whether it be professional or research, that challenges the student to examine a topic in detail and draw a unique conclusion. In addition, programs must also involve such elements as a capable and accessible faculty, motivated students, a strong curriculum, competent academic advisement, appropriate and accessible academic facilities, and skilled program administration. Attention to these elements is particularly important in the case of off-campus/online graduate programs because learners may not have as many synchronous interactions with their classmates or the rest of the campus community during their program, as a student residing on campus.

In this regard, the Graduate College has a particular responsibility to make clear its expectations regarding the design and conduct of off-campus/online graduate degree and certificate programs and to assist academic units to develop programs that meet these expectations.

It is the position of the Graduate College Dean and Executive Committee that the quality of off-campus/online graduate degree and certificate programs could be further enhanced if the Graduate College were to review the plans of academic units to offer such programs prior to program implementation. The process would allow the Graduate College, through its staff and committee resources, to share its experience and insight regarding graduate education in the process of program development.

By upholding these standards, the Graduate College hopes to be an active and involved partner in the design and implementation of off-campus and online graduate degree and certificate programs. By working collaboratively with colleges and academic units, the Graduate College hopes to assist in addressing both the unique problems and opportunities associated with off-campus/online graduate education.

B. Definition

Graduate degree and certificate programs delivered off-campus/online are those in which more than one-half of the graduate hours required for the degree

or certificate completion are offered either online to students at a distance or at off-campus sites.

Certificate programs are defined as a series of graduate-level courses designed to further the professional development of specific groups. Completion of a certificate does not lead to a degree nor is it noted on the transcript, with the exception of the Certificate of Advanced Study (C.A.S.) [252]. Because of this, credit earned while enrolled in a certificate program (except of a C.A.S.) may be applied toward a degree according to Graduate College transfer policies [58]. Transcribed certificate programs, such as the C.A.S., follow standard campus policies for creation of a new degree program [253].

C. Authorizations

Authority is vested in the Graduate College for approval of post-baccalaureate (graduate-level) degree and certificate programs.

Graduate programs determine whether or not on-campus graduate students may enroll in the courses they offer online.

All programs offered online and off-campus must be reported to the Illinois Board of Higher Education. However additional reports, reviews and approvals may be necessary depending upon the type of program and the location/mode of delivery as follows:

- 1. Certificates:**

New credit-bearing certificate programs where more than 50% of the coursework is not associated with an existing previously approved degree program will require review and approval by the Higher Learning Commission.

Certificates offered off-campus/online will require reporting to the Higher Learning Commission.

- 2. Degree Programs:**

Any off-campus site-based degree program will require review and approval by the Illinois Board of Higher Education and the Higher Learning Commission prior to enrolling any students. The Office of the Provost will oversee the submission of proposals and reporting of approvals at all levels above the Graduate College.

- 3. Off-site:**

Any new site outside of Illinois where five or more courses are offered must be approved by the Higher Learning Commission. All new sites outside of Illinois must comply with any local or state regulations for delivery of educational programs.

4. **Online:**

All Title IV-eligible degree or certificate programs where 50% or more of the coursework is delivered online or through another means of distance education must be approved in advance by the Higher Learning Commission.

D. Approval of Off-Campus/Online Graduate Certificate and Degree Programs

Graduate degree programs must go through an extensive approval process to be offered on campus. This discussion pertains to the process of approving a certificate program or an existing graduate degree program for delivery off-campus/online.

Graduate degree and certificate programs offered off-campus/online must be approved by the following units:

- The department, and school, if applicable;
- the academic college;
- the Office of International Programs and Studies (if instruction will take place outside the U.S.) to secure needed campus and University approvals, and;
- the Graduate College Committee on Extended Education and External Degrees (CEEED).

The CEEED will then recommend approved programs to the Dean of the Graduate College for final approval which is also communicated to the Executive Committee as an information item. Approval for all program proposals is communicated by signatures on the Clearances sheet, which should be submitted with the proposal. Some proposals may need additional reviews.

The Illinois Board of Higher Education and the Higher Learning Commission (the organization that accredits the campus) have complex rules controlling the offering of courses, certificate, and degree programs off-campus or online. In some cases, the approvals required before any students matriculate in the new program may take as much as a year. Please consult the web site www.provost.illinois.edu/programs/cps/establishcurricula.html ^[254] to see what type of approvals may be necessary.

E. Items to be Addressed in Off-Campus/Online Graduate Degree or Certificate Program Proposals

Proposals must provide details addressing each of the following topics. These responses are intended to validate the expectations of the Graduate College concerning the design and implementation of high quality off-campus/online graduate degree or certificate programs. Units must use the Template to Develop a Proposal for Offering a Graduate Degree or Certificate Off-Campus/Online ^[255], and an accompanying form is provided ^[256].

1. Program Identification:

Describe the specifics of the program to be offered off-campus/online.

2. Program Purpose:

An academic unit proposing off-campus/online delivery of a degree or certificate program must clearly state the purposes it intends to serve and the goals that it hopes to achieve through such a program. In particular, how does the program contribute to the unit's teaching, research, and service missions?

In addition, the decision to offer an off-campus/online degree or certificate program must be based upon a thorough and systematic assessment of program need. The needs and how they were assessed must be documented. Based on the needs and the unit resources, what are the projected program enrollments for startup and future sustainability?

3. Relationship to Existing Programs:

How will this new cohort of students be similar to or different from the existing on-campus cohort with regard to the department, the curriculum and the employment sector? How will the new and existing programs benefit or hinder each other?

4. Faculty:

Faculty members involved in an off-campus/online graduate degree or certificate program should ordinarily be members of the Urbana-Champaign faculty or in the case of multi-institutional programs, faculty at that institution. Exceptions to this rule are often made, including the use of adjunct faculty, but should be allowed only by reason of a person's ability to make a unique contribution to the program because he or she possesses professional skills, experiences, or perspectives that are not represented or not available within the academic unit's own graduate faculty.

5. Student Admission:

The quality of a graduate degree or certificate program is directly related to the quality of the students. A graduate program should therefore endeavor to select and admit applicants who show the greatest academic or leadership potential.

Graduate College minimum admission requirements are the same for off-campus/online students as they are for their on-campus counterparts (minimum GPA and an earned bachelor's degree from an accredited institution). However, departments may require different application materials of on campus, online and off-campus students if they desire, in order to assess each of those groups for admission purposes. Nevertheless, the overall quality required of an applicant to be admitted must be similar across the programs. In the case of programs admitting international students, the Graduate and Professional Admissions unit should be consulted regarding appropriate admission policies and procedures for those applicants prior to promoting the program.

The program should also consider the maximum number of admissions per year that can be allowed in the online or off-campus cohort and whether students are admitted as non-degree or degree seeking. Whatever the academic unit's admission criteria, they must be well defined and articulated before seeking approval for an off-campus/online degree or certificate program.

6. Curriculum:

The requirements for the degree must be the same as the approved on-campus program.

Academic units proposing an off-campus/online degree or certificate program should include a list of courses that may be offered online or off-campus as part of that program. In most cases, the online or off-campus program will not provide the same variety of courses available to students enrolled in the similar program on-campus. However the courses offered must allow the student to be able to complete the program as approved. Thus required courses and adequate electives must be offered using an equivalent mode of distance delivery and in a time period to allow for completion within the Graduate College time limit policies (Master's ^[257] and Doctoral ^[102]).

7. Advising:

Academic advising is a fundamental dimension of any graduate degree program. Due to the unique nature of these programs, students enrolled in off-campus/online programs must be assigned an adviser at the time of admission and must be provided with the regular opportunity to communicate with their advisers to discuss not only choice of course enrollment and satisfaction of degree requirements, but other intellectual and professional concerns as well. In addition, Graduate College policy describes the requirements of advisers for master's students completing a thesis ^[258]. A method must exist to assist students with particular academic or professional interests to be linked with

faculty members with similar interests. This opportunity is essential for both on-campus and off-campus/online students. Provisions must also be made for the continuous monitoring of student progress and the maintenance of appropriate academic records for that purpose.

In addition, Graduate College policy requires annual reviews of the academic progress of all degree-seeking graduate students, including those enrolled in off-campus/online degree programs. See the policy for Graduate Student Annual Academic Progress Reviews ^[259] for details.

8. Academic Support:

Off-campus/online graduate study requires the availability of adequate academic support which might include computer technologies and software, or classrooms or laboratories which are well-equipped and up to the standards required for graduate study. Library resources should contain the necessary books and periodicals and be accessible at times convenient for nontraditional students. Access to needed computer hardware, software and technical assistance should be assured.

9. Program Administration:

The program must be under the direct and continuous supervision of the academic unit(s) sponsoring the program. The responsibility for the oversight, especially with respect to the academic issues related to an online or off-campus degree or certificate program must be assigned to faculty within the academic unit that is offering the program. The academic unit's program administrator should work cooperatively with other involved administrative and academic units to ensure that the following issues are adequately addressed:

- That the academic unit ensures, prior to enrollment, that students are fully and accurately informed about the purpose of the program, objectives, admission requirements, program requirements, degree awarded, cost, academic and financial policies, timelines, and the services to be provided or not provided.
- That adequate communication channels exist between students and faculty, between students and the academic unit.
- That courses will be scheduled far enough in advance to assure that students have adequate time to plan their schedules.
- That steps will be taken to ensure that the faculty understands the purpose of the program, the characteristics of the students, and the nature of the off-campus/online teaching/learning setting.
- That if non-Urbana-Champaign faculty is utilized, the academic units have a mechanism to ensure consistency in course content and academic standards.
- That program planning involves those academic units who may necessarily have to contribute to the program. (For example:

Education Policy, Organization and Leadership and Educational Psychology in the College of Education degrees, because their foundations courses are required.)

- That the funding is adequate to ensure a quality program.
- That all necessary approvals from governmental bodies will be obtained prior to offering the program.
- That if professional accreditation is needed for entry into the field, as specified in the objectives of the program, this need has been addressed.
- That in the case of discontinuation of the program, all obligations to current students be fulfilled, including the opportunity to fulfill their degree requirements within the regular mode of offering.
- That in the case of contractual programs, the arrangement is consistent with State of Illinois guidelines for contract credit programs and the contract specifies that the University controls the program, consistent with its academic policies, requirements, and procedures.
- That in the case of international programs, the program is consistent with the "Principles of Good Practice in Overseas International Education Programs for Non-US Nationals ^[260]" subscribed to by the regional accrediting associations.

10. Resource Implications:

The program must have thoroughly investigated the long-term budget and resource implications of starting an online or off-campus program. The program must be sustainable both in terms of unit budget and staffing of faculty and administrators. Account for potential program growth in this section. If special tuition or tuition arrangements are desired, these require additional campus approvals. These approvals must be obtained before a program may be implemented.

11. Program Evaluation:

Units must describe the process for evaluation of the program in addition to the periodic program review conducted by the Graduate College. The evaluation should include review of the curricula, student satisfaction, faculty and program resources. Departments are encouraged to require evaluation of all their off-campus/online offerings.

12. Clearances:

A Clearance sheet documenting the approval date and appropriate signature from each participating academic unit must accompany each proposal.

F. Program Review

In addition to assisting academic units in the development of off-campus graduate programs, the Graduate College Committee on Extended Education

and External Degrees (CEEED) will evaluate all off-campus and online graduate degree programs on a periodic basis. See Process and Procedures for Off-Campus and Online Program Review by the Graduate College Committee on Extended Education and External Degrees (CEEED) for details. In addition to assisting academic units in the development of off-campus graduate programs, the Graduate College Committee on Extended Education and External Degrees (CEEED) will evaluate all off-campus and online graduate degree programs on a periodic basis. See Process and Procedures for Off-Campus and Online Program Review by the Graduate College Committee on Extended Education and External Degrees (CEEED) for details [261].

Part 4 - College/School Tuition Waiver Policy Charts for 2012-2013

A table of the policies for all graduate programs listed by college or school can be found by following the links below.

Cost Recovery and Self-Supporting Programs

These programs have unique tuition and fee waiver requirements and tuition schedules, and so are an addendum to the Tuition Waiver Policy [273].

Cost recovery programs are those that:

- are allocated no state funds and must generate all costs through tuition and fees,
- are approved by the Board of Trustees, and
- are exempt from all tuition and fee waiver programs, but
- must honor statutory waivers.

Self-supporting programs are those that:

- receive no direct state subsidy (general revenue funds),
- may depend on a special Board of Trustees approved tuition rate to cover additional costs of developing and offering the program,
- are usually aimed at non-traditional audiences (e.g. professional, off-campus, online), and
- are exempt from all tuition and fee waiver programs, but
- must honor statutory waivers.

Approved Cost Recovery Programs

College	Program
Business	Accountancy MS (MSK)
Business	Executive MBA Program
Business	Finance MS (MSK)
Business	Taxation MS
Business	Technology Management MS
LAS	Economics MS with Policy Economics concentration

ASSISTANTSHIP TUITION WAIVER DESIGNATIONS-ACES for 2012 - 2013

COLLEGE OF AGRICULTURAL, CONSUMER & ENVIRONMENTAL SCIENCES

The table lists current assistantship waiver designations for graduate and professional programs in the college or school. Approved Cost Recovery or Self Supporting programs are also indicated. (You can see the definitions here ^[163].) The "Program" column indicates the program and degrees. The "Waiver Provided ^[274]" column specifies whether students from these programs receive a full ^[275] or base-rate ^[276] waiver of tuition when they are appointed to waiver-generating assistantships ^[273]. The "Reimbursement" column indicates what portion, if any, of the tuition may be sought by the student's disciplinary college as reimbursement from the appointing unit outside the college. The "Stand-Alone Waiver Provided" column indicates what type of waiver is processed when a Stand-Alone waiver ^[277] is awarded by the college.

<u>Cost Recovery or Self Supporting</u> ^[163]	Program	Waiver Provided	Unit Seeks Reimbursement	Stand-Alone Waiver Provided
Self-supporting	Ag Production MS with PSM conc	**None		None
Self-supporting	Bioenergy MS with PSM conc	**None		None

* Effective Fall 1999, LAS will seek reimbursement from certain administrative (non-research) units such as the Chancellor's and the various vice-chancellors' offices, the Library, and Planning, Construction, and Maintenance (PCM). Effective Fall 2008, LAS will also seek reimbursement from other academic units that seek reimbursement from LAS.

** Effective Fall 2010, new students enrolled in these programs are not eligible for waiver-generating appointments.

2012 - 2013

ASSISTANTSHIP TUITION WAIVER DESIGNATIONS-LAW for 2012 - 2013

COLLEGE OF LAW

The table lists current assistantship waiver designations for graduate and professional programs in the college or school. Approved Cost Recovery or Self Supporting programs are also indicated. (You can see the definitions here [163].) The "Program" column indicates the program and degrees. The "Waiver Provided" [274] column specifies whether students from these programs receive a full [275] or base-rate [276] waiver of tuition when they are appointed to waiver-generating assistantships [273]. The "Reimbursement" column indicates what portion, if any, of the tuition may be sought by the student's disciplinary college

as reimbursement from the appointing unit outside the college. The “Stand-Alone Waiver Provided” column indicates what type of waiver is processed when a Stand-Alone waiver [277] is awarded by the college.

Program	Waiver Provided	Unit Seeks Reimbursement	Stand-Alone Waiver Provided
